WELCOME

HP PC Product and Pricing Browser provides electronic access to product information, along with local currency pricing information.

This tool is based on WINHELP, the Help engine supplied by Microsoft with MSWindows. Its hypertext facility allows the user to move easily from one point of the documentation to another just by clicking on keywords.

This tool forms part of [HP PC Electronic Sales Tools](#).

Prices contained in this tool are local currency list prices, valid for one month.

Support

If you have any comments on or problems with running this program, please contact your normal HP local support

HP PC Electronic Sales Tools have been developed by EXECUTIVE SYSTEMS

HP PC Electronic Sales Tools

HP PC Electronic Sales Tools for Windows contains three applications:

- Product and Pricing Browser Contains product information on all HP PC products (PCs, monitors, servers, networking products, handhelds) with links to local currency pricing
- Quotation Builder Allows building of a quotation on all above products incorporating customer and reseller discounts
- Price Lookup Price list in local currency (also accessible within the other two applications)

USING HP PC Product Browser

Selecting Product Information

On entering the system, you are presented with a graphical representation of the main product/information areas. Clicking on any icon gives you access to the information relating to that area. For example, clicking on the icon for HP NetServers brings up a menu allowing you to choose between families of NetServers.

Areas available:

HP Vectra PCs	access to Vectra product info and pricing
HP NetServers	access to NetServer product info and pricing
HP Mobile PCs	access to Mobiles product info and pricing
HP Handheld computers	access to Handheld product info and pricing
HP Monitors	access to Monitors product info and pricing
HP Network Connectivity	access to Network Connectivity product info and pricing
Configuration Guide	access to configuration info on all above products
Help	access to this Help file
Central "Welcome" box	access to general info on HPPC Electronic Sales Tools, plus Support and Copyright info

Reading Product Information

Having selected, for example, the HP NetServer LS Series from the HP NetServers section of the Welcome screen, you are presented with the information contained in the HP NetServer LS Series data sheet. You can scroll up and down the information using the scroll bar, or click on the headings "Models", "Features", "Accessories", "Specifications", "Positioning" or "Benefits" to move directly to that section of the data sheet. In addition, clicking on the specific model name in the heading gives you rapid access to the information contained in the HP PC Products Configuration Guide for that product.

Selecting a Help topic (underlined text)

Clicking on underlined text gives access to further information which is contained behind that topic. To select a Help topic using the mouse, point to any underlined text and click the mouse button when the mouse pointer changes to a hand icon. Alternatively, using the keyboard, press TAB to move to the subsequent underlined text and press ENTER.

There are two types of underlined text. Clicking on a solid underline provides a rapid "go to" another section of information. Clicking on a dotted underline brings up a pop-up box which stays visible until you click the mouse button or press any key.

Accessing Pricing Information

All product numbers have a dotted underline. Clicking on a product number brings up a box with the product description and number along with local currency pricing for the current month.

Moreover, at any time, by pressing the **Price Lookup** button you can access the complete PC products price list and do a search on any text string contained in either the product-number, description or local currency price.

General Points

- Contents - returns to the Welcome screen
- Back - returns to the previous topic
- History - gives a list of previous topics and allows you to move rapidly to any one of them
- File Print - allows printing of any topic
- Edit Copy - allows copying of any topic or part of any topic for pasting into another document

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 384 MB (12 slots available), or add memory expansion board (D2971B) and add any of the following to a maximum of 768 MB (24 slots):

4-MB, 36-bit, 70 ns Memory Modules	Product # D2974A (must add in fours)
8-MB, 36-bit, 70 ns Memory Modules	Product # D3577A (must add in fours)
16-MB, 36-bit, 70 ns Memory Modules	Product # D2297A (must add in fours)
32-MB, 36-bit, 70 ns Memory Modules	Product # D3578A (must add in fours)

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 192 MB (6 slots available):

8-MB, 36-bit, ECC 70 ns Memory Modules	Product # D3597A (must add in pairs)
16-MB, 36-bit, ECC 70 ns Memory Modules	Product # D3592A (must add in pairs)
32-MB, 36-bit, ECC 70 ns Memory Modules	Product # D3593A (must add in pairs)
4-MB, 36-bit, 70 ns Memory Modules	Product # D2974A (must add in pairs)
8-MB, 36-bit, 70 ns Memory Modules	Product # D3577A (must add in pairs)
16-MB, 36-bit, 70 ns Memory Modules	Product # D2297A (must add in pairs)
32-MB, 36-bit, 70 ns Memory Modules	Product # D3578A (must add in pairs)

To benefit from ECC memory, only ECC SIMMs must be installed.

Memory Upgrade Path:

Add any of the following in any order to the base memory to a maximum of 192 MB (4 slots available):

Pair of 4-MB, 36-bit, 70 ns Memory Modules	Product # <u>D2974A</u> (×2)
Pair of 8-MB, 36-bit, 70 ns Memory Modules	Product # <u>D3577A</u> (×2)
Pair of 16-MB, 36-bit, 70 ns Memory Modules	Product # <u>D2297A</u> (×2)
Pair of 32-MB, 36-bit, 70 ns Memory Modules	Product # <u>D3578A</u> (×2)

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 256 MB:

16-MB, 64-bit, ECC, dual-in-line Memory Module	Product # D3556A
32-MB, 64-bit, ECC, dual-in-line Memory Module	Product # D3555A
64-MB, 64-bit, ECC, dual-in-line Memory Module	Product # D3554A

Memory Upgrade Path:

Add any of the following in pairs in any order to the base memory, or remove base memory and add any of the following in pairs, to a maximum of 256 MB:

4-MB, 32-bit, 70 ns Memory Module

Product # D2690A (×2)

8-MB, 32-bit, 70 ns Memory Module

Product # D2691A (×2)

16-MB, 32-bit, 70 ns Memory Module

Product # D2899A (×2)

32-MB, 36-bit, 70 ns Memory Module

Product # D3578A (×2)

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 192 MB. 3rd and 4th SIMMs modules must be of same capacity; 5th and 6th SIMMs modules must be of same capacity.

4-MB, 32-bit, 70 ns Memory Module	Product # D2690A
8-MB, 32-bit, 70 ns Memory Module	Product # D2691A
16-MB, 32-bit, 70 ns Memory Module	Product # D2899A
32-MB, 36-bit, 70 ns Memory Module	Product # D3578A

SIMMs modules may be added singly or in pairs. However, there is a system performance gain when added in pairs.

Memory Upgrade Path:

Add any of the following in ascending order to the base memory, or remove base memory and add any of the following in ascending order, to a maximum of 96 MB:

4-MB, 32-bit, 70 ns Memory Module	Product # D2690A
8-MB, 32-bit, 70 ns Memory Module	Product # D2691A
16-MB, 32-bit, 70 ns Memory Module	Product # D2899A
32-MB, 36-bit, 70 ns Memory Module	Product # D3578A

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 256 MB:

16-MB, 64-bit, dual-in-line Memory Module

Product # [D3553A](#)

32-MB, 64-bit, dual-in-line Memory Module

Product # [D3555A](#)

64-MB, 64-bit, dual-in-line Memory Module

Product # [D3554A](#)

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 128 MB:

8-MB (4-MB×2), 60 ns EDO Memory Module

Product # D3646B

16-MB (8-MB×2), 60 ns EDO Memory Module

Product # D3647B

32-MB (16-MB×2), 60 ns EDO Memory Module

Product # D3648B

Memory Upgrade Path:

Add any of the following in any order to the base memory, or remove base memory and add any of the following, to a maximum of 64 MB:

4-MB, 32-bit, 70 ns Memory Module

Product # [D2690A](#)

8-MB, 32-bit, 70 ns Memory Module

Product # [D2691A](#)

16-MB, 32-bit, 70 ns Memory Module

Product # [D2899A](#)

32-MB, 36-bit, 70 ns Memory Module

Product # [D3578A](#)

HP NetServer 5/133 LS2

Information subject to change without notice

Model Information

	Model 1	Model 1-Array 1
Model number		
Product number	D3608A	D3609A
Flexible disk size/capacity	3½", 1.44 MB	3½", 1.44 MB
CD-ROM drive	Yes	Yes
Hard disk capacity	None	None
Hard disk access speed	N/A	N/A
Hard disk controller	IDE, 2x PCI Fast and Wide SCSI-2	IDE, 2 x PCI Fast and Wide SCSI-2
Standard memory	64 MB - ECC 2	64 MB - ECC 2
HP NetServer Navigator	Bootable CD with: NetServer Assistant 2.3; NetServer Configuration Assistant; NetServer Diagnostic Assistant; NetServer Information Assistant	

Processor Type

Internal clock speed	133 MHz
Processor bus speed	66 MHz
Internal cache	16-KB integrated cache memory (8-KB for data + 8-KB for instructions)

Memory

Maximum	768 MB - ECC
Bus width/speed	64 bit/clock independent
Second-level cache	1-MB write-back secondary cache memory (for each processor)

Video

Memory	512-KB standard - upgradeable to 1 MB
Resolution	Maximum with 512-KB video memory: 1024 x 768 x 16 colours, non-interlaced Maximum with 1-MB video memory: 1024 x 768 x 256 colours, non-interlaced Tower (HP Power Cabinet)

Package Type

Processor Upgrades 3

To upgrade to 3-way 5/133 MHz:	Pentium 133-MHz Processor Board	Product # D3613A
To upgrade to 4-way 5/133 MHz:	Dual Pentium 133-MHz Processor Board	Product # D3614A

Accessory Slots

Bus master slots	Up to 9 (3 PCI, 4 EISA, 2 shared PCI/EISA)
------------------	--

I/O Ports

Standard	2 serial; 1 parallel
Mouse and keyboard support	2 × Mini-DIN
SCSI	Fast and Wide SCSI-2 (on Model 1-Array)
Video	15 pin

Mass Storage

Mass storage shelves	8 front-accessible 5¼", half-height (1 used for CD-ROM, 1 standard half-height, 6 hot-pluggable shelves)
Maximum internal data storage	24 GB

LAN Accessories

	HP 10/100VG Selectable EISA Adapter (bus master)	Product # J2577A
	HP 10/100VG Selectable PCI Adapter (slave)	Product # J2585A
Power Supply	Autoranging 90 to 135 V or 180 to 265V (470 W continuous, 530 W peak)	

Memory Upgrade Path

- 1 Includes a PCI Disk Array Controller with Dual Fast SCSI-2 channels
- 2 8 x 8-MB SIMMs
- 3 All LS models have 2 slots for processor cards.
LS2 models come with 1 SMP card; LS1 models come with 1 single processor card.
Single and dual cards are supported at the same time.
Processor frequency for the 2 cards must be identical.

Maximum	192 - ECC	
Bus width/speed	64 bit/33 MHz	
Second-level cache	512-KB write-back secondary cache memory (shared)	
Video		
Memory	512 KB	
Resolution	Maximum: 1024 x 768 x 16 colours, non-interlaced	
Package Type	Tower (HP Power Cabinet)	
Processor Upgrades	Not applicable	
Accessory Slots		
Bus master slots	9 (4 PCI 2, 4 EISA, 1 shared PCI/EISA)	
I/O Ports		
Standard	2 serial; 1 parallel	
Mouse and keyboard support	2 x Mini-DIN	
SCSI	Fast and Wide SCSI-2 (on Model 1-Array)	
Video	15 pin	
Mass Storage		
Mass storage shelves	8 front-accessible 5¼", half-height (1 used for CD-ROM, 1 standard half-height, 6 hot-pluggable shelves)	
Maximum internal data storage	24 GB	
LAN Accessories	HP PC LAN Adapter/16TP Plus	Product # 27247B
	HP PC LAN Adapter/16TL Plus	Product # 27252A
	HP 10/100VG Selectable EISA Adapter (bus master)	Product # J2577A
	HP 10/100VG Selectable PCI Adapter (slave)	Product # J2585A
Power Supply	Autoranging 90 to 132 V or 180 to 264V (350 W continuous, 386 W peak)	

Memory Upgrade Path

- 1 Includes a PCI Disk Array Controller with Dual Fast and Wide SCSI-2 channels.
 2 Pre-installed PCI Disk Array Controller on Model 1-Array takes one slot.

HP NetServer 5/133 LH

2-metre switch-to-server cable kit (one cable kit required per server)	N/A	J1462A
3.5-metre switch-to-server cable kit (one cable kit required per server)	N/A	J1463A
HP NetServer Rack Mount Kits		
Mount Kit for HP NetServer LS, LM, LH, LF (includes cable management)	11	J1451B
Mount Kit for HP NetServer LC (includes cable management)	11	J1452B
Mount Kit for HP NetServer Storage System/6	11	J1454A
Mount Kit for D2802A, D2804A/B 14" monitor	8	E4473A
Mount Kit for D2805A 14" monitor	8	E4474A
Mount Kit for D2806A/B 15" monitor	8	E4475A
Mount Kit for D2807A 17" monitor	9	E4078A
Fixed Mount Kit for keyboard/mouse	1	E3900A
Retractable Mount Kit for keyboard/mouse	2	E4079A
Retractable Mount Kit for keyboard tray	2	12131A
Mount Kit for C4277B and C4278B UPS and batteries	6	C4631A
Mount Kit for C4777B UPS	5	C5232A
Mount Kit for C4778B and C5226BUPS	6	C5233A
Standard Fixed Shelf	1	E3666A
HP Vectra PC Rack Mount Kits		
Mount Kit for HP Vectra XU PC	4	E3904A
Mount Kit for HP Vectra N2, N2i PC	3	E3906A
Mount Kit for HP Vectra VL2, M2, M2i, XM2, XM2i, VE, VL3, VL4, XM3 PC	3	E3909A
Rack Accessories		
200240V PDU (International)	N/A	E4457A 2
IEC-320 1.5-metre Power Cable (male/female)	N/A	8120-1860 2
IEC-320 .75-metre Power Cable (male/female)	N/A	8120-1575
IEC-320 Male Power Cable Adapter	N/A	5181-8707
Extractor Fan 200240V	N/A	E4471A
PDU Installation Kit	N/A	E4472A 2
Plexiglas Front Door with lock	N/A	E4463A 3
Ballast Weight Kit	N/A	C2790A
Filler Panels		
1 EIA unit Filler Panel	1	40101A
2 EIA unit Filler Panel	2	40102A
3 EIA unit Filler Panel	3	40103A
4 EIA unit Filler Panel	4	40104A
5 EIA unit Filler Panel	5	40105A
6 EIA unit Filler Panel	6	40106A
7 EIA unit Filler Panel	7	40107A
Optional AXH Accessories		
One Side Panel (for either side)	N/A	E4459A
Solid Rear Door	N/A	E4478A
2-metre Rack Tie-together Kit	N/A	E4469A

1 Accessories with N/A for EIA requirement do not use vertical cabinet space.

2 Maximum of 2 Power Distribution Units (PDUs) per rack. One PDU Installation Kit (E4472A) required per rack with PDUs. 8120-1860 Power Cable required for each server plugged

into E4457A PDU.

3 Front door requires E4471A Fan for proper cooling. A PDU is required to connect the fan's IEC-320 power plug.

HP POWERWISE UNINTERRUPTIBLE POWER

Information subject to change without notice SUPPLIES

UPS 1

	Product #
PowerWise 1000, On-line UPS, 1000 VA 230V, 50 Hz (recommended for HP NetServer LS, LH)	C4277B
PowerWise 2100, On-line UPS, 2100 VA, 230 V, 50 Hz (recommended for HP NetServer LS, LH)	C4278B
PowerWise L600, Line-interactive UPS, 600 VA, 230 V (recommended for HP NetServer LC)	C4777B
PowerWise L900, Line-interactive UPS, 900 VA, 230 V (recommended for HP NetServer LH)	C4778B
PowerWise L1250, Line-interactive UPS, 1250 VA, 230 V (recommended for HP NetServer LS, LH)	C5226B

Extended Run

Additional External Battery Pack for C4277B	C4621A
Additional External Battery Pack for C4278B	C4622A

SNMP Interface

PowerWise SNMP Interface Card for 10Base-T	C4620A
PowerWise SNMP Interface Card for 10Base-T and ThinLAN	C4692A

Shutdown Software on CD (includes a cable kit)

PowerWise Assistant for OS/2	C4624B
PowerWise Assistant for SCO UNIX and UnixWare	C4626B
PowerWise Assistant for HP-UX, AIX/RS6000, Sun Solaris	C4627B

Interface Cables

PowerWise Cable Kit for Windows NT	C4628B
PowerWise Cable Kit for AS/400	C4629B
PowerWise Cable Kit for Banyan VINES	C4630B

Rack Shelves

UPS Rack Shelf for one or two of C4277B or C4278B	C4631A
UPS Rack Shelf for one, two or three of C4777B	C5232A
UPS Rack Shelf for one or two of C4778B or C5226B	C5233A

Support Pack

HP Support Pack - three-year on-site service upgrade	H5469A
--	--------

1 All UPS come bundled with PowerWise Assistant shutdown software for NetWare and Windows NT, a cable kit, HP UPS OpenView application, and SNMP agents for Line-interactive UPS.

Dual processor upgrade	Intel Pentium 133-MHz companion processor (second ZIF)	Product # D3509A

WRAM video upgrade	2-MB WRAM Upgrade Kit	Product # <u>D3557A</u>
Coprocessor	Integrated	
Accessory Slots		
32-bit PCI slots	2 (1 combo ISA/PCI) (1 available)	
8/16-bit ISA slots	3	
I/O Architecture	PCI/ISA	
I/O Ports		
Standard	1 serial; 1 parallel (ECP bi-directional Centronics)	
Maximum	4 serial; 2 parallel	
SCSI-2	1 external port	
LAN	UTP and coax connectors	
Mouse and keyboard support	2 × Mini-DIN	
Mass Storage and CD-ROM		
Mass storage shelves	2 front-accessible 5¼", half-height 1 front-accessible 3½", third-height 1 internal 3½", half-height	
Maximum internal data storage	4 GB	
Power Supply	130 W (continuous); 160 W (peak)	
Memory Upgrade Path		

HP Vectra XM 5/133 PC

Model Information

Model number	Model 840
Product number	<u>D3950A</u>
Flexible disk size/capacity	3½", 1.44 MB
Hard disk capacity	840 MB
Hard disk controller	Enhanced IDE on PCI
Standard memory	16 MB
256-KB second-level cache	Yes
Video RAM	1 MB
Video adapter	Ultra VGA (PCI bus)
Integrated 10Base-T interface (32-bit PCI)	Yes
Multiprotocol boot-ROM	Yes
Mouse	Yes

Pre-installed software:

MS-DOS 6.22	Yes <u>or</u> Windows 95 (one-time selection)
Microsoft Windows for Workgroups 3.11	Yes <u>or</u> Windows 95 (one-time selection)
Dashboard 2.01	Yes
Processor Type	Intel Pentium 133-MHz
Internal clock speed	133 MHz
System clock speed	66 MHz
Internal cache	16-KB integrated cache memory

Memory

Maximum	192 MB
Bus width/speed	64 bit/66 MHz
Package Type	Mid-size desktop

Upgrades

DRAM video upgrade	1-MB Upgrade Kit	Product # <u>D3404A</u>
Coprocessor	Integrated	

Accessory Slots

8/16-bit ISA slots	2
Shared 8/16-bit and 32-bit PCI slots	1
32-bit PCI slot	1
I/O Architecture	PCI/ISA

I/O Ports

Standard (maximum) 2 serial; 1 parallel (4 serial; 2 parallel)

Mouse and keyboard support 2 × Mini-DIN

Mass Storage

Mass storage shelves 1 front-accessible 5¼", half-height

1 front-accessible 3½", third-height

1 front-accessible (5¼" or 3½") or internal, third-height

1 internal 3½", half-height

Maximum internal data storage 1.8 GB

LAN Accessories

HP Coax Module

HP 10/100VG Selectable ISA Adapter

HP 10/100VG Selectable PCI Adapter

30 W (typical); 150 W (maximum)

Model Information

Model number	Model 1200 (CTS)
Product number	F1198A
Hard disk capacity	1.2 GB
Standard memory	16 MB
Pointing device	Trackball (25 mm)
Processor Type	Intel Pentium 120-MHz with 256-KB external cache

Memory

Maximum	Upgradeable to 64 MB 1
Bus width/speed/architecture	32 bit/33 MHz/PCI

Package

Dimensions	29.5 × 22.5 × 4.9 cm (11.6 × 8.8 × 1.93 in)
Weight	3.08 kilogrammes (6.8 lbs)

Display

Integrated	800 × 600 colour (256 colours) 10.4" diagonal STFT 1.5 MB VRAM
External	Up to 1024 × 768 × 256 colours in noninterlaced mode
	<u>Resolution</u> <u>Maximum Colours</u>
	640 × 480 16, 256, 32 K, or 64 K
	800 × 600 16 or 256
	1024 × 768 16 or 256

I/O

Infra-red	115 Kbaud bi-directional
PCMCIA	One Type III PCMCIA slot (or use as two Type II slots)
Video	SVGA-out port (up to 1024 × 768 × 256 colours) and NSTC/PAL output
Other	Docking station Headphone/stereo-out port, microphone port and stereo-in port Mini-DIN mouse or keyboard port; Y adapter to connect both keyboard and

Audio	mouse; joystick adapter 16-bit SoundBlaster compatible Stereo sound via two built-in speakers
Keyboard	85-key, touch-type keyboard Embedded numeric keypad Industry-standard, full-sized key spacing with full-size keys 12 PC function keys in compact layout
Pre-installed software on hard disk	MS-DOS 6.22 Microsoft Windows 3.11 <u>or</u> Windows 95 (one-time selection) Organiser Tools - Phone Book - LapLink Remote IRDA Printer Driver for HP LaserJet 5P Security Software
Power	14.4 V DC rechargeable battery pack with lithium ion cells Battery pack rechargeable in approx 4 hours using AC adapter Battery life up to 3.5 hours - can be doubled with second battery - Instant-on function AC adapter 100 to 240 V AC (50 to 60 Hz): 12 V DC, 1.35 A output

1 PowerWise 1000 and 2100 products only

Ordering Separate Components

The product numbers mentioned in this guide are for bundled systems, i.e. they include:

1. CPU box
2. Keyboard
3. Setting-Up Kit (software and documentation)
4. Power cable

In some cases, it may be necessary to order these components separately. In that case, the CPU box should be ordered by specifying the bundle product number with option 1BZ. The product number for the Setting-Up Kit can be found in the following table. The keyboard is C1405B option Axx for NetServers, and C3756A option Axx for Desktop Pcs.

Product	Setting-Up Kit
VE 486	<u>D3490A</u>
VE Series 2	<u>D4000A</u>
VL Series 3	<u>D3402A</u>
VL Series 4 Desktop	<u>D3645A</u>
VL Series 4 Mini tower	<u>D3800A</u>
VT	<u>D3539A</u>
XM2	<u>D3240A</u>

HP Vectra VE Pcs

HP Vectra VL PCs

HP Vectra VT PCs

PCs that deliver:

- Full range of Intel processor performance
- Video and hard disk on PCI local bus for improved performance
- Expandability
- Plug and Play capabilities
- Advanced power management
- Pre-loaded Microsoft® Windows® 95 configurations
- HP quality and reliability
- Three-year warranty

Hewlett-Packard Vectra Desktop PCs

No matter what your professional computing requirements are, Hewlett-Packard has built the PC to satisfy them.

If performance and top quality computing at a highly attractive price is critical to you, then look no further than the models in our V-Line range. And the advanced networking capabilities and security and management features of our X-Line PCs have been specially designed to keep the cost of running your network down.

Our unmatched reputation for quality and support - backed up by a three-year warranty - ensures your HP Vectra PC will always be ready to work when you are.

HP Vectra VE, VL and VT PCs

HP Vectra VE, VL and VT PCs are the perfect solution for customers looking for a high-performance PC at an attractive price for use in any environment. The wide variety of models covers the full range of price/performance needs of the user requiring that little bit more from their PC.

These PCs bring high performance with a full range of Intel processors from DX2 66-MHz to Pentium® Pro 150-MHz combined with accelerated PCI local bus video. In addition, all models include a hard disk controller integrated on the PCI local bus which considerably enhances both the hard disk and overall system performance.

But HP Vectra VE, VL and VT PCs not only meet your needs today. The expandable packages accommodate drive formats including CD-ROM, with space for four to seven cards depending on package, giving you flexibility for future needs.

For enhanced performance, all VE models support second-level cache memory, and VL and VT models come with 256 KB of second-level cache memory as standard.

HP Vectra VE Pentium and VL PCs come with the latest PC technology available including Extended Data Out (EDO) memory and Bus Master Enhanced IDE controller with PIO mode 4, providing users with leading-edge Pentium system performance.

Initial PC setup has been made easy with either Microsoft® Windows® for Workgroups 3.11 or Windows 95 (depending on the model chosen) pre-installed on the hard disk of VE and VL models. VT models come with Windows NT™ on CD.

Finally, with the environment in mind and to minimise cost of ownership, all HP Vectra VE and VL PCs come with HP's power management system. This significantly reduces power consumption and makes them compliant with the U.S. Environmental Protection Agency's Energy Star guidelines for energy efficiency

1 Language option must be specified; for example, Option ABB for British English.

2 Mini-tower package.

Note: All VE and VL models come with pre-installed MS-DOS 6.22, Windows for Workgroups 3.11 and Dashboard 2.01. In addition, all VE and VL models with 16-MB memory offer a one-time selection of Windows for Workgroups 3.11 or Windows 95 as the operating system (this selection may not subsequently be changed unless a separate license is purchased). All HP Systems with Windows 95 pre-installed display the 'Designed for Microsoft Windows 95' logo. VT models come with Windows NT™ on CD.

Standard Features

Package:

Mid-size desktop or mini tower

Includes HP industry-standard keyboard and mouse

1 PCI slot, 2 ISA slots and 1 ISA/PCI slot on desktop models

2 PCI slots, 3 ISA slots and 1 ISA/PCI slot on mini-tower models

4 mass storage shelves (2 front-accessible) on desktop models, apart from VE Pentium models (3 front-accessible)

6 mass storage shelves (4 front-accessible) on VL mini-tower models

7 mass storage shelves (5 front-accessible) on VT mini-tower models

I/O:

1 parallel port (25-pin); 2 serial ports (9-pin)

Mini-DIN keyboard and mouse ports

15-pin VGA connector

VESA connector for VGA passthrough

Memory and Cache:

Maximum memory configuration: 64 MB on VE 486 models, 128 MB on VE Pentium and VL models, 256 MB on VT models

256-KB second-level cache memory standard on VL and VT models

Mass Storage:

Enhanced IDE on VE 486

Enhanced Master IDE on VE Pentium, VL and VT models

PCI hard disk controller

Video subsystem:

VE and VL models (except 5/133 and 5/166 multimedia models):

PCI local bus video with hardware accelerator for optimal performance

1-MB DRAM video memory, upgradeable to 2 MB

Maximum resolution with 1 MB: 1024 x 768 x 256 colours

Maximum resolution with 2 MB: 1280 x 1024 at 256 colours

Support of 64000 colours in 640 x 480 with 1-MB video memory

Support of non-interlaced resolutions with ergonomic refresh rates of up to 75 Hz

Pre-loaded video drivers

VL 5/133 and 5/166 multimedia models and VT models:

Matrox Millennium PCI graphics card with 2-MB WRAM video memory, upgradeable to 4 MB (D3557A) (8-MB upgrade available from Matrox)

Maximum resolution with 2 MB: 1024 x 768 x 64000 colours

Maximum resolution with 4 MB: 1600 x 1200 x 64000 colours

Support of 16 million colours in up to 1024 x 768 with 4-MB video memory

Maximum refresh rate: 100 Hz

Video drivers for Windows and CAD applications supplied on CD

Multimedia models:

16-bit Sound Blaster™ sound card

Integrated quad-speed IDE CD-ROM

Ergonomic control panel and speaker

Headset with volume control

Upgrades/Serviceability:

Processor upgradeable via ZIF socket

Second-level cache upgrade

BIOS in flash ROM

Easy-to-access/service design: snap on/off cover with no screws; easy access to internal components

Pre-installed Plug and Play utility (ICU) to ease installation of add-on ISA cards

PCI local bus architecture auto-configures add-on PCI cards

HP User Tool for easy customisation of system

Pre-loaded DMI allows PC configuration and setting to be changed from a remote console

Ergonomics/Environment:

Low-noise fan
 Small footprint design
 Power management functionality ensures EPA Energy Star compliance on VE and VL models
 Vectra Ergonomic Power Solution on VL and VT models
 HP BIOS for ease of setup
 CFC-free manufacturing process
 Single plastic for easy recycling

Security:

Chassis lock and security bracket
 Two-level password

Warranty

Three-year warranty (first year on-site)

HP Vectra XM2 PC Series

HP Vectra XM PC Series

PCs that deliver:

- Full networking compatibility
- Remote management capabilities
- Comprehensive security features
- Local-bus technology for video, networking and hard disk subsystem
- Advanced power management
- Three-year warranty

Hewlett-Packard Vectra Desktop PCs

No matter what your professional computing requirements are, Hewlett-Packard has built the PC to satisfy them.

If performance and top quality computing at a highly attractive price is critical to you, then look no further than the models in our V-Line range. And the advanced networking capabilities and security and management features of our X-Line PCs have been specially designed to keep the cost of running your network down.

Our unmatched reputation for quality and support - backed up by a three-year warranty - ensures your HP Vectra PC will always be ready to work when you are.

HP Vectra XM2 and XM PC Series

HP Vectra XM2 and XM PCs benefit from HP's expertise in workgroup networking. All models come with an integrated Ethernet chip and multi-protocol boot-ROM for easy network connection and high network performance. To ensure outstanding compatibility with third-party hardware and software, these products have been thoroughly tested with a wide range of networking products, and have been tested and certified by our strategic networking partners, including Novell®.

This range offers a wide choice of PCs with processors ranging from IntelDX2 66-MHz up to Intel Pentium® 133-MHz. All models come with a fast or enhanced IDE connector on the local bus and accelerated 1280 x 1024 PCI local bus video.

The video performance can be further improved by upgrading the standard 1-Mbyte video memory to 2 Mbytes.

Hewlett-Packard was one of the co-founders of the Desktop Management Task Force (DMTF) which has focused on developing a standard interface for desktop management. So of course the HP Vectra XM2 and XM PCs offer DMI-compatible (Desktop Management Interface) remote management capabilities.

And HP's power management system ensures all models are compliant with the US Environmental Protection Agency's Energy Star guidelines for energy efficiency.

To get you up and running in a matter of minutes, all these products come with MS-DOS® 6.22, Microsoft® Windows® for Workgroups 3.11, Dashboard 2.01, DMI software, and LAN and video drivers pre-loaded on the hard disk. In addition, all models with 16-MB memory offer a one-time selection of either Windows for Workgroups 3.11 or Windows 95 as the operating system.

HP Vectra XM2 and XM PCs provide a complete range of high-performance, network-ready products for both standard and advanced users, backed up by a three-year warranty.

HP Vectra XM PCs provide ideal mainstream Pentium systems for the workgroup, combining many benefits at a very attractive price:

Performance - These PC systems offer a wide range of Pentium processors, 256-KB secondary cache and PCI architecture including built-in PCI 64-bit video, enhanced IDE, and LAN interface. So you can be sure they've been designed to handle anything your network throws their way.

Networkability - With their built-in PCI 10Base-T interface, multi-protocol boot-ROM, preconfiguration as Microsoft and Novell clients, and extensive set of pre-loaded LAN drivers, these PCs start saving you time and money the minute you plug them in. And the new HP Message Sender tool enables exchange of basic text or complex graphics within your workgroup with only a couple of mouse clicks. In addition, they've been tested and certified for multi-vendor compatibility: Novell NetWare®, Windows for Workgroups, Windows NT™, OS/2® 2.x, OS/2 3.x (Warp), Banyan VINES®, DEC PathWorks, SCO™ UNIX®, and are "designed for Windows 95".

Manageability - The HP Vectra XM PCs are fully DMI-compliant, so you can manage all their basic subsystems - more than 300 attributes including LAN, boot-ROM and security - locally or remotely for faster, lower-cost tracking, updating and servicing of your PC network.

Advanced multi-level security features - such as configuration settings and passwords stored in non-erasable, serial EEPROM, and two levels of password protection - prevent unauthorised use and modification without disrupting day-to-day operations.

Multimedia - The pre-configured multimedia models give you an integrated, ergonomic and standards-based access to multimedia applications.

Expandability - Finally, the package of the HP Vectra XM PCs has been re-designed with three front-accessible shelves to give you additional expandability.

* Optional HP coax module can be installed.

** Language option must be specified; for example, Option ABB for British English.

*** Comes with an HP 1024 Low-Emissions 15-inch monitor (D2808A).

Note: All models come with pre-installed MS-DOS 6.22, Windows for Workgroups 3.11, Dashboard 2.01 and DMI software, plus a mouse. In addition, all models with 16-MB memory offer a one-time selection of Windows for Workgroups 3.11 or Windows 95 as the operating system (this selection may not subsequently be changed unless a separate license is purchased). All HP systems with Windows 95 pre-installed display the Designed for Windows 95 logo.

