

## T-KAL

Dirk Wriedt  
Kirsebek 15  
D-24376 Kappeln  
Germany  
dirkw@toppoint.de

## GETTING STARTED

T-KAL does have a multi-language user-interface.

Please choose your preferred language from the .WRI files and follow the instructions.  
If you encounter any spelling errors, please send me a short email.

## OTHER LANGUAGES

If you want T-KAL to speak your native language and it does not yet, please write me a nice picture-postcard saying so. I may decide to do another translation if I receive a notable amount of postcards. The language has to be covered by the Windows ANSI character set, however. PLUS: Every 25th postcard will receive a free license.

If you feel able to do the translation yourself AND have an internet email-address, please say so on your postcard. I will get in touch with you.

## DEALERS

The Shareware version of T-KAL may be freely distributed, as long as ALL of the files are distributed UNCHANGED. Not a single character may be edited without my written consent.

Please note: Special arrangements can be made to make distributing the shareware version of T-KAL attractive to you. To prove you're a dealer please send your latest catalog to the above address and inquire about the "TKAL DEALER'S DEAL".

## CREDITS

Special thanks go to:
