

IconCleaner 1.1.3 -- RELEASE NOTES

What is IconCleaner?

IconCleaner is a small application program that allows you to delete files' and folders' custom icons. Simply drag a folder over the IconCleaner window and it will erase all custom icons inside that folder. You can choose to delete only documents' icon or folders' icon. That's all!

System Requirements

--68k or PowerMac running MacOS 7.6.1 or later
or
--PowerMac running MacOS X 10.1 or later