Standard Features

Package:

Includes HP industry-standard keyboard and mouse

XM2 models:

Mid-size desktop

4 slots: 1 half-length PCI, 1 full-length PCI or ISA, 1 full-length ISA and 1 half-length ISA

4 mass storage shelves: 1 front-accessible with 3.5" floppy, 1 5.25" half-height front-accessible for floppy, tape or CD-ROM, 2 internal for 3.5" hard disk drives

XM models:

Mid-size desktop

4 slots: 1 full-length PCI, 1 full-length PCI or ISA, 1 full-length ISA and 1 half-length ISA

4 mass storage shelves: 1 front-accessible with 3.5" floppy, 1 5.25" half-height front-accessible for floppy, tape or CD-ROM, 1 3.5" or 5.25" third-height front-accessible for floppy, tape, PCMCIA drive or internal second hard disk drive, 1 internal for 3.5" hard disk drive

I/O:

2 serial ports (9-pin)

1 parallel port (25-pin, ECP/EPP bi-directional Centronics)

1 infra-red port for XM2 models

Mini-DIN keyboard and mouse ports

15-pin VGA connector

10Base-T connector (RJ-45 UTP)

VESA connector for VGA passthrough

Multimedia models:

- 16-bit Sound Blaster™ sound card
- Quad-speed IDE CD-ROM
- Ergonomic control panel and speaker
- Headset with volume control
- HP 1024 Low-Emissions 15-inch monitor (D2808A) on model D3565A

Memory and Cache:

- Maximum memory configuration: 96 MB on XM2 models, 192 MB on XM models
- 256-KB second-level cache memory

Mass Storage:

- Fast hard disk drives
- Local bus hard disk controller (Fast IDE) on XM2 models, PCI hard disk controller (Enhanced IDE) on XM models

Video Subsystem:

- Local bus PCI video with hardware accelerator for top performance
- Up to 1280 x 1024 resolution at 256 colours in n-interlaced modes
- Non-interlaced resolutions with high vertical refresh rates up to 75 Hz
- Pre-loaded video drivers
- 1 MB video memory standard, expandable to 2 MB for higher performance and more colours

Networking:

- Pre-loaded DMI allows PC configuration and setting to be changed from a remote console
- On-board Ethernet 10Base-T 32-bit bus-master PCI interface
- Pre-configured Novell and Microsoft clients for MS-DOS and Windows on XM models
- Integrated software-selectable boot protocols for Novell NetWare and Microsoft LAN Manager
- MAC address visible and Ethernet interface configurable from set-up
- On-line Network Administrator Guide

Upgrades/Serviceability:

- Processor upgradeable via ZIF socket
- Optional second-level cache when not already installed
- Video RAM upgradeable to 2 MB
- BIOS in flash ROM
- Easy-to-access/service design: snap on/off cover with no screws; easy access to memory modules, add-on cards, data storage devices, system board and other components
- PCI Plug and Play on XM2 models; PCI and ISA Plug and Play on XM models

Ergonomics/Environment:

- Ergonomically-designed control panel, keyboard lock button and low-noise fan
- Small footprint design
- HP BIOS for ease of setup
- Power management functionality ensures EPA Energy Star compliance
- CFC-free manufacturing process
- Single plastic for easy recycling

Security/Asset Management:

- Chassis lock and security bracket
- Keyboard lock button (timer-programmable)
- Power-on password
- Network administrator password for configuration protection
- Reset and power off disabled when keyboard is locked
- Boot control and enabling/disabling of I/O ports and drives

Ultimate setup and password protection in EEPROM (PC Recover)

- Asset tracking with factory hard-coded serial number and customisable PC identification field

Warranty:

- Three-year warranty (first year on-site)

Optional Accessories

Memory upgrades:

- 4-MB 70ns Memory Module ([D2690A](#)); 20-pack ([D2897A](#))
- 8-MB 70ns Memory Module ([D2691A](#)); 20-pack ([D2898A](#))
- 16-MB 70ns Memory Module ([D2899A](#))
- 32-MB 70ns Memory Module ([D3578A](#))

Flexible disks:

- 3.5-inch, 1.44-MB, third-height ([D2035A](#) for XM2 models, [D2035B](#) for XM models)
- 5.25-inch, 1.2-MB, half-height ([D2881A](#) for XM2 models, [D2881B](#) for XM models) (includes mounting trays)
- 5-pack 3.5-inch mounting trays ([D2037A](#))
- 5-pack 5.25-inch mounting rails ([D2880A](#))
- 5-pack 3.5-inch mounting rails ([D3566A](#)) for XM models

Business communication modules:

- HP quad-speed IDE CD-ROM drive ([D2896B](#))
- HP Audio/CD Multimedia Upgrade ([D3567B](#)) (includes 16-bit Sound Blaster soundboard, quad-speed IDE CD-ROM, multimedia software, headphones)

Hard disks:

- 540-MB ([D2918A](#))
- 840-MB ([D2925A](#)) for XM models
- 1-GB ([D2919A](#)) for XM models
- 1-GB Fast SCSI-2 ([D2076B](#)) (requires an HP-recommended SCSI host bus adapter)
- 2.1-GB Fast SCSI-2 ([D2077A](#)) for XM models (requires an HP-recommended SCSI host bus adapter)

Tape drives and media:

- HP Colorado 340-MB Internal Tape Drive QIC-80 (C4328Dx)
- HP Colorado 800-MB Internal Tape Drive QIC-80 Travan™ (C4329Dx)
- HP Colorado 1.36-GB Internal Tape Drive QIC-3020 (C4330Dx)
- HP Preformatted Tape Cartridge QIC-80, 3-pack (3T-350), 5-pack (5T-350)
- HP Preformatted Tape Cartridge QIC-80 Travan, 3-pack (C4420C), 5-pack (C4420D)
- HP Preformatted Tape Cartridge QIC-3020, 3ack (3T-1400), 5-pack (5T-1400)

LAN interfaces:

- Coax module ([D2746A](#))
- HP 10/100VG Selectable ISA Adapter ([J2573A](#))
- HP 10/100VG Selectable PCI Adapter ([J2585A](#))

Video:

- 1-MB Video Upgrade Kit ([D3241A](#)) for XM2 models
- 1-MB Video Upgrade Kit ([D3404A](#)) for XM models
- Compatible with complete range of HP video monitors

Other accessories:

- HP Vectra XM2 PC User Manual ([D3240A](#))
- HP Vectra XM Series 3 PC User Manual ([D3489B](#))
- HP Keyboard ([C3756A](#)) for XM2 models
- HP Windows 95 Keyboard ([C4725A](#)) for XM models
- HP Mouse ([C3751B](#))

Specifications

System dimensions:

- 12.5 cm high x 42.0 cm wide x 39.0 cm deep (4.9 in x 16.5 in x 15.3 in) (not including keyboard)
- Weight: 10 kg (22 lbs) (not including keyboard)

Input voltage:

Wide range power supply

Power consumption:

XM2 models: less than 40 W (typical); 150 W (absolute maximum)

XM models: less than 30 W (typical); 150 W (absolute maximum)

HP Vectra XU PCs

PCs that deliver:

- Intel Pentium® and Pentium Pro processor performance
- Multiprocessing power with dual processor support
- PCI high-speed bus architecture
- High-speed networking
- Built-in multimedia functions
- Three-year warranty

Hewlett-Packard Vectra Desktop PCs

No matter what your professional computing requirements are, Hewlett-Packard has built the PC to satisfy them.

If performance and top quality computing at a highly attractive price is critical to you, then look no further than the models in our V-Line range. And the advanced networking capabilities and security and management features of our X-Line PCs have been specially designed to keep the cost of running your network down.

Our unmatched reputation for quality and support - backed up by a three-year warranty - ensures your HP Vectra PC will always be ready to work when you are.

HP Vectra XU PCs

The HP Vectra XU PC family is the best answer for power-hungry expert users working in the field of computer-aided design or computer-aided engineering (CAD/CAE), software development or desktop publishing. What these users need is maximum computing power as well as professional graphics quality, multimedia and business communication capabilities.

As well as supporting Intel Pentium® processors, the HP Vectra XU family now includes Intel's latest-generation Pentium Pro processor designed for use with 32-bit operating systems and applications. With an advanced memory architecture and a complete set of subsystems all linked to the PCI bus, HP Vectra XU PCs bring the best system performance in complex multi-tasking environments.

The HP Vectra XU PC family fully supports the dual processor capability provided by Intel's MultiProcessor Specification (MPS) technology.

In just a few seconds, you can boost the performance of operating systems supporting multi-processing by simply inserting a second processor in the available zero-insertion force upgrade socket. This socket will also accept future Intel OverDrive® processors when they become available, so you can be sure your HP Vectra XU PC will give maximum performance levels for years to come.

Users have a choice of either the Matrox Impression Plus or the Matrox Millennium graphics adapter. This provides an unbeatable combination of top processing power and the fastest graphics engine on the market including 3D acceleration for your complex CAD/CAE or photo/desktop publishing tasks.

In addition, for environments where graphics and sound are a key part of the development system, most models have an integrated quad-speed CD-ROM drive, and Pentium Pro models come with built-in Sound Blaster™-compatible

audio capabilities. Everything you need for the most complex applications!

Because you work in complex environments and use a wide variety of high-performance peripherals, HP Vectra XU PCs come standard with a SCSI-2 host bus adapter on PCI bus on Pentium models and a Fast SCSI interface on Pentium Pro models. An external SCSI-2 port is available on all models for your other expansion needs. All systems also include an enhanced IDE interface hooked to the PCI bus to allow you to use any widely available hard disk drive.

And because you're connected to a network and need easy integration and fast transfer performance, all HP Vectra XU Pentium models come standard with a PCI local-bus Ethernet adapter with 10Base-T and coax connections as well as security and client management features for unrivalled network integration. On the high-performance Pentium Pro models, the latest 100VG Selectable PCI adapter is included for the fastest available data transfer.

Finally, with the environment in mind, all Pentium models come with HP's power management system, allowing them to power-down for reduced electricity consumption.

Configurations and Models

HP Vectra XU PCs

	Model	Processor	Hard Disk	Hard Disk Controller	Memory	LAN Interface	External Cache	Video Subsystem	Product Number*
5/120	1000	Intel Pentium 120-MHz	1 GB	SCSI-2	16 MB	32-bit Ethernet	512 KB	Matrox Millennium	D3511B
	2000	Intel Pentium 120-MHz	2 GB	SCSI-2	16 MB	32-bit Ethernet	512 KB	Matrox Millennium	D3512B
5/133	1000	Intel Pentium 133-MHz	1 GB	SCSI-2	16 MB	32-bit Ethernet	512 KB	Matrox Millennium	D3516B
	2000	Intel Pentium 133-MHz	2 GB	SCSI-2	16 MB	32-bit Ethernet	512 KB	Matrox Millennium	D3517B
6/150	1000	Intel Pentium Pro 150-MHz	1 GB	Fast SCSI	16 MB	100VG AnyLAN	256 KB Internal	Matrox Millennium	D3529N
	2000	Intel Pentium Pro 150-MHz	2 GB	Fast SCSI	16 MB	100VG AnyLAN	256 KB Internal	Matrox Millennium	D3530N

* Language option must be specified; for example, Option ABB for British English.

Note: All Pentium models come with pre-installed MS-DOS® 6.22, Microsoft® Windows for Workgroups 3.11 and Dashboard 2.01. All Pentium Pro models come with Windows NT™ on CD.

Standard Features - Pentium models

Package:

- Desktop/deskside
- Includes HP industry-standard keyboard and mouse
- 5 slots: 1 PCI, 1 PCI/ISA, 3 ISA
- 4 mass storage shelves (3 front-accessible)

I/O:

- 1 parallel port (25-pin) (ECP bi-directional Centronics); 1 serial port (9-pin)
- 1 SCSI-2 port
- 10Base-T connector (RJ-45 UTP)
- Coaxial Ethernet connector
- Mini-DIN keyboard and mouse ports
- 15-pin VGA connector
- VESA connector for VGA passthrough

Memory and Cache:

- 256 MB maximum memory
- 512-KB burst synchronous, external cache

Mass Storage:

- Fast SCSI-2 hard disk drives
- Integrated PCI Fast SCSI-2 host bus adapter for internal SCSI devices, external SCSI-2 connector for external peripherals
- Integrated PCI Fast IDE interface for up to two internal devices
- Integrated quad-speed SCSI-2 CD-ROM drive

Video Subsystem:

- Matrox Millennium PCI graphics card with 2-MB WRAM video memory, upgradeable to 4 MB (D3557A) (8-MB upgrade available from Matrox)
- Maximum resolution with 2 MB: 1024 x 768 x 64000 colours
- Maximum resolution with 4 MB: 1600 x 1200 x 64000 colours
- Support of 16 million colours in up to 1024 x 768 with 2-MB WRAM upgrade
- Maximum refresh rate: 100 Hz
- Video drivers for Windows and CAD applications supplied on CD

Networking:

- Pre-loaded DMI allows PC configuration from a remote console
- 32-bit PCI Ethernet interface
- Integrated boot protocols for Novell® NetWare® and Microsoft LAN Manager
- MAC address visible and configurable Ethernet interface
- Pre-loaded LAN drivers

Upgrades/Serviceability:

- 2 ZIF sockets; available socket accepts a second processor or future OverDrive processor
- Memory upgrades on SIMMs
- BIOS in flash ROM
- Easy-to-access/service design
- Windows® 95 Plug and Play capability
- PCI local bus architecture auto-configures add-on PCI cards

Ergonomics/Environment:

- Variable-speed fan reduces noise
- Advanced power management
- CFC-free manufacturing process
- Single plastic for easy recycling
- No "battery" system

Security:

- Chassis lock and security bracket
- Keyboard lock button
- Power-on password
- Network administrator password
- Reset and power off disabled when keyboard is locked
- Boot control and enabling/disabling of I/O ports and drives
- Ultimate setup and password protection in EEPROM
- Asset tracking with serial number and PC identification field

Warranty:

- Three-year warranty (first year on-site)

Standard Features - Pentium Pro models

Package:

- Mini-tower
- Includes HP industry-standard keyboard and mouse
- 6 slots: 3 PCI, 1 PCI/ISA, 2 ISA
- 7 mass storage shelves (5 front-accessible)

I/O:

- 1 parallel port (25-pin) (ECP/ EPP); 2 serial ports (9-pin)
- 1 SCSI-2 port
- 10Base-T connector (RJ-45 UTP)
- Coaxial Ethernet connector
- Mini-DIN keyboard and mouse ports
- 15-pin VGA connector
- VESA connector for VGA passthrough

Memory and Cache:

- 256 MB maximum memory
- 256 KB internal cache

Mass Storage:

- Fast SCSI-2 hard disk drives
- Integrated Ultra-SCSI host bus adapter for internal SCSI devices, SCSI-2 connector for external peripherals
- PCI Master Enhanced IDE interface for up to four internal devices
- Integrated quad-speed SCSI-2 CD-ROM drive

Video Subsystem:

- Matrox Millennium PCI graphics card with 2-MB WRAM video memory, upgradeable to 4 MB (D3557A) (8-MB upgrade available from Matrox)
- Maximum resolution with 2 MB: 1024 x 768 x 64000 colours
- Maximum resolution with 4 MB: 1600 x 1200 x 64000 colours
- Support of 16 million colours in up to 1024 x 768 with 2-MB WRAM upgrade
- Maximum refresh rate: 100 Hz
- Video drivers for Windows and CAD applications supplied on CD

Networking:

- Pre-loaded DMI allows PC configuration from a remote console
- 100VG Selectable PCI adapter
- Integrated boot protocols for Novell® NetWare® and Microsoft LAN Manager
- MAC address visible and configurable Ethernet interface
- LAN drivers on CD

Multimedia:

- Integrated quad-speed SCSI-2 CD-ROM
- On-board 16-bit Sound Blaster capability
- Connectors for microphone, stereo line-in, line-out, joystick/IDI, PC speaker and wavetable

Upgrades/Serviceability:

- 2 ZIF sockets; available socket accepts a second processor or future OverDrive processor
- Memory upgrades on 72-bit DIMMs with support for Error Correcting Code
- BIOS in flash ROM
- Easy-to-access/service design
- PCI local bus architecture auto-configures add-on PCI cards

Ergonomics/Environment:

- Advanced cooling system
- CFC-free manufacturing process
- Single plastic for easy recycling
- No "battery" system
- Power-on from keyboard, software-controlled power-off

Security:

- Chassis lock and security bracket
- Power-on password
- Network administrator password
- Boot control and enabling/disabling of I/O ports and drives
- Ultimate setup and password protection in EEPROM
- Asset tracking with serial number and PC identification field

Warranty:

Three-year warranty (first year on-site)

Affordable servers that are easy to manage

Performance Thats Easy to Manage and Afford

Now theres a server thats right for your businessand your budget. The HP NetServer LC Series delivers the performance your small- to medium-sized workgroup needs right now, with expandability to make your investment last. Our entry-level servers are not only affordable; theyre remarkably easy to manage in todays complex multivendor networks.

- **Manageability:** To make them simpler to configure, install, and manage, the HP NetServer LC 5/75, 5/100, and 5/133 include HP NetServer Navigator, an easy-to-use toolset on CD-ROM. You also receive HP NetServer Assistant 2.2 software for proactive system alerting and problem resolution. For a powerful remote-management solution, choose the optional HP Remote Assistant.
- **Availability:** The HP NetServer LC will restart without administrator intervention, thanks to built-in Automatic Server Restart (ASR). To maximise your uptime and protect your data, we offer a range of options such as the HP Disk System with hot-swap drives.
- **Performance:** With support for the Pentium® 75MHz, 100MHz, and 133MHz processors, integrated PCI slots for increased I/O bandwidth, up to 192MB of RAM and a 256 KB write-back cache, these servers give you high performance at a low price.

HP NetServer LC Benefits and Features

Servers that are easy to manage

HP NetServer Navigator bootable CD-ROM with easy-to-use configuration, installation and management tools for the HP Netserver LC

HP NetServer Assistant server management software provides proactive alerting and problem resolution

Remote Assistant card for remote diagnostics and environmental monitoring (optional)

Rack mount solutions to save space in a multi-server environment (optional)

Servers that maximise system availability

Temperature monitor notifies system administrator of extreme temperatures

Automatic Server Restart (ASR) upon NOS hang gets server up and running quickly without system administrator's intervention

Dual-channel Fast PCI and EISA SCSI-2 Disk Array with RAID levels 0, 1, 5 and 6 for superior data protection (optional)

HP Disk System and Disk Array storage solutions available

External hot swap allows continuous use of server during replacement of failed drive (optional)

External hot spare allows instant, unattended initiation of data reconstruction on spare drive upon drive failure (optional)

HP PowerWise UPS for maximum network protection (optional)

Comprehensive service and support available directly from HP or authorised resellers

Servers that offer high performance

Pentium 75 Mhz, 100 Mhz and 133 Mhz processors

64-bit bus architecture

256-KB external write-back cache

Up to two PCI slots for increased I/O bandwidth

Integrated twin-channel EISA Fast SCSI-2 controller
Fast disks with <11 ms average seek time

Configurations and Models

	Model	Processor	Cache	Hard Disk	Memory	Product No.
HP NetServer 5/75 LC	1	Pentium 75 MHz	256KB	-	16MB	D3615A
	1050	Pentium 75 MHz	256KB	1.05GB SCSI-2	16MB	D3616A
HP NetServer 5/100 LC	1	Pentium 100 MHz	256KB	-	32MB	D3594A
	1050	Pentium 100 MHz	256KB	1.05GB SCSI-2	32MB	D3595A
HP NetServer 5/133 LC	1	Pentium 133 MHz	256KB	-	32MB	D3617A
	1050	Pentium 133 MHz	256KB	1.05GB SCSI-2	32MB	D3618A

All models shown above include:

CD-ROM drive	3.5-inch, 1.44-MB floppy disk drive	Video and mouse ports
Integrated twin-channel EISA Fast SCSI-2 controller	1 parallel and 2 serial ports	Keyboard
Integrated IDE controller	External SCSI-2 port	
Integrated Super VGA video controller	HP NetServer Navigator CD-ROM, including HP NetServer Assistant	

Product Features

Processor

HP NetServer 5/75 LC Intel Pentium 75 MHz
HP NetServer 5/100 LC Intel Pentium 100 MHz
HP NetServer 5/133 LC Intel Pentium 133 MHz

Upgrades

Processor board upgrade to Pentium 133 Mhz (Available Q4/1995)

Cache

256-KB write-back cache

Memory

HP NetServer 5/75 LC 16 MB, expandable to 192 MB
HP NetServer 5/100 LC 32 MB, expandable to 192 MB
HP NetServer 5/133 LC 32 MB, expandable to 192 MB
Support 4 MB, 8 MB, 16 MB and 32 MB (70 ns) industry-standard SIMMs (SIMMs must be added in pairs)

Expansion Slots

Six I/O slots: one PCI, one shared PCI/EISA, and four EISA bus master slots

Video

Integrated 1024x768, 16 colour noninterlaced
512-KB standard video memory
Super VGA drivers available with operating system or on HP electronic support services

SCSI

Integrated twin-channel EISA Fast SCSI-2 controller

Mass Storage Shelves

Three front-accessible, half-height shelves
One 3.5-inch floppy drive shelf

Floppy Disk Drive

3.5-inch, 1.44-MB standard

CD-ROM

SCSI-2, tray-load, quad-speed, 190 ms average access time (full-stroke), included one all models

Hard Disk Drive

1.05-GB Fast SCSI-2 (<11 ms seek time)

I/O Ports

EISA Fast SCSI-2 external port
One 25-pin parallel, two 9-pin serial ports
Video port
Mini-DIN keyboard and mouse connectors

HP NetServer Navigator CD-ROM

Bootable CD-ROM with tools to configure, install and manage the HP NetServer LC; includes these "Assistant" products:

HP Configuration Assistant Automated, menu-driven installation and configuration application that helps you

install, configure/reconfigure and optimise the performance of the HP NetServer LC

HP NetServer Assistant 2.21 Server management software that provides monitoring, proactive alerting and problem identification for subsystems such as SCSI controllers, hard disk drives, ECC memory and uninterruptible power supplies; includes HP **OpenView for**

HP Information Assistant **Windows network management platform**
Intelligent information retrieval system for quick access to information on HP NetServers and accessories, network operating system installation and tuning, and product service and support

HP Diagnostic Assistant Easy-to-use diagnostic tool for system verification and rapid troubleshooting of hardware issues, such as incorrect SCSI cabling and termination

Supported Operating Systems

Banyan VINES®

IBM® OS/2® Warp and LAN Server

Microsoft® MS-DOS®

Microsoft Windows NT®™ Server

Novell® NetWare®; Novell NetWare SFT® III; Novell UnixWare®,

SCO® Open Server®

For details, see "HP NetServer OS/NOS Support", available via HP NetServer BBS/FTP/WWWWeb

Security

Power-on password

Network server mode

Keyboard lock button with optional screen blanking

Power switch lock

EISA configuration and BIOS protection switches

Enable or disable serial and parallel ports, floppy drives, and write operations to the floppy drive

Provision for padlock

Designed-in Support Features

Extensive built-in self-tests

HP Diagnostic Assistant hardware test disk in cabinet

Temperature monitor notifies system administrator of extreme temperatures

Side door for easy access to internal components

Service and Support

3-year, next-business-day, on-site limited warranty from HP or authorised resellers (standard business hours)

Optional 4-hour response during standard business hours available as HP SupportPack from resellers

Free telephone support for basic setup, installation and troubleshooting in United States, Canada and Europe during warranty

Network phone-in support (advanced NOS and network support) available in United States, Canada, Europe and

Australia as optional HP SupportPack from resellers

HP NetServer Compatibility Evaluation Guarantee

Easy Access to Technical Information

Drivers, utilities and technical tips and tricks available via HP Netserver BBS, CompuServe, FTP and WWWWeb

Complete technical documentation and system-level information available through HP Support Assistant CD-ROM subscription

Optional Accessories *

Memory

D2974A 4-MB parity SIMM (70 ns)

D3577A 8-MB parity SIMM (70 ns)

D2297A 16-MB parity SIMM (70 ns)

D3578A 32-MB parity SIMM (70 ns)

Storage Devices

D2036A 5.25-inch, 1.2-MB floppy disk drive

D2918A 540 MB IDE hard disk (must order D2198Amounting tray)

D2076B 1.05-GB Fast SCSI-2 hard disk

D2077A 2.1-GB Fast SCSI-2 hard disk

D3340A 2.1-GB Fast SCSI-2 hard disk (7200 RPM)

D3341A 4.2-GB Fast SCSI-2 hard disk

D2992B CD-ROM (internal SCSI-2, tray load, quad-speed, 190ms average access time)

C1528F HP SureStore Tape 6000i Internal Tape Drive

<u>C1526F</u>	HP SureStore Tape 5000i Internal Tape Drive
<u>C1525F</u>	HP SureStore Tape 2000i Internal Tape Drive
<u>D2198A</u>	3.5 inch hard disk drive mounting tray (3-pack)
<u>D2199A</u>	Tape/DAT/CD-ROM mounting tray (3-pack)

SCSI-2 Controller

<u>D2078B</u>	EISA Fast SCSI-2 Controller Adapter
---------------	-------------------------------------

Disk Array Controller

<u>C3610A</u>	HP PCI Disk Array Controller Adapter with dual Fast and Wide SCSI-2 channelsD
<u>C3609A</u>	HP EISA Disk Array Controller Adapter with dual Fast SCSI-2 channelsD

External Storage Solutions

<u>D3611A</u>	HP Disk System: five pluggable bays
<u>C3305A</u>	1.0 GB hot-swap Fast SCSI-2 disk module
<u>C3306A</u>	2.0 GB hot-swap Fast SCSI-2 disk module

Processor Board Upgrades (Available Q4/1995)

<u>D3601A</u>	Pentium 133 Mhz processor board upgrade
---------------	---

Monitors

<u>D2804A</u>	HP SuperVGA Display, 14-inch
<u>D2801B</u>	HP Monochrome VGA Display 14-inch

Network Cards

<u>J2585A</u>	HP 10/100VG Selectable PDI Adapter
<u>J2577A</u>	HP 10/100VG Selectable EISA Adapter

HP Remote Assistant

	EISA server management card for remote diagnostics and environmental monitoring
<u>D2968B</u>	For U.S./Canada/Latin American countries (includes modem)
<u>D2967B</u>	For other countries (no modem)

HP PowerWise UPS (Available in North America and Europe only)

<u>C4277B</u>	HP PowerWise UPS 1000VA
<u>C4278B</u>	HP PowerWise UPS 2100VA
<u>C4778B</u>	HP PowerWise UPS L900
<u>C4777B</u>	HP PowerWise UPS L600

Refer to HP PowerWise UPS Data Sheets (5963-7004, 5963-7005) for software and accessory information

HP NetServer Packs and Accessories

<u>J1450A</u>	2 metre rack with side panels and rear doors
<u>J1450A</u> option AXH	2 metre rack only
<u>J1460A</u>	8-port HP Console Switchbox

For additional information on HP NetServer Rack solutions, refer to the HP NetServer Rack Solutions Data Sheet (5963-7003)

Service Documentation

<u>D3310-90001</u>	Service Manual (also on HP NetServer Navigator CD-ROM)

Servers that deliver maximum uptime with optimised price/performance

Servers That Stand Up to Today's Demanding Networks And Tomorrows

If your organisation's computing needs range from sharing files and resources to running processor-intensive applications, there's no better choice for your network than Hewlett-Packard's optimised price/performance servers—the HP NetServer LH Series. We've designed these servers from the inside out to deliver high levels of:

- **Manageability:** HP NetServer Navigator provides you with easy-to-use tools for quick configuration and installation and efficient management of your server. Combined with the built-in manageability features of the HP NetServer LH, these tools help you get your server up quickly and keep it running.
- **Availability:** For an extra measure of protection, the HP NetServer LH includes an innovative hot-swap subsystem with a dual SCSI backplane for internal disk duplexing and for replacing failed disks without shutting down the system. To further ensure data integrity, ECC memory automatically checks, corrects and reports memory errors.
- **Performance:** To meet the performance requirements of a wide range of business applications, these servers are scalable from Pentium™ 75 MHz to dual Pentium 133 MHz processors. With these processors, plus a next-generation PCI architecture and two integrated PCI SCSI controllers, the HP NetServer LH Series delivers exceptional I/O bandwidth and system performance.

Benefits and Features

Servers that are easy to manage

- HP NetServer Navigator bootable CD-ROM with easy-to-use tools to configure, install and manage the HP NetServer LH
- HP NetServer Assistant server management software for proactive alerting and problem resolution
- Optional HP Remote Assistant card for comprehensive remote diagnostics and environmental monitoring
- Optional rack mount solutions to save valuable space in a multi-server environment

Servers that maximise system availability

- HP Dual-channel PCI Disk Array (Fast and Wide SCSI-2) for superior data protection
- Hot-swap feature allows continuous use while replacing failed drive
- Dual SCSI backplane for internal disk duplexing
- ECC memory for automatically checking, correcting and reporting memory errors
- Unattended, automatic reset and reboot upon NOS hang, to get system back up and running quickly
- Comprehensive service and support available directly from HP or authorised

Servers that offer high performance

- Scalable to dual Pentium 100 MHz symmetric multiprocessing (SMP)
- 256 KB external write-back cache (512 KB for dual Pentium/100)
- Advanced PCI bus with two PCI Fast SCSI-2 controllers integrated on system board for

faster I/O

Configurations and Models

	Model	Processor	Cache	Hard Disk	Disk Array	Memory	Product No.
HP NetServer 5/75 LH	1	Pentium 75MHz	256KB	-	-	16 MB ECC	D3353A
	1050	Pentium 75MHz	256KB	1.05GB hot-swap	-	16 MB ECC	D3354A
	1-Array	Pentium 75MHz	256KB	-	PCI Disk Array Controller	16 MB ECC	D3355A
HP NetServer 5/100 LH	1	Pentium 100MHz	256KB	-	-	32 MB ECC	D3356A
	1050	Pentium 100MHz	256KB	1.05-GB hot-swap	-	32 MB ECC	D3357A
	1-Array	Pentium 100MHz	256KB	-	PCI Disk Array Controller	32 MB ECC	D3358A
HP NetServer 5/100 LH2	1	Dual Pentium 100 MHz	512KB	-	-	32 MB ECC	D3570A
	1-Array	Dual Pentium 100 MHz	512KB	-	PCI Disk Array Controller	32 MB ECC	D3571A
HP NetServer 5/133 LH	1	Pentium 133MHz	256KB	-	-	32 MB ECC	D3620A
	1-Array	Pentium 133MHz	256KB	-	PCI Disk Array Controller	32 MB ECC	D3621A

All models also include:

Hot-swap disk subsystem

Quad speed CD-ROM drive

Two integrated PCI Fast SCSI-2 controllers

Integrated IDE controller

3.5-inch, 1.44-MB floppy disk drive

1 parallel and 2 serial ports

Video and mouse ports

External SCSI port (with array models only)

Keyboard

HP NetServer Navigator CD-ROM,

including HP NetServer Assistant

Product Features

Processor

HP NetServer 5/75 LH	Intel Pentium 75MHz
HP NetServer 5/100 LH	Intel Pentium 100MHz
HP NetServer 5/133 LH	Intel Pentium 133MHz
HP NetServer 5/100 LH2	Dual Intel Pentium 100MHz

Processor Upgrade

Processor board upgradeable to dual Pentium/100 processors

Cache

256 KB write-back (512 KB write-back shared cache on dual 5/100 models)

Memory

32 MB ECC (16 MB ECC on 5/75 LH), expandable to 192 MB

Expansion Slots

Up to 9 bus master slots (4 PCI, 4 EISA, 1 shared PCI/EISA)

HP Disk Array (with Model 1-Array)

PCI Disk Array Controller Adapter with dual Fast and Wide SCSI-2 channels (takes one PCI slot), based on i960 processor with 4 MB cache

Hot-swap and hot-spare capabilities

Support for RAID 0, 1, 5, 6 (logical combination of RAID 0 and 1)

SCSI

Two PCI Fast SCSI-2 controllers integrated on system board

Mass Storage Shelves

Nine front-accessible shelves

- 1 for CD-ROM (included)

- 1 standard half-height

- 6 hot-swap (must use hot-swap drives)

- One 3.5 inch flexible disk drive

Flexible Disk Drive

3.5 inch, 1.44 MB included on all models

CD-ROM

SCSI-2, tray-load, quad-speed, 190 ms average access time (full-stroke); included on all models

Hot-Swap Drives

1.05 GB (standard on Model 1050), 2.1 GB, 4.2 GB Fast SCSI-2 disk module

Built-in I/O Ports

External Fast SCSI-2 (included with array models only)

One 25-pin parallel; two 9-pin serial RS-232

Video; mini-DIN keyboard and mouse

Video

Integrated 1024x768, 16-color, non-interlaced

512 KB standard video memory

Super VGA drivers available with operating system or from HP electronic support services

HP NetServer Navigator CD-ROM

Bootable CD-ROM with tools to configure, install and manage the HP NetServer LH;
includes these Assistant products:

HP Configuration Assistant

Automated, menu-driven installation and configuration application that helps you install, configure/reconfigure and optimise the performance of the HP NetServer LH

HP NetServer Assistant 2.2

Server management software that provides monitoring, proactive alerting and problem identification for subsystems such as SCSI controllers, hard disk drives, ECC memory and uninterruptible power supplies; includes HP OpenView for Windows™ network management platform and full DMI support

HP Information Assistant

Intelligent information retrieval system for quick access to information on HP NetServers and accessories, network operating system installation and tuning, and product service and support

HP Diagnostic Assistant

Easy-to-use diagnostic tool for system verification and rapid troubleshooting of hardware issues, such as incorrect SCSI cabling and termination

Supported Operating Systems *

Banyan VINES

Microsoft Windows NT Server

IBM OS/2 Warp and LAN Server

Novell NetWare, Novell NetWare SFT III, Novell UnixWare

Microsoft MS-DOS

SCO Open Desk/Open Server, SCO UNIX

** For details, see "HP NetServer OS/NOS Support" available via HP NetServer BBS/FTP/WWWWeb.*

Supported SMP Operating Systems

IBM OS/2 SMP and LAN Server, Microsoft Windows NT Server, Novell UnixWare and SCO MPX

HP Advanced Cooling System

Dual fans provide extra cooling for internal components; superior air-flow design

Security

Startup password

Network server mode

Keyboard lock button with optional screen blanking

Server case lock

EISA configuration protection password

Enable or disable serial port, flexible disk drives and write operations to flexible disk drive

Service and Support

3-year, next-business-day, on-site limited warranty from HP or authorised resellers (standard business hours)

Optional 4 hour response during standard business hours or 7 days/week, 24 hours/day available as HP SupportPack from resellers

Free telephone support for basic setup, installation and troubleshooting in U.S., Canada and Europe during warranty

Network phone-in support (advanced NOS and network support) available in U.S., Canada, Europe and Australia as optional HP SupportPack from resellers

HP NetServer Compatibility Evaluation Guarantee

Easy Access to Technical Information

Drivers, utilities and technical tips and tricks available via HP NetServer BBS, CompuServe, FTP and WWWWeb

Complete technical documentation and system-level information available through HP Support Assistant CD-ROM subscription

Optional Accessories 1

Memory

Information subject to change without notice

Scalable servers for mission-critical applications

Next-Generation Servers On Which Your Business Can Depend

Does your network run databases, messaging, groupware, high-end file services, or other applications that are critical to your business? If so, you can't afford to take a chance on server downtime. Now, with Hewlett-Packard's new, scalable, fault-tolerant HP NetServer LS, you don't have to. Because we've designed this high-end server from the bottom up to deliver high levels of manageability, availability and performance or MAP the capabilities that complex, mission-critical environments require.

