A Letter from Art Metz

October, 1995

Dear Friends,

With a new 5.6 version of METZ Phones, the introduction of the METZ Phones Administrator, and Windows '95 compatibility, this summer has been very busy and exciting for us at METZ Software. So, I have a lot to tell you about!

The new METZ Phones 5.6 was released on August 10 along with a new METZ Phones Administrator application. Improvements to METZ Phones include a faster database engine - which is compatible with your existing databases, support for METZ Phones Administrator along with a variety of ease of use enhancements..

The METZ Phones Administrator delivers important security functionality to large organizations who use PHONES to centralize telephone and address information. The Phones Administrator is an add-on to METZ Phones which allows network administrators to define user and group access rights and file permissions. The Phones Administrator also streamlines administrative tasks, enhancing the appeal of Phones for networked office environments. If database security is an issue for your company, the METZ Phones Administrator is the solution. Both METZ Phones 5.6 and the METZ Phones Administrator are Windows '95 compatible.

This fall our development focus is on version 6.0 of METZ Phones. The product has not yet been announced, but we wanted to share our product direction and vision with you. We will enhance the flexibility of Phones, and expand the ways you can use centralized METZ Phones contact information with your other office applications. As we expand the functionality, we remain committed to providing an easy to use and maintain product for your networked addressing information. We plan to incorporate many of your requested features such as expanded reporting and call logging capabilities. Your feedback has helped us tremendously, and we are always looking for more, please feel free to contact us by phone or electronically with your comments and suggestions.

Version 6.0 will be a 32 bit application. We realize it will take everyone a while to move to Windows 95, so we will continue to improve and support the 16 bit version as long as necessary.

METZ Phones 32 bit version availability and upgrade policy:

For those considering a purchase of METZ Phones now, but are concerned about the cost of upgrading to the 32 bit version, don't hesitate. We will protect your investment with the following upgrade policy:

Users who purchase METZ Phones 5.51 or greater after July 15, 1995 will be eligible to download the 32 bit Windows 95 version and obtain a free license number, or order the update disk for a nominal shipping and handling fee of \$10.

This policy is subject to change and will apply only to users who purchase METZ Phones while this policy is in effect. Please contact METZ Software if you have any questions.

METZ Phones Receives WIN100 Award

In case you haven't heard, METZ Phones received a WIN100 award from Windows magazine earlier this year, recognizing the top 100 products for 1995. We were very excited to be included in this year's list of winning products.

We're Expanding Electronically

We are working hard to continually expand and improve our electronic presence and make it easy for you to contact us for information, products and technical support. We now have a presence on seven on-line services including our latest additions, The Microsoft Network and AT&T Interchange, and our own Internet site. In your on-line travels stop by METZ for a visit. We have information on our company and products as well as technical support and free trial versions of our software products.

New Consulting Services

Earlier this year, we formed a new consulting company called Metz Smith, Inc. (MSI) in response to growing requests for consulting and customization. Douglas Earl Smith, a long term colleague, is the president of this new venture. I will continue as president of METZ Software and focus on development of our retail products, while Doug will pursue the consulting and customization opportunities. Both companies will share resources and technology.

Metz Smith, Inc. delivers high quality Windows software design and development for corporate and independent software vendors. . MSI can effectively customize Phones for you or provide a wide range of Windows development services. MSI can effectively translate your business and technical needs into high performance Windows code. All development projects are backed by our unique guarantee of 100% client satisfaction. Please contact Doug Smith to learn more about how MSI can provide you with the Windows development solutions you need.

METZ Electronic Beta and Newsletter Mailings Subscriber Information

Sign up now to receive information about METZ Beta releases and/or our electronic newsletter! If you are interested in receiving the METZ Electronic Newsletter, sign up for the METZNEWS program. If you would like to participate in beta testing products, sign up for the METZBETA program instead.

Subscribing to METZNEWS is simple, send e-mail to 75300,1627 on CompuServe, METZSoft on AOL, or metz@metz.com from Internet sites. Be sure to use SUBSCRIBE METZNEWS as the text of the message.

