

README.TXT for TheLister ver. 1.05

.....

For a general description of TheLister refer to the User's Manual (LISTMAN.WRI) in this distribution set. The manual has been written with Windows Write.

The contents of this release are listed in the section entitled "Contents of Distribution Set" below.

#### WHAT'S SHAREWARE?

.....

Shareware distribution gives users a chance to try software before buying it. If you try a Shareware program and continue using it beyond the trial period, you are expected to register.

Shareware is a distribution method, not a type of software. You should find software that suits your needs and pocketbook, whether it's commercial or Shareware. The Shareware system makes fitting your needs easier, because you can try before you buy. And because the overhead is low, prices are low also. Shareware has the ultimate money-back guarantee: if you do not use the product, you do not pay for it.

#### LICENSE AGREEMENT

.....

TheLister is a "shareware program" and is provided at no charge to the user for evaluation. Feel free to share it with your friends, but please do not give it away altered or as part of another system. The essence of "user-supported" software is to provide personal computer users with quality software without high prices, and yet to provide incentive for programmers to continue to develop new products.

If you continue to use TheLister after 30 days, you must make a registration payment of \$20.00. Payment of the registration fee will license one copy for use on any one computer at any one time.

You must treat this software just like a book. An example is that this software may be used by any number of people and may be freely moved from one computer location to another, so long as there is no possibility of it being used at one location while it is being used at another.

You are encouraged to pass a copy of TheLister along to your friends for evaluation. Please encourage them to register their copy if they find that they can use it.

#### REGISTRATION INFORMATION

.....

To register you can choose among one of the following ways:

Compuserve Shareware Registration Service  
.....

You can register on-line using Compuserve Shareware Registration  
DataBase. Type GO SWREG and follow the instructions on the screen.

INSTALLATION INSTRUCTIONS  
.....

To install the software, copy all files from the distribution set into a directory on your hard drive.

Delete BWCC.DLL if you already have a copy of it in WINDOWS\SYSTEM directory.

To set up the TheLister icon in the Program Manager, refer to "Adding Program Items and Documents to a Group" in Microsoft Windows User's Guide.

CONTENTS OF DISTRIBUTION SET  
.....

LISTER.EXE    Program file  
BWCC.DLL     Borland Windows Custom Controls DLL  
LISTMAN.WRI  User's manual in Windows Write format  
README.TXT   This file  
FILE\_ID.DIZ  Short description for BBSs

When TheLister runs for the first time it creates the LISTER.INI file

which contains various settings.

WHAT'S NEW IN V. 1.05

.....

Version 1.05 adds a full support for Delphi syntax.  
Moreover TheLister can be tightly integrated with Delphi's environment.  
See the 'What's new...' section in the user's manual for  
further information.

Thank you for choosing TheLister

Enrico Lodolo