- **Manageability:** For easy installation, configuration and administration, the HP NetServer LS comes standard with HP NetServer Navigator, a family of advanced server setup and management tools on a bootable CD-ROM.
- **Availability:** All models of the HP NetServer LS offer a new hot-swap disk subsystem with a dual SCSI backplane for internal disk duplexing. This subsystem can also be used with the new HP dual-channel PCI Disk Array Controller enabling you to replace failed disks without compromising the availability of mission-critical applications.
- **Performance:** Incorporating the industry-leading XXpress architecture and support for up to four-way symmetric multiprocessing, this server is optimised for performance in mission-critical environments.

HP NetServer LS Benefits and Features

Servers that are easy to manage

HP NetServer Navigator bootable CD-ROM with configuration, installation and management tools; includes HP NetServer Assistant server management software for proactive alerting and problem resolution

Optional HP Remote Assistant card for remote diagnostics and environmental monitoring

Optional rack mount solutions to save space in a multi-server environment

Servers that maximise system availability

HP Dual-channel PCI Disk Array (Fast and Wide SCSI-2) for superior data protection

"Hot-swap" feature allows continuous use while replacing failed drive

Dual SCSI backplane for internal disk duplexing

ECC memory for checking, correcting and reporting memory errors

Unattended, automatic reset and reboot upon NOS hang, to get system back up and running quickly

Optional HP PowerWise UPS for maximum network protection

Service and support available from HP or authorised resellers

Servers that offer high performance

Support for up to four-way symmetric multiprocessing on Pentium/100 and Pentium/133

XXpress architecture with clock-independent 64 bit system bus, dual PCI peer buses, and concurrent bus operation, eliminates performance bottlenecks

512 KB, and 1 MB external write-back caches

Integrated Dual PCI Fast and Wide SCSI-2 controllers

Fast disks and network cards for maximum I/O throughput

Configurations and Models

HP NetServer 5/133 LS2	Intel Pentium 133MHz Dual SMP card
HP NetServer 5/133 LS4	2 Intel Pentium 133MHz Dual SMP cards

Processor Upgrade Slots

Two processor card slots to accommodate Pentium/100, Dual Pentium/100 SMP, Pentium/133 and Dual Pentium/133, processor boards and board upgrades

ECC Memory

32 MB on 5/100 LS and 5/133 LS models 1 and 1-Array; 64 MB on 5/100 LS2, 5/133 LS2, 5/100 LS Model 4200 and 5/100 LS Model 8400, expandable to 768 MB with industry-standard 32 MB SIMMs

Cache

HP NetServer 5/100 LS	512 KB write-back
HP NetServer 5/100 LS2	2 MB (1 MB write-back for each processor)
HP NetServer 5/100 LS4	4 MB (1 MB write-back for each processor)
HP NetServer 5/133 LS	512 KB write-back
HP NetServer 5/133 LS2	2 MB (1 MB write-back for each processor)
HP NetServer 5/133 LS4	4 MB (1 MB write-back for each processor)

Expansion Slots

Up to 9 bus master slots (3 PCI, 4 EISA and 2 shared) when one processor slot used
Up to 8 bus master slots (2 PCI, 4 EISA, and 2 shared) when two processor slots used

HP Disk Array (with Model 1-Array)

PCI Disk Array Controller with dual Fast and Wide SCSI-2 channels, based on i960

processor with 4 MB cache
Hot-swap and hot-spare capabilities
Support for RAID 0, 1, 5, 6 (logical combination of RAID 0 and 1)

Video

Integrated 1024x768, 16-color, non-interlaced
512 KB standard video memory (upgradeable to 1 MB)
Super VGA drivers available with operating system or from HP electronic support services

SCSI

Two PCI Fast and Wide SCSI-2 controllers, integrated on system board

Mass Storage Shelves

Eight front-accessible, half-height shelves
- 1 for CD-ROM (included)
- 1 standard half-height
- 6 hot-swap shelves (must use hot-swap drives)
One 3.5 inch flexible disk drive

Flexible Disk Drive

3.5 inch, 1.44 MB included on all models

CD-ROM

SCSI-2, tray-load, quad-speed, 190 ms average access time (full-stroke); included on all models

Built-in I/O Ports

External PCI Fast and Wide SCSI-2 port (included on Model 1-Array only)
One 25-pin parallel port
Two 9-pin RS-232 serial ports
Video port
Mini-DIN keyboard and mouse

HP NetServer Navigator CD-ROM

Bootable CD-ROM with tools to configure, install and manage the HP NetServer LS;
includes these *Assistant* products:

HP Configuration Assistant	Automated, menu-driven installation and configuration application that helps you install, configure/reconfigure and optimise the performance of the HP NetServer LS
HP NetServer Assistant 2.2	Server management software that provides monitoring, proactive alerting and problem identification for subsystems such as SCSI controllers, hard disk drives, ECC memory and uninterruptible power supplies; includes HP OpenView for Windows network management platform
HP Information Assistant	Intelligent information retrieval system for quick access to information on HP NetServers and accessories, network operating system installation and tuning, and product service and support
HP Diagnostic Assistant	Easy-to-use diagnostic tool for system verification and rapid troubleshooting of hardware issues, such as incorrect SCSI cabling/termination

Supported Operating Systems*

Banyan VINES
IBM OS/2 Warp and LAN Server
Microsoft MS-DOS
Microsoft Windows NT Server
Novell NetWare, Novell NetWare SFT III, Novell UnixWare
SCO Open Desk/Open Server, SCO UNIX
** For details, see "HP NetServer OS/NOS Support", available via HP NetServer BBS/FTP/WWW.*

Supported SMP Operating Systems

IBM OS/2 SMP and LAN Server,
Microsoft Windows NT Server,
Novell UnixWare
SCO MPX

HP Advanced Cooling System

Dual fans provide extra cooling for internal components; superior air-flow design

Security

Startup password

Network server mode
Keyboard lock button with optional screen blanking
Timed keyboard, power, and reset switch lock
EISA configuration protection password
Enable or disable serial port, flexible disk drives and write operations to flexible disk drive
Provision for padlock or cable lock

Service and Support

3-year, next-business-day, on-site limited warranty from HP or authorised resellers (standard business hours)
Optional 4 hour response during standard business hours available as HP SupportPack from resellers
Free telephone support for basic setup, installation and troubleshooting in U.S., Canada and Europe during warranty
Network phone-in support (advanced NOS and network support) available in U.S., Canada, Europe and Australia as optional HP SupportPack from resellers
HP NetServer Compatibility Evaluation Guarantee

Easy Access to Technical Information

Drivers, utilities and technical tips and tricks available via HP NetServer BBS, CompuServe, FTP and WWWeb
Complete technical documentation and system-level information available via HP Support Assistant
CD-ROM subscription

Optional Accessories

Memory

D2974A 4 MB SIMM (70 ns)
D3577A 8 MB SIMM (70 ns)
D2297A 16 MB SIMM (70 ns)
D3578A 32 MB SIMM (70 ns)
D2971B ECC Memory Expansion card (12 SIMM sockets)

Storage Devices

D3581A 1.05 GB hot-swap Fast SCSI-2 disk module
D3582A 2.1 GB hot-swap Fast SCSI-2 disk module
D3583A 4.2 GB hot-swap Fast SCSI-2 disk module
D2992B CD-ROM (internal SCSI-2, tray-load, quad-speed, 190 ms average access time)
C1528F HP SureStore Tape 6000i Internal DAT Drive
C1526F HP SureStore Tape 5000i Internal DAT Drive
C1525F HP SureStore Tape 2000i Internal DAT Drive
D2198A 3.5 inch hard disk drive mounting trays (3 packnot hot-swap)
D2199A Tape/DAT/CD-ROM mounting trays (3 packno front panel)
D3349A Hot-swap hard disk mounting tray (for selected non-HP drives only; refer to HP electronic services for supported drives)
D3330-60010 SCSI Cable Kit

SCSI-2 Controller

D2078B EISA Fast SCSI-2 Controller

Disk Array Controller

C3610A PCI Disk Array Controller Adapter with dual Fast and Wide SCSI-2 channels
C3609A HP EISA Disk Array Controller Adapter with dual Fast SCSI-2 Channels

External Storage Solutions

D3611A Disk System Cabinet (disk modules not included)
C3305A 1.0 GB hot-swap Fast SCSI-2 disk module
C3306A 2.0 GB hot-swap Fast SCSI-2 disk module

Processor Board Upgrades

D3574A Pentium/100
D3575A Dual Pentium/100 SMP
D3613A Pentium/133
D3614A Dual Pentium/133 SMP

Monitors

D2804A HP Super VGA Display, 14-inch

D2801B HP Monochrome VGA Display,14-inch

Network Cards

J2585A HP 10/100VG Selectable PCI Adapter

J2577A HP 10/100VG Selectable EISA Adapter

HP Remote Assistant

EISA server management card for remote diagnostics and environmental monitoring:

- D2967B For non US countries (no modem)

HP PowerWise UPS (Available in North America and Europe only)

C4277B HP PowerWise UPS 1000VA (230V)

C4278B HP PowerWise UPS 2100VA (230V)

C4778B HP PowerWise UPS 900VA (230V)

Refer to HP PowerWise UPS Data Sheets (5963-7004, 5963-7005) for software and accessory information

HP NetServer Racks and Accessories

J1450A 2 metre rack with side panels and rear doors

J1450A opt. AXH 2 metre rack only

J1460A 8-port HP Console Switchbox

J1451B HP NetServer LS Rack Mount Kit

For additional information on HP NetServer Rack solutions, refer to HP NetServer Rack Solutions Data Sheet (5963-7003)

Service Documentation

D3330-90001 Service Manual (also on HP NetServer Navigator CD-ROM)

D3330-60004 Video Training Kit

Other Specifications

Operating Temperature

5 to 35 degrees C (41 to 95 degrees F)

Operating Humidity

20% to 80% non-condensing

Acoustic Emissions

Sound Level (LpA): <60 dB (A)

Power Supply

Auto-ranging 90 to 135 VAC, or 180 to 265 VAC at 50-60Hz

Power Availability

470W continuous, 530W peak

Power Consumption

723W maximum with 110/220V supply; 815W peak with 110/220V supply

System Dimensions

49 cm x 34.8 cm x 46 cm (19.3 inches high x 13.7 inches wide x 18.1 inches deep)

System Weight

22.7-31.8 kg (50-70 lbs), depending on configuration

[HP OmniBook 600CT 4/75](#)

Information subject to change without notice

A small, light, powerful-colour Notebook PC

PCs that deliver:

- Unconscious portability
- Immediate use, data security
- Exceptional comfort for the user
- Connectivity convenience
- Mainstream performance

The days when you needed to choose between the functionality of a desktop and the mobility of a portable are gone. Hewlett-Packard notebook computers quite simply give you both. Our Desktop-to-go models combine top-end PC functionality and power with light weight. Their unique combination of features makes them an efficient travelling companion, ready to work for as long as you are. Our Work-on-the-go models offer a combination of unique features designed to take the hassle out of being on the road without compromising on power or screen quality. Hewlett-Packard -- we go a long way to let you work anywhere, anyhow, any time.

OmniBook 600

The HP OmniBook 600 notebooks are the lightest around, without being weak. The Intel® i486 DX4/75 processor makes the OmniBook 600 one of the most powerful notebooks on the market. You won't miss out on computing power when you're carrying one of these, despite the fact that it weighs a mere 1.7 kilos (3.8 lb) and measures only just over 18 x 28 cm (7 x 11 in).

You don't need to close an application before switching off your OmniBook 600. Simply turn it off. When you switch it back on again, even a week later, you're right back where you left off. This feature, called instant-on, gives you access to your information within seconds.

The DSTN display and full-sized keyboard make the OmniBook 600 very comfortable to use. The 9.4" TFT display makes it even more attractive. Its patented pop-up mouse is like none you've ever seen, yet it works just the way you'd expect. Press the mouse-eject button and the mouse pops out of its storage area, ready for action. You don't even need a flat surface as the mouse can operate in mid-air.

The OmniBook 600 has a range of convenient connectivity features, including an infra-red link and two free PCMCIA slots. The OmniBook comes with either 260 or 340 MB PCMCIA hard disk drives, which are more reliable than standard 2.5 inch disk drives. You can transform your OmniBook into a desktop within seconds by plugging it into the enhanced port replicator. It gives you instant access to peripherals such as a printer, SVGA monitor, SCSI devices (hard disk or CD-ROM) and network connection.

An external 3.5 inch floppy disk drive comes standard with the OmniBook 600, so you can easily load any software you like. Though with MS-DOS 6.2 Windows for Workgroups 3.11, LapLink Remote Access™ and PIM software already installed, you can also get started straight away. Even when the OmniBook 600 is turned off, its appointment software will wake up and remind you of appointments. It carries your to-do list, phone list and calendar. No need to carry a separate calculator. With the OmniBook 600 you carry all your time management tools together in one place -- with you all the time.

The CT model offers Windows sound and two 16-bit speakers. With the IRDA print driver you can now connect to the newest HP printers using the infrared technology.

The OmniBook 600 is a complete solution. The AC adapter will recharge your batteries while you work and a

range of accessories includes an automobile adapter and an external battery charger allowing several batteries to charge at once.

Whichever model of OmniBook you choose, you'll benefit from HP's legendary quality and support-backed by a three-year warranty.

Models and Configurations

Technical Specifications

· Size Closed:

- 18.49 x 28.24 x 3.99 cm (7.28 x 11.12 x 1.57 in)

· Weight:

- 1.72 kg (3.8 lb)

- Travelling weight (including adapter and power cable) 2.10 kg (4.64 lb)

· Processors:

- 75 MHz IntelDX4TM

· Display:

- 640 x 480 backlit colour VGA

- 8.5 inch diagonal DSTN

- VGA-out supports VGA and SVGA monitors (up to 1024 x 768 x 256 colours)

- Accelerated local bus video with 1-MB VRAM

· Power:

- 600C: 9.6 V DC rechargeable NiMH battery

- 600CT: 7.2 V DC rechargeable Lithium ion battery

- AC adapter 100 to 240 V AC (50 to 60 Hz) input; 12 V DC, 2.5 A output

- Instant-on maintains computer in ready-to-work state for months on a charge. Turn it on again, and you're instantly back where you were.

Battery	Battery life/Recharge time
---------	----------------------------

NiMH 9.6 V	3.5 hours/2 hours
------------	-------------------

Lithium Ion 7.2 V	4.0 hours/3.5 hours
-------------------	---------------------

· Operating Environment:

- Operating temperature: 0 to 40°C (32 to 104°F)

- Storage temperature with data retention: 0 to 55°C (32 to 131°F)

- Operating and storage humidity: 90% relative humidity at 40°C (104°F) maximum

· Mass Storage:

- Shock resistant 260 or 340 MB PCMCIA Type III hard disk drive 16 ms average seek time

· RAM:

- 8 MB 70-ns burst mode DRAM on motherboard expandable to 32 MB

· Keyboard and Mouse:

- 85 keys

- Touch-type keyboard, industry-standard full-sized key spacing
- Embedded numeric keypad
- 12 (Fn) keys
- Built-in pop-up mouse with two position height to reduce hand strain

· **Security:**

- Kensington lock slot
- System password

· **Input/Output:**

- 9-pin, 115,200-baud, RS-232 port
- 25-pin bidirectional parallel port
- VGA-out (up to 1024 x 768 x 256 colours)
- 115,200-baud, bidirectional infra-red
- Enhanced port replicator connector
- Floppy drive port
- External speaker output
- Microphone

· **Expandability:**

- One Type III PCMCIA slot (or use as two Type II slots)
- External ultra-thin floppy disk drive 1.44 MB (included with product)
- Enhanced port replicator with parallel, serial, VGA-out (up to 1024 x 768), keyboard, PS/2 or Microsoft mouse, and SCSI ports, external floppy connector and optional HP EtherTwist LAN card slot.