If you wish to subscribe to METZBETA, send e-mail to 75300,1627 on CompuServe, METZSoft on AOL, or metz@metz.com from Internet sites, and use SUBSCRIBE METZBETA as the text of the message.

METZBETA subscribers will automatically receive mailings sent to METZNEWS subscribers so it is not necessary to subscribe to both groups.

Thank you for your support, from all of us at METZ Software.

Sincerely,
Art Metz

President

Reseller Information

Dear Reseller,

METZ Phones' popularity is growing both in the general networked office marketplace and in the legal and healthcare markets. Users are finding it to be a great tool for creating and maintaining company directories and for sharing client information across workgroups. We are interested in working with resellers who specialize in these areas or any other vertical markets where Phones your customers can benefit from centralized address and telephone management. With the benefit of customization, we can adapt Phones to the unique needs of a vertical market customer.

METZ Phones is also very popular with Microsoft Office suite users now that it is certified Office Compatible. Office Compatible means that Phones "Looks and Works Like" Microsoft Office suite applications. Office Suite does not have a PIM product included with it, so Phones is proving to be an easy and valuable add-on sale to anyone purchasing Microsoft Office.

If you would like to find out more about working with METZ Software as a Reseller, please call me for details at 206-641-4525.

Sincerely,
Richard Noffsinger
Strategic Accounts Manager

The METZ Software BBS!

As a free service to our customers, the METZ Software Bulletin Board System (BBS) is available 24 hours a day. Updates and trial versions of our products are available for download. You can also use the BBS to send us your questions and suggestions. The telephone number is (206) 644-3663, just use your favorite communications program to call and sign yourself up for free!

For Immediate Release
August 10, 1995

METZ Phones 5.6 and METZ Phones Administrator: Improved Database Engine Plus Security Package

Bellevue, Wash. August 10, 1995 -- In its continued effort to focus on managing phone and address lists across networks, METZ Software announced today the release of *METZ Phones v5.6* for Windows and the new security add-on, *METZ Phones Administrator*. Shipping today, August 10, 1995, the *METZ Phones 5.6* upgrade contains the new Borland Database Engine for added speed, as well as additional network and access security features through the new *METZ Phones Administrator*. *METZ Phones 5.6* has a suggested retail price of \$89. Registered users of METZ Phones may upgrade for a nominal shipping and handling fee. Priced at \$495 per server site, *METZ Phones Administrator* is an add-on to *METZ Phones 5.6* that allows the network administrator to define specific user and group access rights and file permissions.

METZ Phones v 5.6 for Windows

METZ Phones affords workgroups easy access to central databases of common telephone and address information, so multiple users can now have simultaneous access to the same database. Designed to facilitate an unlimited number of phone numbers and 3 separate address listings on each record, *METZ Phones* simplifies record keeping while offering easy importing and exporting of databases through a variety of file formats.

An intuitive label interface allows users to design their own labels or use the library of standard *Avery*® label templates for effortless label printing. *METZ Phones* offers DDE (Dynamic Data Exchange), for simple access to data from a word processor for use in a mail merge or report.

While minimized, *METZ Phones* frees the majority of its resources enabling users to keep address information easily accessible while large applications are running. *METZ Phones 5.6* is *Microsoft Office 95* compatible offering similar commands, menus and toolbars to give users the same familiar and consistent way of operating. Tooltips have also been added to give users a quick description of the toolbar button functions.

METZ Phones Administrator

METZ Phones Administrator is a powerful addition to *METZ Phones 5.6* which allows network administrators to manage and control access to address and telephone databases by granting access rights to each user. Feature and field level access control is also provided.

Access rights are defined by file (any database file used by *METZ Phones*), group (any number of user's with similar interests or need on a network), and user level (additional rights differing from the group). Grouping users together allows the administrator to give several users the same basic rights in one step rather than defining rights for each user individually, saving the administrator time and effort.

METZ Phones v5.6 System Requirements

- Microsoft Windows™ 3.1, or Windows 95
- Personal computer using 386, or higher, microprocessor
- *METZ Phones* works with *Novell Netware*, *Banyan Vines*, *IBM PC LAN*, *3com 3+ Share*, *DEC pathworks*, *Microsoft LAN Manager*, *Microsoft NT Advanced Server*, *Windows for Workgroups*, *Windows 95*, or any network that is 100% compatible with these.
- *METZ Phones Administrator* requires *METZ Phones 5.6* or later.

