================

▪Q: What is DUP-DVD?
A: DUP-DVD is a powerful tool to backup DVD movies to SVCD/VCD.
You can backup DVD movie to SVCD/VCD with just one click.

▪Q: How much is DUP-DVD?
A: Only $39.95!Click here to order.

▪Q: How to order?
A: Click here to order DUP-DVD online.
You can pay by credit card or check/money order.
If you like to pay by PalPal,please send $39.95 to account@dup-dvd.com. After you submit the order form,you will get the key file by email within 24 hours.

▪Q: If I buy more than 1 copy,can I get a discount?
A: Yes.
Here is our banding sell prices:
5-10 copies:$34.95
11-50 copies:$29.95
> 50 copies:$24.95
Please place an order at http://www.dup-dvd.com/order.html,change the quantity to the number you want,then send all of serial numbers along with your order confirmation email(receipt) to support@dup-dvd.com,we will make the key files and credit the discount to you via Paypal..

▪Q: How to register?
A: After get your key file,start DUP-DVD click "Register" to bring out register dialog ,enter the location of your key file ,click "register"!

▪Q: Do I need to pay for upgrading?
A: Upgrading is absolutely free for registered user!

▪Q: What should I do if I get a bluescreen fatal error while starting DUP-DVD?
A: The reason may be that your ASPI is not up to date.Please upgrade your ASPI. Click here to see how to upgrade ASPI layer.

▪Q: Why I get "ASPI error ..." message?
A: DUP-DVD need ASPI to support CD burning,if you get "ASPI error ..." message,please restart your Windows and try again.Or update your ASPI driver to a newer version.(you can find the newest driver by searching "aspi32.exe" at any search engine such as Yahoo,Google.Sometimes maybe you need "forceaspi"). Or you can download ASPI32.EXE , FORCEASPI17.ZIP and ASPICHK.EXE here!
Note:please install the above ASPI drivers(V4.60) only,don't use other versions,DUP-DVD doesn't work with other versions!!!
If DUP-DVD still doesn't work and you are running windows XP,there are 2 options:
1:right click on the Executable file and select Properties then click the compatability tab and run this program in 'compatability mode for Windows 2000'
OR
2:click start, run and type wowpost.exe and press enter as wowpost tickles aspi into startup state and Dup-dvd will then find your drives.

▪Q: Why I keep getting "No hard disk space ..." message?
A: DUP-DVD use the TEMP directory of Windows to store temp files,you can set the TEMP directory to a larger drive.
In Windows 98,append 2 lines to c:.bat,while X:is a temp directory of the new drive,then restart Windows:
SET TMP=X:
SET TEMP=X:
In Windows NT/2000/XP,use control panel->system->Advance tab,click Environment Variables, then click the TMP and TEMP user variable or system variable, click Edit to change the current value to the directory on larger drive.

▪Q: DUP-DVD show wrong drive letters!
A: If DUP-DVD show wrong letter with your CD/DVD ROMs,please change the drive letters of your CD/DVD ROMs by the order DUP-DVD shows.
Under Windows 9x,open ControlPanel->System->CROM to change them.
Under Windows NT/2000/XP,use Administrative Tools->Computer Management-> Storage->Disk Management.
And please disable any special softwares before start DUP-DVD:
e.g.Virtual CD drive,Cygwin,RAM disk etc.

▪Q: The VCD can not be played!
A: First,please check if there is a file named mpegav.dat or mpeg2.mpg on the VCD/SVCD.Then play the VCD/SVCD with software players such as PowerDVD,WinDVD. Or play it with a CDR/CDRW COMPATIBLE standalone DVD player.

▪Q: Why all options are grey out?
A: You need to select a DVD source(DVD ROM or Image file) first,then the options will be enabled. Also please check the drive letters,see here for details.

▪Q: Why I get "MSVCP60.DLL,MFC42.DLL error..." message?
A: That may because you are running an old version of Windows.Please install the most update service packs of windows and upgrade your IE to V5.5 or later.
Or upgrade your msvcp60.dll and mfc42.dll. Get msvcp60.zip and mfc42.zip here or go to www.microsoft.com to get more information.