· **Pre-installed Software:**

- Microsoft® Windows™ for Workgroups 3.11
- MS-DOS® 6.2
- Upgrade easily to Windows 95 (includes "Plug and Play" BIOS)
- Setup program in ROM
- BIOS stored in flash EEPROM
- Automatic detection of PCMCIA devices, external monitor and external floppy drive without booting
- LapLink Remote Access™. Easy connection to your desktop PC, network and desktop printers. Works via cable or infra-red
- HP Financial Calculator. Basic arithmetic, time value of money, amortization, business percentages and unit/currency conversions
- Phone Book
- IRDA printing (on TFT model only)

· **Environmental design:**

- EPA Energy Star™ certification
- CFC-free plastic parts
- Recyclable package printed with acid-free inks

· **Ergonomic design:**

- Integrated hand grips
- Automatic printing utility for function key labels
- Integrated business card holder

· **Warranty:**

- Three-year warranty

Enhanced Port Replicator

· **Replicated ports:**

- Power-in port
- 9-pin, 115Kb/s, RS-232 port
- 25-pin bidirectional EPP parallel port
- SVGA-out (up to 1024 x 768 x 256 colours)

- Floppy drive port

- **Additional ports:**

- SCSI-2 port
- Internal slot for optional HP EtherTwist LAN card
- 2 mini-DIN keyboard and mouse ports

Optional Accessories

- **Memory upgrades:**

- 4 MB, 70-ns DRAM expansion ([F1054A](#))
- 8 MB, 70-ns DRAM expansion ([F1055B](#))
- 16 MB, 70-ns DRAM expansion ([F1123A](#)) on TFT model only
- 24 MB, 70-ns DRAM expansion ([F1124A](#)) on TFT model only

- **Data Storage:**

- 170 MB PCMCIA hard disk drive ([F1068A](#))
- 260 MB PCMCIA hard disk drive ([F1069A](#))
- 340 MB PCMCIA hard disk drive ([F1070A](#))
- 5 MB PCMCIA flash RAM disk ([F1012B](#))
- 10 MB PCMCIA flash RAM disk ([F1013B](#))
- 20 MB PCMCIA flash RAM disk ([F1014B](#))

- **External monitors:**

- Compatible with full range of standard and ergonomic HP video monitors

- **Power:**

- AC Adapter ([F1044B](#))
- NiMH Battery Pack ([F1058A](#))
- Lithium ion Battery Pack ([F1121A](#))
- PowerClip External Battery Charger ([F1063B](#))
- Automobile Adapter ([F1064A](#))

- **Port replicator:**

- Enhanced Port Replicator ([F1071A](#))
- 100 VG LAN Adapter ([J2573A](#)) (requires [F1071A](#))
- 16-bit 10Base-T LAN Adapter ([27247B](#)) (requires [F1071A](#))

- **Miscellaneous:**

- Pop-up Mouse ([F1049A](#))
- 3.5 inch External Flexible Disk Drive ([F1059B](#))

- **Warranty:**

- One year limited warranty on accessories.

A full-function Desktop-to-go PC

PCs that deliver:

Desktop power on the move - Pentium PCI

Full PC functionalities

Modularity and flexibility over time

Exceptional comfort for the user

Connectivity convenience

Hewlett-Packard Notebook Computers

The days when you needed to choose between the functionality of a desktop and the mobility of a portable are gone.

Hewlett-Packard notebook computers quite simply give you both. Our Desktop-to-go models combine top-end PC functionality and power with light weight. Their unique combination of features makes them an efficient travelling companion, ready to work for as long as you are. Our Work-on-the-go models offer a combination of unique features designed to take the hassle out of being on the road without compromising on power or screen quality. Hewlett-Packard we go a long way to let you work anywhere, anyhow, any time.

The Hewlett-Packard Omnibook 5000: with you in the right place at the right time

The Hewlett-Packard OmniBook 5000 notebook is a best-in-its-class for fast-moving people who need all the functionality of a true desktop PC in their briefcase. A powerful 75-, 90- or 120-MHz Pentium processor and a high-speed PCI bus puts the OmniBook 5000 on the same footing as the most powerful desktops on the market today. When it comes to mobility, however, the OmniBook 5000 will leave every desktop standing - it lets you use your computing power wherever you most need it.

The OmniBook 5000 is extremely easy to use, due to its 85-key, touch-type keyboard, embedded numeric keypad and large, centered trackball. Both the VGA and SVGA TFT 10.4-inch colour screens give exceptional quality. And if you choose the latter you'll have up to 800 x 600 resolution with which to impress your clients. Both screens feature the wide-angle viewing and razor-sharp resolution that are indispensable for on-the-road presentations.

If you want multimedia, you'll appreciate the built-in, 16-bit Sound Blaster TM -compatible sound system with stereo speakers and microphone. You can use high-speed video, too. The Omnibook 5000's 32-bit PCI bus brings you lightning-fast, crisp, clear images. When you're out on the road, it's important to keep in touch. The OmniBook 5000s provides an array of easy-to-use connectivity features, including two PCMCIA slots, an infra-red link and a SCSI-2 port to interface with CD-ROM and tape drives. You can even output presentations to a television via the NTSC/PAL video-out port. And for really easy, single-step link-up to networks, external monitors, keyboards, printers and other peripherals, our optional docking system provides one-slot connection through its combination of PCI and ISA slots.

The eight different configurations of the OmniBook 5000 were designed to allow you to choose exactly the combination of features you need. The configuration you choose can evolve over time with your needs, because all the OmniBook 5000 configurations are modular. For example, you can choose from 540 MB to 1.2 GB of

hard-disk storage and from 8 to 16 MB of standard RAM, expandable up to 64 MB. Don't need a floppy drive? Just slide it out, and replace it with a second Lithium-Ion battery to double your autonomy.

Two features of the OmniBook 5000 are definitely not modular, and these are Hewlett-Packard's legendary quality and support. Every Omnibook 5000 comes with a worldwide, limited warranty for up to 3 years. We never let you down, wherever you are. Which is why PC Magazine readers rated Hewlett-Packard as leader for notebook service and support in January 1995.

Models and Configurations

	Model	Processor	Hard Disk	Memory	Screen	Product Number
HP OmniBook 5000						
Premium Models						
5000CTS 5/120	1200	Intel Pentium 120-MHz	1.2 GB	16 MB	10.4 SVGA TFT	F1198A

5000C VL 5/75	540	Intel Pentium 75-MHz	540 MB	8 MB	10.4 VGA DSTN	F1126A

Premium models also come with 256 KB second-level cache, a lithium ion battery, a built-in SCSI interface and a three-year warranty. VL models have a NiMH battery and a one-year warranty.

Technical Specifications

Size Closed:

- 29.5 x 22.5 x 4.9 cm (11.6 x 8.8 x 1.93 in)

Weight:

- STFT: 3.27 kg (7.2 lb) with NiMH, (6.8 lb) with lithium ion battery

Processors:

- 32-Bit PCI Bus
- Intel Pentium® 75-, 90-, or 120-MHz with 256K External L2 Cache*

Display:

- 10.4 inch diagonal VGA or SVGA TFT or VGA DSTN
- VGA TFT (CT): 640 x 480 x 65,536 colours
- SVGA TFT (CTS): 800 x 600 x 256 colours
- VGA DSTN (C): 640 x 480 x 256 colours
- PCI local bus video; 1.5-MB video RAM

Power:

- 14.4 Vdc rechargeable lithium ion* or NiMH battery pack
- The battery recharge time is less than 4 hours for lithium ion batteries and in less than 2.5 hours for NiMH battery
- 2-minute low-battery warning
- Instant-on maintains computer in ready-to-work state for up to 1 month on a charge. Turn it on again, and you're instantly back where you were.
- Battery life (approximate with one battery per industry-standard run-down test):
Lithium ion: 2.5-3.5 hrs

NiMH: 2-3 hrs

- AC adapter 100 to 240 Vac (50 to 60 Hz) input; 12 Vdc, 3.3 A output

Removable Modules:

- Floppy disk drive (can be replaced with a second battery for double battery life)
- Hard disk drive
- Battery

Operating Environment:

- Temperature: TFT: 10° to 40°C (50° to 104°F) DSTN 5° to 40°C (41° to 104°F)
- 90% relative humidity at 40°C (104°F) maximum storage environment

Mass Storage: (removable)

- 540, 810 or 1.2-GB hard disk 12ms average seek time

RAM:

- RAM Upgradable to 64-MB
- 8-, 16-, 32-MB RAM models

Audio:

- 16-bit, Sound Blaster-compatible stereo sound via two built-in stereo speakers

Keyboard and Trackball:

- 85 key touch-type keyboard
- Embedded numeric keypad
- 12 (Fn) keys
- Large 25-mm trackball

Input/Output:

- RS-232 serial port (UART 16550)
- EPP and ECP parallel port
- SVGA-out (up to 1024 x 768 x 256 colours)
- 115-baud, bidirectional infrared port
- Expansion bus connector for Mini Dock
- SCSI-II Port*
- NTSC/PAL Output
- Mini-DIN mouse or keyboard port; Y adapter to connect both keyboard and mouse
- Headphone/stereo-out port
- Microphone port
- MIDI/Joystick port with joystick adapter
- Stereo-in port

Expandability:

- One Type III PCMCIA slot (or use as two Type II slots) - 3.3V/5V support
- Optional Docking Station (see overleaf)

Pre-installed Software:

- Microsoft® Windows™ for Workgroups 3.11 or Windows™ 95 (one-time selection)
- MS-DOS® 6.22
- Plug and Play BIOS
- HP PIM

Security:

- Kensington lock slot
- 2-level system password
- PC identification (tattooing)

Environmental design:

- EPA Energy Star™ certification
- Recyclable package printed with recyclable inks

Ergonomic design:

- Touch-type keyboard
- Built-in, large 25-mm centered trackball for ease of use
- Wrist rest

Ease of setup:

- Preloaded Windows for Workgroups 3.11 or Windows 95
- Automatic detection of PCMCIA devices
- Plug & Play-ready

Supportability:

- BIOS stored in flash EEPROM
- Industry-leading technical support program

Warranty:

- 3-year warranty on Premium models
- 1 year warranty on VL models

** only on Premium models.*

Docking Station (F1189A)**Replicated ports:**

- SVGA-out (up to 1024 x 768 x 256 colors)
- Port parallel EPP and ECP
- RS-232 port serial (UART 16550)
- PS/2 keyboard and mouse ports
- AC adapter port
- SCSI-2 port
- MIDI/joystick port
- Audio ports, including two stereo-in ports

Docking:

- Motorized VCR style
- Hot docking supported under docking-enabled operating systems such as Windows 95

Slots:

- Two full-length ISA slots
- One half size PCI slot

Monitor stand

- Supports up to 17"-monitor

Convenience:

- Full access to notebooks PCMCIA slots while docked
- 5° tilt feet
- Indicators: hard drive activity, floppy activity, password enable, docked, power
- Switches: power, undocked, reset
- Stand raises dock above an external keyboard, providing access to notebook

Security

- Secure motorized connection to HP OmniBook
- Kensington lock slot
- Optional user-defined password to undock

Power:

- AC adapter port provides power to the docking system
- Docking system comes bundled with 60-watt AC adapter that automatically charges internal battery

Optional Accessories

Memory upgrades:

- 8 MB, 70-ns memory module upgrade ([F1134A](#))
- 16 MB, 70-ns memory module upgrade ([F1135A](#))
- 32 MB, 70-ns memory module upgrade ([F1136A](#))

Data storage:

- 170 MB PCMCIA hard disk drive ([F1068A](#))
- 260 MB PCMCIA hard disk drive ([F1069A](#))
- 340 MB PCMCIA hard disk drive ([F1070A](#))
- 540 MB hard disk drive ([F1156A](#))
- 810 MB hard disk drive ([F1138A](#))
- 1.2 GB hard disk drive ([F1139A](#))
- 5 MB PCMCIA flash RAM disk ([F1012B](#))
- 10 MB PCMCIA flash RAM disk ([F1013B](#))
- 20 MB PCMCIA flash RAM disk ([F1014B](#))

External monitors:

- Super VGA 1024i 14-inch monitor (up to 1024 x 768) ([D2804A](#))*
- Ergo Super VGA 1024 14-inch monitor (up to 1024 x 768) ([D2805B](#))*
- Ergo Ultra VGA 15-inch monitor (up to 1024 x 768) ([D2806B](#))*
- Ergo Ultra VGA 1280 17-inch monitor (up to 1024 x 768 at 75-Hz) ([D2817A](#))*

Keyboard:

- HP keyboard (101-keys) ([C3756A](#))*

Mouse:

- HP mouse with mini-DIN interface ([C3751B](#))

Power:

- AC Adapter ([F1044B](#))
- Lithium ion Battery Pack ([F1137A](#))
- NiMH Battery Pack ([F1073A](#))
- External Battery Charger ([F1074A](#))
- Automobile Adapter ([F1064A](#))

Miscellaneous:

- 3.5 inch flexible disk drive module ([F1079A](#))

Warranty:

- One year limited warranty on accessories

* *must also order language option.*

HP 200LX Palmtop PC

[Configuration](#) [Features](#) [Software](#) [Accessories](#)

Information subject to change without notice

A powerful tool for modern living

Manage your world with the world's most powerful palmtop PC. The HP 200LX is designed for people who need to travel light, who are on the job when away from their office ... and who perform best when they stay in touch.

Put 300 grammes (11oz) of PC power in your pocket. Manage your personal finances with Pocket Quicken wherever you go, and access sales reports or client investment portfolios on the spot with Lotus® 1-2-3®.

Link up with your own PC software and desktop PC files. Track your calendar and assignments and access your electronic mail with the most productive and well-integrated system of organiser software available anywhere.

With the 200LX you can take it all with you ... easily.

Technical Data

Features:

HP [F1060A](#) (1-MB RAM)

HP [F1061A](#) (2-MB RAM)

Includes:

- User's Guide
- Quick Start Guide
- Two AA and one CR2032 batteries

Physical Specifications

- 16 x 8.64 x 2.54 cm (6.3 x 3.4 x 1 in)
- 312 g (11 oz) with batteries

Memory

- 3-MB ROM
- 1-MB RAM (HP [F1060A](#))
- 2-MB RAM (HP [F1061A](#))
- PCMCIA version 2.0 card slot
- Read and write to flash disk cards

Standard PC Architecture and Central Processing Unit (CPU)

- IBM PC architecture
- Intel 80C186 CPU 7.91 MHz

Display

- CGA-compatible FTN liquid crystal
- 80 columns by 25 rows; 640 x 200 pixels
- Zoom option

Keyboard Layout

- Familiar QWERTY layout
- Separate numeric keypad
- 10 function keys and 8 software application access keys

Input/Output

- Built-in 9-wire serial interface for connection to RS-232 devices
- Built-in infra-red transmitter/receiver up to 115K bps for HP 200LX to HP 200LX and other wireless communications.
- Built-in printer drivers supporting the following serial printer types: HP LaserJet, Epson FX-80, IBM ProPrinter
- PCMCIA version 2.0 plug-in card slot for running PC software and expanding I/O memory
- Optional HP F1021B DOS-based Connectivity Pack for 200LX to PC file transfer

Power

- Two 1.5-V AA batteries (rechargeable NiCd optional)
- One 3-V CR2032 coin cell backup battery
- Optional adapter: HP F1011A for powering and recharging
- Normal usage: 60 hours battery life

Operating Requirements

- Operating temperature: 0° to 40°C (32° to 104°F)
- Storage Temperature: 0° to 60°C (32° to 140°F)
- Humidity: 90% relative humidity at 40°C (104°F) maximum.