Pricing and Availability

METZ Phones 5.6 is available directly from METZ Software at an introductory price of \$49; registered users of any METZ Software product can purchase *Phones 5.6* at the upgrade price of \$29. Site license pricing is also available. Current users of *METZ Phones 5.x* can obtain a free serial number from METZ after downloading the update, or order an update disk for a small shipping and handling fee. *METZ Phones Administrator* is also available direct from METZ Software for \$495 per network site.

A full-featured 45 day trial version of *Phones* is available for download from METZ Software's forum on CompuServe (type GO METZ), America Online forum (choose goto METZ), and from the METZ Software BBS (dial 206-644-3663) or, contact METZ Software directly to order a trial disk.

METZ Software, headquartered in Bellevue, Washington, develops applications and utilities for use with Microsoft Windows™. For more information, call METZ Software at 800-447-1712, 206-641-4525, or fax at 206-644-6026.

VERSION 2.11 NOW SHIPPING!

Now shipping - METZ Task Manager 2.11. With the Launch Pad expanded from 9 to 20 buttons it is now even easier to launch your favorite applications and files. Registered users can download the update from our BBS and forums, or order an update disk directly from us.

We are proud to announce that METZ Task Manager is the recipient of the prestigious **WINDOWS Magazine WIN 100!** This award was presented to the top 100 Windows products for 1992, from a list of *over 5000* candidates! METZ Task Manager has also won **TWO PC Magazine Editors' Choice** awards (2/91, 9/92) and has received a Windows User Best Buy award.

Special Offer!

In celebration of these awards, we are giving you the opportunity to purchase this award winning product for a special price, plus you will receive additional software worth \$29.95 (SRP) for **FREE!** Here's the deal: **for only \$39.00**, you get the \$49.95 METZ Task Manager 2.10 and the \$29.95 METZ Task Manager Utility Pack, a **total \$79.90 value, saving you over \$40.00!**

How you will benefit from METZ Task Manager

We are very proud of these awards and want you to have the opportunity to purchase METZ Task Manager at this special price. Here are just a *few* reasons you should order METZ Task Manager now:

- * **Use it as a speedy shell.** Replace your Program Manager or Norton Desktop as the shell. METZ Task Manager loads much faster than either of these applications, letting you get Windows up and running much sooner, and your groups are still available within METZ Task Manager.
- * **Faster access to your applications.** Press Ctrl Escape at any time, from any application, and METZ Task Manager will appear! You instantly see a list of applications currently running on your system for quick access or you can launch new applications with the click of a button.
- * **Flexibility to work the way you do.** Set up your own launch buttons with a simple drag and drop. With many easy customization options, METZ Task Manager gives you more control over your PC than Windows.

METZ Task Manager Window

- * **Quick File Management.** Copy, move, print, delete, rename and launch files in less time than it takes to load another file manager. Quick File Utilities are instantly accessible from the Task Manager toolbar, including Quick File Find, Quick Text Search, Quick File Manager, and System Status. You can even create entire directories in a snap!
- * **Use METZ Scheduler to automate routine tasks.** Run your backups or email packages at night saving you valuable time. Schedule messages or reminders when you want them. Flexible and easy to use.
- * **Plus much, much, more...**

Here are a few comments from industry experts and current Task Manager users:

"...Task Manager is a collection of things that Windows forgot, and that makes your everyday tasks easier."

WINDOWS Magazine (August 1994)

"Buy it first. You might never need anything else."

PC/Computing (September 1992)

"No other Windows utility packs more functionality per square pixel than the \$49.95 METZ Task Manager."

PC Magazine (September 15, 1992)

"Everything is customizable... METZ has earned a permanent place on my hard disk."

WINDOWS Magazine (November 1992)

"GREAT PRODUCT - Blows Norton Desktop Away"

W. Lem

"Good stuff. Easy to install. Easy to learn. Thank you."

