MemoPak95 is shareware and not Freeware.

Disclaimer: By using MemoPak95, you agree not to hold the author liable to any damage to your system, whether it be real or imagined, hardware or software related. The author guarantees that he gave his best effort in developing this program, has tested it extensively, and, as far as he knows, this program is bug-free.

MemoPak95 was developed in the Windows95 environment. Because of this there could, and probaly will be problems with the user interface--screen settings and colors, etc.--when using this program with Windows 3.1.

How to: Never miss an appointment again with MemoPak95's auto-run feature! And skip those embarassing moments of having forgotten someone's birthday. MemoPak95 was designed to be placed in your autostart group. When you enter Windows, any messages you have written will be flashed onto your screen. MemoPak95 will also alert you to any of the day's birthdays, or any birthdays within the next 14 days.

To write a Memo, click on the Open button and then click on Memo. When the Memo window opens, you have a place to enter a date, the memo, and when the memo should be shown. To show the memo you have the following options:
1. Always -- whenever MemoPak95 starts this message will be shown.
2. <= Memo will be shown up until the date you have entered.
3. = Memo will be shown only on the date you have entered
4. >= Memo will be shown only on and after the date you have entered
5. Never Memo will be hidden, never shown on the screen.

Auto-Run: If this box is checked the memos you have written will be shown whenever MermoPak95 starts. If it is not checked, the Memos will not be shown until you have opened the program.

To view all the Memos you have written, click on the filecard button. For convenience's sake, all Memos on file will be shown. Also, at the bottom of the screen there's a small notice letting you know how many memos you have on file.

Birthdays: The Birthday memos run the same as the Memos itself. After entering a person's birthday you have several options on how to view the information you have on file.
1. All Birthdays: Click on the filecard button and all birthdays you have entered will   be shown -- from oldest to youngest.
2. Birthday Search: Click on the firecracker button and all birthdays within the next   14 days will be shown.
3. Search: Click on the eye button and you can search for the name of someone   entered in your birthday databank.

Window Size: You have the option of starting MemoPka95 in two ways. With the Small window, upon starting MemoPak95 will display the pertinent messages and then display itself as an icon at the bottom of your screen. As a Large window, MemoPak95, after displaying its messages, will appear on your screen in its normal size.

Registration: Click on About in the Menu, then click on the How To button, and then follow the instructions. Upon receipt of payment the author will then send you the registration number.

Trouble Shooting & Designer's Notes:
You'll have to add this line to your Autoexec.bat -- share.exe / L:500.
MemoPak95 was programmed with a 800x600x256 screen resolution.
To get the best performance from the Setup program, close all other applications.
After registrating, there will no longer be a lock on the files able to save.