Software Built into ROM**MS-DOS® 5.0**

- Runs a wide variety of MS-DOS software (must be CGA screen-compatible and fit into available memory)

Pocket Quicken®

- Enter and edit transactions in checking, savings, credit card, and cash accounts
- Review account balances and registers
- Reconcile accounts
- Create and print financial reports
- Share data with desktop versions of Quicken

Lotus 1-2-3 Release 2.4

- Large worksheets: from 1 to 256 columns, 1 to 8,192 rows
- Graphics
- Database commands
- Macro creation and execution
- File linkage
- @ functions from @ABS to @YEAR

cc:Mail® and Data Communications

- cc:Mail Remote for the HP 200LX
- Transfer messages or files via modem
- VT-100, ANSI, and tty terminal emulation
- Kermit, ASCII text, and X, Y, Z MODEM file transfer
- File capture capability saves data from information services

Appointment Book

- Week-at-a-glance, month-at-a-glance, and six-month calendar
- Daily, weekly, monthly and yearly schedule with alarms, repeating appointments and events
- To-do list with automatic carryover of past-due items
- Archive feature for appointments and lists

Phone Book

- Search and sort on any field
- Create multiple or subset phone books
- Business card screen layout

Memo Editor with Outliner

- Text entry and editing including block cut/copy/paste, search and replace, bold, and underline
- ASCII file format

HP Financial Calculator

- General and technical math functions
- Time-value-of-money
- HP Solve equation-writing capability plus equation plotting
- Links to Lotus 1-2-3 including: backsolve to a desired result, store/recall numbers to a worksheet, send amortization schedule to a worksheet
- Currency and unit conversions
- Algebraic or RPN data entry.
- Cash flow analyses (IRR, NPV) and statistics functions, both with plotting capability

Notetaker

- Create, save and edit notes
- Database of notes
- Title, categorise and search capabilities

Database

- Create and modify database templates
- Add, delete, and edit records
- Search by field or text

World Time and Stopwatch

- Local and worldwide time, world map and custom city list
- Timer and stopwatch

Filer

- Create, rename, copy, view, and move files and directories
- RAM-disk backup
- Plug-in RAM card formatting
- DOS program execution
- Split-screen file transfer feature

Application Manager

- Manages all HP 200LX system applications whether built-in, plug-in, or RAM-based
- Application key assignment, application RAM use, status, current drive, and files

Setup Utility

- Display contrast, memory allocation, and beeper volume
- Printer and communications port configuration
- Battery status and NiCd recharging

Accessories from Hewlett Packard:

Memory: Flash disk cards

- HP [F1012B](#) 5-MB/12V
- HP [F1013B](#) 10-MB/12V
- HP [F1014B](#) 20-MB/12V

Connectors

- Connectivity Pack
 - HP [F1021B](#) - English
 - HP [F1021C](#) - Multilingual

HP OmniGo 100 Organiser Plus

[Configuration](#) [Features](#) [Specifications](#) [Accessories](#)

Information subject to change without notice

Now with the HP OmniGo 100, business professionals have the perfect handheld organiser to access immediately their schedules and personal information, as well as HP financial tools, anytime, anywhere. Thanks to the GEOSTM operating system, you can enter your data using either pen or keyboard *it is an intuitive tool*. The OmniGo 100 provides you with sophisticated financial features and all personal information management tools you need *it becomes your unique everyday business companion*.

An intuitive, professional, handheld organiser, featuring:

Personal information management

- Appointment book
- Phone book
- Notepad
- Database
- Worldtime

Financial analysis

- HP Calculator
- Finance tools (12C, TVM, Cash Flows, Business % solver, statistics, conversions, Date Calcs, etc)
- Spreadsheet

Pen input (in addition to the keyboard)

- Pen "navigation"
- "Digital Ink" across applications
- Graffiti handwriting character recognition
- Jotter ("Capture first, organise later")
- GEOS Pen-OS

Technical Specifications HP F1310A

Includes:

- Users Guide
- Two AA and one CR2032 backup batteries
- Accessory guide

Physical specifications

- 15,3 x 9,5 x 2,6 cm
- 360 g with batteries

Memory

- 1 MB SRDRAM, 3 MB ROM
- PCMCIA version 2.0 Type II Card Slot

CPU

- 80186 16 Mhz

Display

- 360 hinge, "rotatable" display, "portrait" and landscape modes
- 240 x 240 FSTN LCD

Data entry

- Familiar QWERTY keyboard layout
- 5 function keys

- Digitising overlay with pen

Input/Output

- 1 RS232C Serial interface
- PCMCIA version 2.0 Type II plug-in card slot for running PC software and expanding memory

Power

- Two 1.5 V AA batteries
- One 3 V CR2032 coin cell backup battery

Accessories from Hewlett-Packard**PC communication**

- HP [F1311A](#)* Connectivity Pack to PC file transfer and synchronisation

* English version: replace A with D for German, E for Spanish, F for French.

Clip & Go Software

- HP [F1312A](#)(English),

Calculators for Math, Science and Engineering

[Configuration](#) [Features](#) [Scientific Calculators](#) [Graphic Calculators](#) [Other Exclusive Features](#)

Information subject to change without notice

Hewlett-Packard Scientific and Graphic Calculators

The advantages of Hewlett-Packard products are almost incalculable.

Engineers, teachers, students and other people who depend on their calculators depend on Hewlett-Packard, the leader in calculator technology. Our complete line of scientific and graphic calculators exceeds the need for functionality and performance, and offer advantages that you won't find anywhere else. And of course you'll also find the quality and durability you've come to expect from Hewlett-Packard.

Choose from among the easiest to use and most powerful scientific and graphic calculators made:

- [HP 20S](#) Scientific Calculator
- [HP 32SII](#) RPN Programmable Scientific Calculator
- [HP 38G](#) Graphic Calculator
- [HP 48G](#) RPN Graphic Calculator
- [HP 48GX](#) RPN Expandable Graphic Calculator
- Take your pick; you'll be choosing the best.

HP 20S Scientific Calculator for science students and professionals

The scientific calculator with a built-in library.

This affordable calculator meets the high quality standards that our customers have come to expect. With exclusive features like the built-in program library, the HP 20S is the complete scientific calculator

Features:

- **Powerful, built-in program library with over 100 scientific and mathematical functions.** No need to input frequently-used functions such as root finder, Simpson's Rule integration, complex number operations, 3x3 matrix operations, quadratic formula and curve fitting programs.
- **Essential trig and math functions for scientific applications.** Use sine, cosine and tangent, or exponential, natural log and antilog functions to name a few.
- **Base conversions and arithmetic.** Includes English/metric conversions, and fast conversions for mass, distance, volume and temperature.
- **Easy-to-use algebraic entry system.** Enter data in algebraic notation, just as you would on paper.
- **Keystroke programming.**

HP 32S II RPN Programmable Scientific Calculator for engineers

The calculator that sets the engineering standard.

The HP 32SII is equipped with all the features that engineering professionals need. It has 384 bytes of memory for programs, equations and data. It allows you to enter, display and see results of calculations as fractions. And it does it all fast.

Features:

- **Over 100 built-in scientific and mathematical functions,** such as hyperbolics, trigonometrics, hours/degrees

conversions and more!

- **Powerful HP Solve saves time.** Solve for any variable without rewriting your equation.
- **Efficient data entry using RPN** (Reverse Polish Notation). Reduces the number of keystrokes.
- **Keystroke programming.**

HP 38G Graphic Calculator for high school math students

The only graphic calculator with ApLets !

The HP 38G is the first HP calculator with the power of a high-end graphic calculator made easy for high school math. View equations numerically, graphically or symbolically on its large graphic display. And, with ApLets, learning math has never been more easy and fun.

Features:

- **ApLets.** These small applications, packaged as electronic lessons, can be adapted from textbooks and other sources. Add variables, pictures and graphs, then interact and work in new ways at your own pace.
- **Dynamic Split Screen.** View math relationships in two displays on one screen for side-by-side comparison.
- **Interactive history of calculations.** To recall and reuse solutions previously created.
- **Notes and Sketches.** Use for easier illustration of problems.
- **Impact-resistant sliding hard cover.** The unique cover protects the display and keys. Just flip it over and slide into place!

HP 48G RPN Graphic Calculator for science and math students

Science and math power like never before.

Now the power of 3-D graphing, charts, and lists are in an RPN graphic calculator. The HP 48G helps you work through complicated equations quickly and easily. Use the pre-created forms to input your data fast. The HP 48G gives you the functionality of a high-powered graphic calculator in an easy-to-use system.

Features

- **32 KB of RAM and an equation library built in.** More than 300 commonly used formulas and scientific constants.
- **Object-oriented programming.** Create applications quickly and easily.
- **HP MatrixWriter application.** View, enter and manipulate arrays.
- **HP EquationWriter application.** View equations and formulas just as you would in a textbook or on paper.
- **HP Solve application.** Solve for any variable without re-writing your equation.
- **Infrared Communications.** Send files between HP 48G/GX calculators, and to the infrared printer (optional).
- **Connect to your Mac or PC** with an optional connectivity kit.

HP 48GX RPN Expandable Graphic Calculator for engineering students and professionals

The most powerful RPN graphic calculator available.

With the HP 48GX, you can take on the toughest equations from the classroom or lab and make sense of them. And since its memory and functions are expandable with plug-in cards, the possibilities are virtually endless.

Features:

- **Customizable with plug-in cards.** Expand the HP 48GXs memory from 128KB up to 1.256 MB, or select from a wealth of third-party applications
- **Built-in equation library.** More than 300 scientific and engineering equations.
- **Object-oriented programming.** Create applications quickly and easily.
- **HP MatrixWriter application.** View, enter and manipulate arrays.
- **HP EquationWriter application.** View equations and formulas just as you would in a textbook or on paper.
- **HP Solve application.** Solve for any variable without re-writing your equation.
- **Infrared Communications.** Send files between HP 48G/GX calculators, and to the infrared printer (optional).
- **Connect to your Mac or PC** with an optional connectivity kit.

Features common to all HP Scientific Calcs: HP 20S, HP32SII

Math Features

Standard mathematical operators +, -, *, /etc
yx, log (x), 10x, x2, %, pi, n!
Trigonometric functions and inverses
Numeric integration
Complex number functions

Scientific Features

Accurate mat, 12-digits with a 10+/-499 exponent range
Decimal hours/minutes seconds conversions
Polar/rectangular conversions
Angle conversions
Base conversions and arithmetic
Unit conversions

Statistical Features

Sample standard deviation, mean
Linear regression
Combinations, permutations
Weighted mean
One and two variable statistics

Real Number Functions

Probability functions (Combinations, Permutations and factorials)

Customization

Keystroke programming

Vector Operations

Matrix operations

Low End Scientific Calcs

Physical Features

	20s	32sII
Display Type	Segment	Alpha
Display Size	1-line* 12 chars	1-line * 12 chars

Operating Features

Level of subroutines	4	7
Flags	No	12
Built in programs	6	1
HP Solve	1	Yes

Features common to all HP Graphic Calculators: HP 38G, HP48G and HP48GX**Numeric Precision**

- Internal Digits -15
- Displayed digits-real numbers - 12
- Displayed digits-complex numbers - 12
- Mantissa - ± 499

Algebra

- Quadratic root finder
- Taylor polynomials
- Isolate a variable in question
- Equation evaluation
- Any variable equation solver
- Symbolic evaluation of expressions (EVAL on 38G)
- Fraction Calculations
- Simultaneous equations (linear)

Calculus

- Symbolic integration
- Numeric integration
- Symbolic differentiation
- Numeric differentiation

Complex Numbers

- Add, subtract, multiply, divide
- Square, square root, inverse
- Absolute value, round, sign
- Sine, cosine, tangent
- Arcsine, Arccosine, Arctangent
- Hyperbolic sine, Hyperbolic cosine, Hyperbolic tangent
- Arc hyperbolic sine, Arc hyperbolic cosine, Arc hyperbolic tangent
- 10x LOG, ex, LN
- Imaginary, real parts

Constants & Equations

- User defined constants - By variables

Input-Output - Wired & IR

- Calculator to Calculator
- Calculator to IBM
- Calculator to Macintosh
- Transfer data
- Infrared interface

Matrices & vectors

- Matrix editor
- Insert & delete columns & rows
- Max. real matrix size - Limited by memory
- Max. complex matrix size - Limited by memory
- Redimension existing matrix

Memory Management

- Clear all variables
- List variables
- Clear one variable

Plotting and Graphics

- 2-D Plot types: Function, Polar, Parametric
- Autoscale plot
- Zoom box
- Scaled zoom
- Set axis intersection
- Specify x- & y-axis display range
- Set spacing between plotted points
- Set axis tick spacing
- Adjust center of plot
- Trace a plot
- Display cursor coordinates
- Set connected or disconnected mode
- Set simultaneous or sequential plot mode
- Store & recall plot image
- Find: - Intersections, Extremums, Roots
 - Value of the derivative of a point (slope),
 - Area under a curve, value of a function
- Shade below or above line
- Plot labellingLabel axes
- Turn axes on & off
- Graphs-rectangular co-ordinates

Sketch

- Draw line
- Draw circle
- Draw box
- Draw axes
- Turn pixels on & off

Printing

- Print one line
- Print display (wired only)
- Print variable

Program Branching

- Do loop
- For-next loop
- If-then statement
- If-then-else statement

Repeat-until loop
While loop

Program Control

Error trapping
Clear display
Display message and prompt for user input
Clear display
Display message and wait for input

Real Numbers functions

Other Exclusive Calculator Features

Infrared: a brighter way to communicate between calculators.

Our HP 38G, HP 48G series calculators let you transfer data and problems. Just point a calculator at another, about two inches away, and beam the data across. No wires or cables necessary!

Helpful menus.

You can access the functions in our scientific and graphic calculators through menus, so theres no more keystroke memorization.

The calculator-computer connections.

Print out graphs, charts, programs, notes, equations, lists and more with the battery-operated HP Infrared Printer (sold separately.) It weighs only 16 ounces, and no cables or wires are required! Connect your HP 38G or 48G series calculator to your Macintosh or PC with an optional connectivity kits (sold separately).

If youre thinking of buying a calculator, think seriously about Hewlett-Packard, the leader in calculator technology. Think about reliable calculators that wont let you down. Think about support that is always there for you. Think about advanced features that allow you to work the way you do now. Think HP.

HP quality and support.

Hewlett-Packard is the leader in calculator technology. To prove it, we offer a limited warranty and technical support, just a phone call away.

HP PC Video Solutions

[Features](#) [Compatibility Matrix](#) [Positioning](#) [Range](#) [Glossary](#)

Information subject to change without notice

Expand your range of vision

With today's demanding graphics applications - and today's concerns for ergonomics - selecting PC video products is just as important as selecting your PC. From simple windows applications to graphics-intensive environments such as CAD and desktop publishing, Hewlett-Packard can help you complete your computing solution with a wide range of video monitors. All at competitive prices, because high-quality video is not a luxury - it's a necessity.

See the difference

Together, HP PCs and monitors create high-quality solutions that enhance your work with fast video processing, the ability to fit more information on the screen, crystal-clear displays, and colours that make reading a pleasure.

Plus HP helps create a more comfortable computing environment by alleviating eyestrain with stable images, and offering tilt and swivel bases for optimised viewing comfort.

Display products designed with user comfort in mind

HP offers a choice of ergonomic displays which comply with the latest MPRII guidelines from the Swedish National Board for Measurement and Testing for upper limits of electrical and electrostatic emissions. In addition, our new displays have been designed to meet ISO 9241-3 standards.

Whats more, the latest HP displays meet the VESA Display Plug and Play standard, making configuration and asset management a breeze.

Energy-efficient displays to reduce power consumption

All our displays conform to the U.S. Environment Protection Agency's Energy Star programme, ie their power consumption can be reduced to less than 30 watts when used with an HP Vectra PC equipped with a Display Power Management system. This power-saving mode is achieved simply by pressing the keyboard lock button on the PC or by defining the automatic display power-saving mode in the PC's setup menu. Savings can be as important as 90%!

Three-year warranty

One of the most important qualities of all HP video solutions isn't written in the specifications. It's HP quality and reliability - and it's built into every product we make, so you can depend on every part of an HP computing solution.

We've learned that there's no such thing as random failure. So we subject all our video products

to unrealistically extreme test conditions in order to identify and systematically eliminate the cause of any failure.

As a result, HP displays carry the same warranty conditions as HP PC systems, as long as they are both purchased at the same time. In most cases this means that your HP display comes with a **full three-year warranty!**

The HP range of standard monitors

From industry-standard 14-inch monochrome VGA to 15-inch Ergonomic Super VGA, there is a display in HP's range of standard monitors to meet your needs.

Entry-level displays for cost-conscious users

The HP Monochrome VGA display offers industry-standard VGA resolution on an easy-to-read, page-white screen. It is ideal for applications for which colour is not required, and is an excellent choice for most server applications.

The HP Super VGA 1024i display is the HP monitor to start with for Windows environments, with Ergonomic VGA resolution and the possibility to display Super VGA at 60 Hz refresh rate.

Monitors that offer that bit more

HP's 1024 Low-Emissions 14-inch and 15-inch displays have been designed to help you work better: reduced eyestrain through stable Ergonomic Super VGA resolution, reduced electrical and electrostatic emissions due to MPRII compliance, and reduced power consumption with up to 90% savings.

And these monitors feature Display Plug and Play, which means they can be easily configured and managed directly from your PC.

The state-of-the-art multimedia monitor

The newly-introduced HP 1024 Low-Emissions Multimedia Display (D2809A) is the ultimate monitor for multimedia applications. This 15-inch display (13.8-inch viewable) offers VGA and SVGA resolutions in ergonomic refresh rates, as well as Ultra VGA non-interlaced mode (60 Hz refresh rate).

It comes standard with an audio input/output capability integrated in the tilt and swivel base. The frontal location of the microphone and 2 x 3-Watt loudspeakers guarantees optimal sound input and restitution.