D. Razal

"I like it! With METZ Task Manager as my shell Windows runs faster"

J. Bell

"I tried "Squeegee" and "Rooms for Windows", this is the best, and a bargain!"

A. Bryan

At METZ, our commitment is to build great Windows products with the features you want! We make high performance and low cost our priorities. Our applications are fast and use less memory and system resources. Also, we carefully design our applications to use as little disk space as possible, therefore, you'll get the most out of your hardware! And, most importantly, we listen to our users and incorporate your suggestions as our top priority. We're not just selling products, we're selling service in the form of products and customer support. You won't find any software company with a higher commitment to customer service and support, and products with better value!

Order Today!

Order METZ Task Manager for this special price today, and get the Task Manager Utility Pack for free. **Get \$79.90 worth of award-winning software for only \$39.00!** Just call 1 (800) 447-1712, or fax or mail the enclosed order form and we'll ship your package immediately.

All of us at METZ Software thank you for your support. Please call us if you have any questions or suggestions.

We are sure you will be completely satisfied with METZ Task Manager. With our 90 day, money back guarantee, this is a no-risk offer, so order today!

METZ Lock News

METZ Lock keeps your Windows PC and your confidential information safe from unauthorized access. Whether it's in your office or at home, a single computer or a whole network, METZ Lock "locks" your PC away from those who have no business seeing or copying your, or your company's, private data. If you have personal or confidential information on your PC -- you cannot afford to be without METZ Lock!

METZ Lock 3.5 is now available, it adds support for Netware Directory Services passwords. This version also supports Netware 3.x and 4.x bindery passwords. METZ Lock is Windows 95 compatible. Other features in METZ Lock include:

Feature: User Configurable

Benefits:

- * Choose the setup that really works for you!
- * Standardize your whole company or organization with the same configuration--or let individuals define their own security needs.

Feature: User Defined or NetWare Passwords

Benefits:

- * Let METZ Lock use your Novell NetWare or Banyan Vines password--so you'll only need to remember one password!
- * Or, individualize your password so only you know it.
- * Supports multiple servers on a Novell network.

Feature: Automatic Locking

Benefits:

- * Schedule it to lock at the same time every day--even if you're not there!
- * Have it lock for you whenever you leave your system unattended.

Feature: Manual Locking

Benefits:

- * Lock whenever you leave your desk--it only takes a second!
- * Choose your own personal "hot key" for quick action.

Feature: Customizable Screen Saver

Benefits:

- * Prevent monitor "burn in" with the built-in Screen Saver.
- * Use your own bitmap graphic--try Windows Paintbrush, or scan in your company logo, your child's picture, or a copy of the Mona Lisa!

Feature: Disable Ctrl+Alt+Del Reboot

Benefits:

- * Prevent unauthorized or accidental rebooting of your system.
- * Disable rebooting whenever the computer is on--or only while it's locked.

Customization is available, please contact us with your specific needs.

Two Windows Development Veterans Join Forces to Offer Windows Contracting and Development Services

Bellevue, Wash., June 19, 1995 -- Moving towards the launch of Windows 95, many companies find themselves lacking viable resources for 32 bit Windows software development. Art Metz of METZ Software and Doug Smith announced today they have joined forces to form Metz Smith Incorporated (MSI) to offer Windows 95 software development support to companies and software developers making the transition to Windows 95 and Windows NT. MSI will focus solely on custom business software development through software design, application development and software training for Windows 95, Windows NT and MFC/C++ technology. METZ Software will continue its focus on retail corporate software solutions.

"I'm excited about forming Metz Smith, Inc. because it gives us the opportunity to build a team of highly talented engineers whose prime directive is development of high quality, high performance software for the Windows 95 and Windows NT environments," said Doug Smith, President of MSI. "I believe more and more emphasis will be placed on quality in software development and that is our focus at MSI -- quality in all things."

Doug Smith has been developing software since 1982 and developing Microsoft Windows applications since the days of Windows Version 2. After nearly a decade of development in C, his focus for the past four years has been designing and implementing object oriented systems using C++.

"Our widely experienced backgrounds, combined with shared technology and resources," said Art Metz VP of MSI and President of METZ Software, "enables us to offer all of our customers the highest quality business software solutions."

