Internet Resources Database - Reader & Notebook v. 1.0

Shareware Version - Freely distributable if distribution is not for profit.
(See Licence.wri)

To install the program:

Run the program "SETUP.EXE"

It is recommended to install the program not to the same directory that
contains the setup files. You may want to delete the setup files after
installation.
The files that can be deleted are: ird.pak; pi.ex_; pi.ipj; ird.bmp; instbmp.pak;
instbmp.fip; ird.fip; readme.*; emptydb.pak; setup.exe.

You may want to save the IRD-R&NB.EXE file.

Use one of the IRD - download sites to retrieve the
Internet Resources Database files pertinent to your interests.

Note: The appendable *.IRD database file that is part of this program
is just for demonstration purpose!.
The file is not meant as comprehensive guide and is
most likely not very current.

Release Notes:

Changes compared to Vers.: Beta 0.9

1.) Submit function implemented

2.) Fixes bug with "Import your data". V 0.9 did not import
"Notebook" entries.

3.) Updated help file. Help file in Beta 0.9 was compiled with Color "Auto"
causing text to be unreadable with certain color settings.

4.) Default cache size setting reduced to minimize problems with insufficient
available resources and related system hang ups.

5) Directory /contrib and related text templates removed. Replaced with function
"SUBMIT"

6) Subtopic preview list closed as default setting.

7) "Enter" in edit fields causing "Save" eliminated.

8) Smaller "cosmetic" changes.

This program is not tested for being installed in a network environment.
Please report any problem you see installing and using this program.

Please mail your input to:
IRD-Feedback@mbmarkt.entrepreneurs.net