▪Q: How to backup a DVD to VCD?
A: Just put the DVD disc into DVD drive,blank CD-R/RW into CD writer.
Click "option" to set target to "VCD",click "Copy" and after hours you
will get the VCDs,very easy to use!

▪Q: How to backup a DVD to SVCD?
A: Just put the DVD disc into DVD drive,blank CD-R/RW into CD writer.
Click "option" to set target to "SVCD",click "Copy" and after hours you
will get the SVCDs,easy to use!

▪Q: How to backup a DVD to image/MPG files?
A: Put the DVD disc into DVD drive,select "Image" as the target.After
set the target image file path(if you want MPG files,make sure set the whole file paht included MPG extension),click "Copy" and after hours you will get
the image/MPG files,You can save the image/MPG file for further use,or
burn the files to CD-R/RW

▪Q: How to burn a image file to a CD-R/RW?
A: Select "Image" as the source,set the source image file path,put a blank CD-R/RW into CD writer.click "Copy" and after minutes you will get the CD-R/RW

▪Q: How to burn a MPEG file to a CD-R/RW?
A: Select "Image" as the source,set the source mpeg file path,click "option" to set target type(VCD or SVCD),put a blank
CD-R/RW into CD writer.click "Copy" and after minutes you will get the CD-R/RW

▪Q: What should I do if I get burning failed or failed on 2nd disc?
A: Please disable some background running CD softwares(like Easy CD creator,virtual CD drive) then try burn at a lower speed again.
If it still fails, That may because DUP-DVD is not compatible with your CD writer.
Please convert DVD to MPG files and burn the MPG files to VCD/SVCD with 3rd party burning software(such as NERO,etc).
Select "Image" as the target,enter the full path of the MPG file.(including ".mpg")
click "copy" button and after hours you will get the MPG files.Start burning software to burn the MPG files to VCD/SVCDs.

▪Q: Can I burn a VCD/SVCD from hard disk VOB files?
A: Yes! Select "Image" as the source,select the "ifo" file of the VOB files for the source image, click "option" to set target type(VCD or SVCD),put a blank CD-R/RW into CD writer.click "Copy" and after hours you will get the CD-R/RW

▪Q: What does "Letter Box","Pan Scan","Full Screen" mean?
A: They are different aspect ratio. Here is a Letter Box screen, Here is a Pan Scan screen, Here is a Full screen.

▪Q: May I select a subtitle?
A: Sure!click "option" to set the sub title combo box before click "Copy".

▪Q: May I select a sound track?
A: Yes!click "option" to set the sound combo box before click "Copy".

▪Q: What is the limitation of the trial version DUP-DVD?
A: Trail version only can make the first 1/4 of a DVD movie to SVCD/VCD. That means you can only burn 1 disc with a trial version.
Other functions(CD copying,MPG/Image file burning) are same as registered version.

▪Q: Why I get "Can't open DVD ..." message?
A: Sometimes you may get a message like "Can not open DVD!Please use a DVD player (e.g. PowerDVD,WinDVD) to play the Disc for 1 minute and try again!",this means your DVD drive is locked,so use a DVD player software(PowerDVD/WinDVD etc) to open the DVD and the DVD drive will be unlocked.Then exit the player,start DUP-DVD to backup the the movie to VCD/SVCDs.

▪Q: What should I do if DUP-DVD can not support my CD writer?
A: Send the file named "cdrw.txt" under DUP-DVD home directory(e.g. c:filesdvd) to support@dup-dvd.com.We will support your CD writer as soon as possible.

▪Q: How to upgrade?
A: Just install the new version to the directory of previous version.(c:filesdvd).

▪Q: How about not pay by credit card?
A: That's OK.
We accept not only credit card,but also check/money order,paypal,even wire transfer. please follow the link at http://www.dup-dvd.com/order.html,you will get these payment selections.

▪Q: Can DUP-DVD backup a DVD to DVD-R(DVD-RW,DVD+RW)?
A: Sorry,so far,DUP-DVD only make VCD/SVCDs.

▪Q: What is the difference between VCD and SVCD?
A: VCD is Video CD,SVCD is Super VCD,they are different Video CD standard,the main difference between them is the picture quality.SVCD's quality is much better.Most DVD players support both of them.

▪Q: Does DUP-DVD work on Macintosh??
A: Sorry,no.