MSI currently employs five engineers and expects to double in size this year. Completed projects thus far include application design for Corel, Time Systems, Saros and Sawtooth.

Metz, Smith, Incorporated

MSI, custom software development is a privately held company located at P.O. Box 6042 Bellevue, Washington. For more information call (206) 644-9470, fax 644-9586, or Internet: at dsmith@metzsmith.com.

How to contact METZ Software

METZ Software
P.O. Box 6699
Bellevue, WA 98008-0699 U S A

PHONE: 206-641-4525
FAX: 206-644-6026
BBS: 206-644-3663

CompuServe: 75300,1627
Internet: metz@metz.com
America Online: METZSoft
Microsoft Network: METZ
AT&T Interchange: METZ

We at METZ Software look forward to hearing from you. We encourage you to visit our electronic forums, call us, or fax us.

There are several ways to obtain technical support for your METZ products (see address and telephone numbers at the end of this document). Be sure to include the product name and version number.

1. CALL THE BBS number and log on to METZ's electronic bulletin board service to view and download information, updates and trial products. You will need a modem and communication software. Access the METZ BBS at up to 14400 bps, No parity, 8 data bits, 1 stop bit (N-8-1).

On the BBS, you may leave a message as a comment to the SYSOP for technical support, explaining your question in detail.

2. CALL COMPUSERVE to view and download information, updates and trial products. You will need a modem, communication software, and a CompuServe membership. GO METZ at any ! prompt.

On CompuServe, you may send a message to 75300,1627 for technical support. A response will be posted back to you within one business day.

If you are not a member of CompuServe, as a METZ customer you are entitled to a free introductory membership. Simply call one of these CompuServe numbers:

CompuServe in USA & Canada	(800) 524-3388
CompuServe Outside USA, Canada, & Europe	(614) 529-1349

CompuServe in United Kingdom	0800.289.378
CompuServe in Germany	0130.37.32
Compuserve in Other European Countries	+44 (89)66.55.0.111

3. CALL America Online to view and download information, updates and trial products. You will need a modem, communication software, and a membership. Use the GoTo Keyword METZ from the menu.

On AOL, you may send a message to METZSoft for technical support. A response will be posted back to you within one business day.

If you are not a member of America Online, as a METZ customer you are entitled to a free introductory membership. Simply call one of these America Online numbers and ask for a trial membership:

America Online	(800) 827-6364
America Online FAX	(800) 827-4595

4. CALL The Microsoft Network to view and download information, updates and trial products. You will need a modem, Windows 95, and a membership. Use the Go Keyword METZ from the menu.

On MSN, you may send a message to METZ for technical support. A response will be posted back to you within one business day.

5. SEND E-MAIL via the Internet to: metz@metz.com. Visit our Internet World Wide Web site at <http://www.metz.com/metz/>

6. SEND A FAX to the facsimile number explaining your question in detail. Give your company name and both your phone and fax numbers in your message (with country and city codes).

7. CALL THE METZ SUPPORT LINE.

Sign up now to receive information about METZ Beta releases and/or our electronic newsletter! If you are interested in receiving the METZ Electronic Newsletter, sign up for the METZNEWS program. If you would like to participate in beta testing products, sign up for the METZBETA program instead.

Subscribing to METZNEWS is simple, send e-mail to 75300,1627 on Compuserve, METZSoft on AOL, or metz@metz.com from Internet sites. Be sure to use SUBSCRIBE METZNEWS as the text of the message.

If you wish to subscribe to METZBETA, send e-mail to 75300,1627 on Compuserve, METZSoft on AOL, or metz@metz.com from Internet sites, and use SUBSCRIBE METZBETA as the text of the message.

METZBETA subscribers will automatically receive mailings sent to METZNEWS subscribers so it is not necessary to subscribe to both groups.

METZ Software Products

METZ Software provides award winning, easy to use Windows products for networked office applications. METZ Software supports corporate clients with Windows and networking expertise through pre-packed and custom development solutions. Our winning product lineup includes:

METZ Phones - Address and telephone manager for networks - Microsoft Office Compatible!
1995 winner of Windows Magazine WIN100 award

METZ Phones Administrator - Database and User administration for METZ Phones.

