

ROYAL BLUE 2 - (c) 2003, Davdsoft Studio srl

ABOUT INSTALLER

The self-extracting file has been conceived with the goal to make the process of installation faster and practical . I have not included the files for manual installation process because this file is only self-extracting, will not creates registry entries but it will limit to extract the theme in the destination folder (C:\WINDOWS\Resources\Themes) For this reason, if you want to unistall this theme you have to do manually.

It's strongly recommended that you apply a theme different from Royal Blue and cancel any previous version, before continue with installation process.

Enjoy,

Cavador
