# **SizzlingKeys4iTunes™**

## **Global hot keys for iTunes (duh!)**

### **Description**

**SizzlingKeys4iTunes** is a Preference Pane plug-in that provides global hot keys for controlling iTunes. Now you can skip to the next track, pause, and so on all without leaving the application you are working with.

And if that isn't enough, SizzlingKeys4iTunes is **freeware!**

### **System Requirements**

Mac OS X 10.2 (Jaguar) or OS X 10.3 (Panther)

### **Installation Instructions**

Installation is slightly different on OS X 10.2 and OS X 10.3.

On OS X 10.3 (Panther), just drag the SizzlingKeys4iTunes icon to your Applications folder. Then double-click on SizzlingKeys.prefPane to install the preference pane plug-in.

On OS X 10.2 (Jaguar), first drag the SizzlingKeys4iTunes icon to your Applications folder. Next drag the SizzlingKeys.prefPane folder to your Home/Library/PreferencePanes/ folder. If the PreferencePanes folder does not exist in Library, please create it first.
