

# How to buy our packages ?

*There is something big going on ...*

Why dont you order your package today and get internationalized with Delphi and RAD. While creating your application with our components you get tomorrows technology right under your fingertips. Dont re-invent the weel, we have the experience and technology, and we keep making our packages better and better.

Please order now !!

## Order Form

Site Order Form (Only TMultiLang)

You can also order our packages ON-LINE via CompuServe. However, there is a surcharge of 15% for these orders on current prices. Here's how to do it:

\* You must have a CompuServe account

\* Go to the SWREG forum while on-line and select Register Shareware. Search for TMultiLang for the TMultiLang package, or for MExtras for the TMultiExtras package, or for Collector for the TComponentCollector component, then select the version you would like to order.

## **License policy**

Each license goes under the terms and conditions set forth here and in the README.TXT file of the Trial TMultiLang package. Each license allows one person to use the TMultiLang package in the Delphi design environment (IDE) and to distribute compiled (containing TMultiLang package components) run-time applications and modules royalty free. The license is not bound to the project so if more than one person is localizing or internationalizing with any TMultiLang components, sufficient licenses must be purchased.