METZ Task Manager - The simple and fast way to work in Windows.

PC Magazine - Editors' Choice 1991

PC Magazine - Editors' Choice 1992

Windows Magazine - WIN 100 1993

Windows User - Best Buy 1993

METZ Scheduler - Schedules applications to run automatically.

METZ Lock - The Windows Security Solution.

METZ Dialer - A simple telephone list and speedy auto dialer for Windows.

METZ Corporate Screen Saver - Screen Saver for corporate logos and promotional information.

The following products are currently available from METZ Software. Click on any graphic image for ordering information.

METZ Phones - The multi-user Address Book and Telephone manager for networks, workgroups, and workstations! Microsoft Office Compatible! 1995 WINDOWS Magazine WIN100 Winner!

METZ Phones is the high-powered telephone and address manager for networks, workgroups, and workstations! Phones works with all the major networks allowing multiple users to simultaneously access address and telephone information across workgroups or within your company. It is the flexible solution for all your address needs. Print labels, envelopes, and reports with pre-defined formats, or easily create your own. Search and sort your addresses to work with only those contacts you need. Maintain multiple address books. Keep notes for each contact. Each record's phone list expands to accommodate unlimited phone numbers. Schedule calls according to date and time. Easily import and export your data. Each database can accommodate over 256 megabytes of data. Microsoft Office compatible (does not require Microsoft Office products).

METZ Phones Administrator - Database and User administration for METZ Phones.

METZ Phones Administrator provides powerful address book security for network administrators. Now you can easily customize METZ Phones to accommodate corporate security needs, including access to databases, features and individual fields on a user or group basis.

METZ Task Manager - Makes Windows *FASTER, EASIER, BETTER!*

METZ Task Manager replaces the Microsoft Windows Task List with a unique application that launches, manages, and schedules your tasks. This award winning product (PC Magazine Editor's Choice awards - 2/91 & 9/92, 1993 WINDOWS Magazine WIN100, Windows User Best Buy 4/93) includes a customizable Launch menu and Launch Pad, an editable Run List that lets you repeat actions quickly, a handy set of "Quick Utilities," an application scheduler--and much, much more!

METZ Scheduler - Automatic application and document scheduler.

METZ Scheduler saves you time by automatically launching your applications. With METZ Scheduler you can schedule applications to run unattended at night to perform tasks like backups, disk compression or virus scanning. You can also use Scheduler to launch documents or display messages. The schedules are easy to setup and modify with an easy to use interface. METZ Scheduler is also included with METZ Task Manager.

METZ Lock - Secure your Windows Desktop and rest easier at night!

METZ Lock is a Microsoft Windows application that protects your PC from unauthorized use. Flexible security options allow you to "lock" your system "on-demand," whenever it is left idle, or according to a schedule. Restrict mouse activity, disable rebooting, or enable the Screen Saver without locking the system. User-definable hotkeys and a customizable Screen Saver let you tailor it to your own security needs. It even works with your password-protected Novell and Banyan Vines networks. Excellent support for DOS applications running under Windows.

Access Control Software - Harcom Security Systems

Access Control Software extends workstation protection beyond Microsoft Windows to MS-DOS. In cooperation with Harcom Security Systems, we have developed a complete Microsoft Windows and MS-DOS security solution. Please contact us for pricing and technical information.

METZ Dialer - The simple telephone list and speedy auto dialer for Windows!

METZ Dialer gives you the capability to quickly and accurately dial phone numbers using your Hayes compatible modem. With a user definable HotKey, you can dial numbers directly from any Windows application. Dialer will also keep a list of your favorite names and numbers for quick reference and dialing. The list is a Comma Separated File Format (CSV) so it can easily be created by many popular applications. Area and country code lookup is also provided.

METZ Corporate Screen Saver - Screen Saver for corporate logos and promotional information.

METZ Corporate Screen Saver allows you to creatively display a bitmap of your choice as a screen saver. The bitmap can be your company logo, a message or promotion, or any other image you select. The bitmaps can be created and modified using Microsoft Paint or any compatible application. Choose from a variety of screen saver styles and settings, including several calendars.