A full range of advanced displays

All monitors in HP's advanced line have features to meet the needs of the most demanding users.

Ergonomics at the highest level

From 14-inch to 21-inch, all our advanced displays support a wide range of resolutions in high ergonomic refresh rates, thus ensuring the most stable image for intensive work environments.

A second important feature in such environments, MPRII compliance on all products ensures that electrical and electrostatic emissions are kept to a very low level.

Easy to use, easy to configure

All displays are microprocessor- controlled to allow precise image positioning and geometric correction, and all support full scan to make use of the entire viewable area. The Ultra VGA 1280 17-inch and Ultra VGA 1600 21-inch displays also come with on-screen menus for greater ease of use.

Minimised power consumption

The power consumption of all HP's advanced monitors can be reduced to less than 8 Watts when used with an HP Vectra PC equipped with display power management system, leading to savings of up to 95%.

The solution for high-end graphic display needs

With a 0.25mm super-fine dot pitch tube, the HP Ultra VGA 1600 Display is the new state-of-the-art display solution for high-end graphics users who require a maximum of information on their screen.

Its high-resolution set (up to Ultra VGA 2 - 1600 x 1200) makes it the perfect match for graphics- intensive applications such as desktop publishing, engineering and design (CAD, CAE), and image- processing applications.

It is the ideal match for Hewlett-Packard's high-end Vectra PCs

D2803A, D2815A, D2808A, D2809A, D2805B, D2806B, D2817A and D2800A are in the new HP colours.

Glossary

DDC Display Plug and Play

A VESA-defined communication standard (Display Data Channel) that enables suitably equipped PCs to receive information from the display. This covers the monitor type, manufacturer and serial number, as well as the supported resolutions and refresh rates. Connected to a DDC-compliant PC, the monitor will automatically identify itself and will be configured to the appropriate ergonomic resolution.

Dot Pitch

In colour displays, the distance between adjoining phosphor triads (red, green and blue phosphor dots arranged in a triangle). The distance is generally expressed in millimetres (mm). The smaller the distance, the sharper the image appears.

Interlaced scanning

A method in which all the odd scan lines of an image are drawn first, followed by all the even scan lines. This technique effectively reduces the image flicker on broadcast television images, but is much less effective in the precisely-ruled images in computer displays. For instance, in 1024 x 768 interlaced resolution, 87 Hz is the line refresh rate, but 43.5 Hz is the actual frame refresh rate, to be compared to standard 60 Hz and ergonomic 72/75 Hz.

MPRII

A standard initiated by the Swedish government. The first criterion is related to ergonomics and is now covered by the European ISO 9241-3 standard. The second is related to emissions.

Refresh rate

Video display images are not generated continuously, but are rather redrawn between 50 and 100 times per second (Hz) in a process called screen refresh. A higher refresh rate means a more stable image. Rates greater than 72 Hz are said to be ergonomic refresh rates.

Information subject to change without notice

HP AdvanceStack Hubs & Accessories

HP J2410A AdvanceStack 100VG Hub-15

15 100Mbit/s RJ-45 ports, 1 up-link port, 1 transceiver slot, 1 RS-232 console port, and in/out distributed management port; High-speed, 10Base-T compatible, stackable hub.

HP J2414A AdvanceStack 100VG SNMP/Bridge Module

When installed in an expansion slot of 100VG Hub-15, adds SNMP network management, and bridging to 10Mbit/s Ethernet networks; Only one module required for SNMP management of 16 AdvanceStack hubs.

HP J2610A HP AdvanceStack 10Base-T Hub-8U

8 RJ-45 ports, slots for optional management J2612B and transceiver modules; upgradable, easy-to-use;

HP J2611A HP AdvanceStack 10Base-T Hub-16U

16 RJ-45 ports, slots for optional management J2612B and transceiver modules;

HP J2600A HP AdvanceStack 10Base-T Hub-12

12 RJ-45 ports and 1 BNC, 1 transceiver slot, 1 RS-232 console port, and in/out distributed management port;

HP J2601B HP AdvanceStack 10Base-T Hub-24

24 ports via 2 Telco connectors, 1 BNC, 2 Telco/RJ-45 adapters and 1 AUI Port Module; Ideal for medium- sized workgroup LANs. Can be connected to redundant power supply (RPS) for maximum uptime.

HP J2602B HP AdvanceStack 10Base-T Hub-48

48 ports via 4 Telco connectors, 1 BNC, 4 Telco/RJ-45 adapters and 1 AUI Port Module; Ideal for medium and large-sized workgroup LANs. Can be connected to redundant power supply (RPS) for maximum uptime.

HP J2962A Redundant Power Supply (RPS)

Allows connection of up to 4 x HP AdvanceStack 24- or 48- ports hubs and provide constant power for maximum uptime.

HP J2603B HP AdvanceStack 10Base-T SNMP Module

When installed in an expansion slot of an AdvanceStack Hub, adds SNMP network management and security; Only one module required for SNMP management of 16 hubs or 784 users.

HP J2606A Fiber-Optic Transceiver Module When installed in transceiver slot of an AdvanceStack Hub, adds a fiber-optic port (ST connectors)

HP J2607A Twisted Pair Transceiver Module When installed in transceiver slot of an AdvanceStack Hub, adds an RJ-45 port

HP J2608A ThinLAN Transceiver Module When installed in transceiver slot of an AdvanceStack Hub, adds a BNC port

HP J2609A AUI Port Module

When installed in transceiver slot of an AdvanceStack Hub, adds an AUI port (included with J2601A and J2602A hubs)

HP J2612B HP AdvanceStack Distributed Management Module

When installed in the distributed management slot of an AdvanceStack Hub-8U, adds management

HP J2630A HP AdvanceStack Hub-12 bundle

(J2600A) with 10Base-T SNMP Module (J2603B)

HP J2631B HP AdvanceStack Hub-24 bundle

(J2601B) with 10Base-T SNMP Module (J2603B)

HP J2632B HP AdvanceStack Hub-48 bundle

(J2602B) with 10Base-T SNMP Module (J2603B).

HP EtherTwist Hubs & Accessories

HP 28688B EtherTwist Hub Plus

Managed, 1 Telco connector (12 TP ports), 1 BNC, 1 AUI port, 1 RS232, 1 RJ-45 modular adapter (28638A); Standard hub for small workgroup LANs

HP 28692A ThinLAN Hub Plus

Managed, 9 BNC, 1 AUI port; Multiport hub for thin coaxial LANs or backbones

HP 28682A Fiber-Optic Hub Plus

Managed, 8 FO, 1 BNC, 1 AUI port; Multiport hub for fiber-optic backbone application (9 FO ports using FO transceiver 28683A)

HP 28685B EtherTwist Transceiver

1 AUI port, 1 TP port; Compact device for adapting an AUI port to twisted-pair cable

HP 28641B ThinLAN Transceiver

1 AUI port, 1 BNC port; Compact device for adapting an AUI port to thin coaxial cable

HP 28683A Fiber-Optic Transceiver

1 AUI port, 1 FO port (Tx and Rx); Compact device for adapting an AUI port to fiber-optic cable (ST connectors)

HP LAN Adapters

HP J2573A 10/100VG Selectable ISA Adapter

HP J3005A 10/100VG Selectable ISA Adapter, 6-pack

HP J3006A 10/100VG Selectable ISA Adapter, 24-pack

HP J2577A 10/100VG Selectable EISA Adapter

HP J3007A 10/100VG Selectable EISA Adapter, 6-pack

HP J3008A 10/100VG Selectable EISA Adapter, 24-pack

HP J2585A 10/100VG Selectable PCI Adapter

HP J3009A 10/100VG Selectable PCI Adapter, 6-pack

HP J3010A 10/100VG Selectable PCI Adapter, 24-pack

High-performance adapters for use with AdvanceStack 100VG Hub-15; 2 RJ-45 connectors, 10Mbit/s or 100Mbit/s (16NORC) operation

HP J2405A PC LAN Adapter NC/16 TP

16-bit ISA client card, 1 TP port; Pipelined bus-master DMA for market-leading performance

HP J2406A PC LAN Adapter NC/16 TP 6-pack

HP J2407A PC LAN Adapter NC/16 TP 24-pack

HP 27247B PC LAN Adapter/ 16 TP Plus

16-bit ISA, 1 TP port, 1 AUI port; High-performance adapter for ISA 386 and 486 servers and clients

HP 27269B PC LAN Adapter/ 16 TP Plus 6-Pack
HP J2427B PC LAN Adapter/ 16 TP Plus 24-Pack

6-pack contents: 6 adapters, 1 manual, 1 drivers disk
24-pack contents: 4 x 6 packs: 24 adapters, 4 manuals, 4 drivers disks

HP 27252A PC LAN Adapter/ 16 TL Plus
16-bit ISA, 1 BNC port, 1 AUI port For use with thin coaxial LAN cable

Network boot ROM available as follows:

ForAdapter	Novell Netware
Card	boot ROM
HP27252A	HP27260A

Note: Drivers are compatible with all major Network Operating Systems.

HP AdvanceStack Routers and Accessories

HP J2624A AdvanceStack Dial-A-LAN 4A Module Easy to use, remote dial-up access Ethernet server providing network services to mobile and remote clients.

HP J2634A AdvanceStack Dial-A-LAN 4A and SNMP Module (HP J2603B) bundle Same as J2624A, but adds SNMP capability to Dial-A-LAN module.

HP J2430A AdvanceStack Router 650 4 available slots for interfaces, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Chassis-based router for the most demanding central site requirements

HP J2434A 4-port WAN Interface for Router 650 Sync. connections for V.35, RS-232, X.21, RS-449/422 at speeds of 9.6 Kbps to 2.048 Mbps

HP J2435A 4-port Ethernet/IEEE 802.3 Interface for Router 650 Comes standard with 4 integrated ThinLAN transceiver modules, can accept 10Base-T, Fiber or AUI transceiver modules

HP J2436A 1-port FDDI Interface for Router 650 Provides 100 Mbit/s support. Supports Class A Dual Attachment Stations (DAS), Class B Single Attachment Stations (SAS), and dual homing.

HP J2437A 4-port Token Ring Interface for Router 650
Provides 4 and/or 16 Mbps support via 9-pin connector

HP J2438A Single-port 100VG Interface for Router 650
Connects the Router 650 to a 100VG switch or hub as a slave, via a standard RJ-45 connector. Provides 100 Mbits/s routing between 100VG and Ethernet, Token Ring or FDDI.

HP J2443A 8MB Memory Upgrade for Router 650
Increases base system memory to 16MB

HP J2446A Redundant Power Supply for Router 650
Ensures maximum uptime

HP J2540B (formerly Router PR) AdvanceStack Router 230
1 AUI or BNC, 1 WAN port, supports TCP/IP (RIP) and Novell IPX, spanning tree protocol bridging; Single WAN providing Ethernet remote field site to central site point-to-point connection

HP J2543A (formerly Router TFR) AdvanceStack Router 245

1 TR, 1 WAN port, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Single WAN providing Token Ring remote field site to central site connection

HP J2628A AdvanceStack Router 210

Router module for AdvanceStack 10Base-T Hub-12, Hub-24, or Hub-48 ; adds router 240 capabilities when installed in expansion slot

HP 27289B (formerly Router FR) AdvanceStack Router 240

1 AUI or BNC, 1 WAN port, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Single WAN providing Ethernet remote field site to central site connection

HP 27288A (formerly Router SR) AdvanceStack Router 430

1 AUI or BNC, 3 WAN ports, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Multiport WAN providing Ethernet central site to field site connections

HP 27285A (formerly Router ER) AdvanceStack Router 440

2 AUI, 2 WAN ports, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Router for Ethernet networks supporting primary and secondary WAN links

HP 27286A (formerly Router TR) AdvanceStack Router 445

1 AUI, 1 TR, 2 WAN ports, supports a variety of network and WAN protocols,* spanning tree protocol bridging; Router for mixed Ethernet/Token Ring networks supporting primary and secondary WAN links

*Note: WAN cables for all HP routers are included at no additional charge. One option must be ordered with each HP router * TCP/IP (RIP/OSPF), DECnet IV, Xerox XNS, Novell IPX and AppleTalk II, plus X.25, Frame Relay and SMDS.*

***TCP/IP (RIP/OSPF), DECnet IV, Xerox XNS, Novell IPX and AppleTalk II.*

Part	Product #
V.35 WAN Cable	J2950A
RS-232 WAN Cable	J2951A
X.21 WAN Cable	J2952A
RS-442 WAN Cable	J2953A

HP Bridges and Switches

HP 28681A 10:10 LAN Bridge LB

Unmanaged, 1 AUI or BNC port, 1 AUI-only port; Low-cost local bridge for uncomplicated networks of medium size

HP 28673A 10:10 LAN Bridge MB

Managed, STP, 1 AUI or BNC port, 1 AUI-only port; High-performance, local, spanning tree bridge for large fault-tolerant networks

HP 28674B Remote Bridge RB

Managed, STP, 1 AUI or BNC port, 1 WAN port, includes WAN cable; High-performance, spanning tree bridge for multisite networks

HP J2980A 10/100 LAN Switch-16

16 x 10Base-T/AUI ports (port #1 auto-selectable), 15 x RJ-45 ports. High-speed switching device. provides FDDI and 100 VG connectivity to LAN servers and hosts.

HP Network Management

HP 27256G Interconnect Manager/OpenView Windows Bundle

SNMP applications for HP hubs and bridges, as well as multivendor SNMP devices. HP 27256G includes HP Openview 7.2 Workgroup Node Manager.

Option OCZ: deletes HP OpenView 7.2 Workgroup Node Mgr for customers who already have the platform.

HP J2567G Interconnect Manager/OpenView Windows Windows

Standalone SNMP management application for HP AdvanceStack 100VG & 10Base-T hubs, bridges & switches. HP J2567G does not include HP OpenView 7.2 Workgroup Node Manager.

HP J2564A Router Manager for OpenView Windows

SNMP manager applications for HP routers, requires HP OpenView 7.2.

HP 27361G OpenView Interconnect & Router/UX

SNMP manager applications for HP routers, hubs and bridges, as well as, multivendor SNMP devices ; includes HP Openview Network Node Manager 3.3.

HP J2347B OpenView History Analyzer/UX

Multivendor capacity planning based on historic network utilization

HP J2348B OpenView Traffic Expert/UX

Visualizes network traffic and recommends actions to optimize network performances

HP J2535A Traffic Probe

Standalone sampling device to provide network traffic management benefits to networks without HP hubs, bridges or routers

HP J2561A OpenView Traffic Monitor/Windows

Multivendor, multi-protocol traffic analysis with automatic guidance to problem sources

HP J2562A Openview Traffic Monitor/UX

Multivendor, multi-protocol traffic analysis with automatic guidance to problem sources

Upgrades from earlier Network Management Software: HP J2568G Interconnect Manager/OpenView Windows Revision Upgrade:

Customers upgrading from any of the qualifying products listed below can purchase this product. It provides the same functionality as the HP 27256G. The HP J2568G software must be installed over a qualifying product and will verify that a qualifying product is already installed.

Qualifying products:

HP OpenView Interconnect Manager/Windows: 27256G, 27256E HP OpenView Workgroup Manager/Windows: 28286E

Customers with other Interconnect, Workgroup, Hub, or Bridge Manager products should purchase the HP 27256G product.

Product Warranties

HP offers market-leading warranties on the following products:

- LAN adapters, transceivers, and AdvanceStack Hub-8U and AdvanceStack accessories: lifetime+
- AdvanceStack Hub-15, Hub-12, Hub-24 and Hub-48 : lifetime*
- Bridges, Switches and Routers: three-year, on-site
- Router 210 : Five-Year, on-site
- Network Management: 90 days
- Traffic Probe: one-year

* *Five-year on-site service; after five years, the warranty is extended by registered owners to lifetime (return-to-HP), covering product, except for power supply and fan.*

+ *Five-year return-to-HP or reseller service; after five years, the warranty is extended by registered owners to lifetime (return-to-HP).*

Configuration Tips

Twisted-pair connectors

HP Hubs have Telco connectors directly, or 4-pair cables (RJ-45 connectors) via modular adapter (HP 28638A). Use one adapter for each 12-port connector. (1 adapter comes with each 12-port EtherTwist or AdvanceStack hub, 2 with each 24-port hub, and 4 with each 48-port hub.)

Cables

The following cable can be ordered from HP Support Materials Europe.

Router-to-Router Test Cable (5061-2556) 62 DB-62 DB, RS-422/449. This cable is used for connecting two HP routers via their WAN ports for testing. The cable is 5 meters long and terminated with 62-pin DB connectors, and simulates an RS-449/422 link.

One wide-area network interface cable per wide-area port is included with each HP Router or HP Remote Bridge purchase:

Part	Product #
V.35 WAN Cable	<u>J2950A</u>
RS-232 WAN Cable	<u>J2951A</u>
X.21 WAN Cable	<u>J2952A</u>
RS-442 WAN Cable	<u>J2953A</u>

Training

AdvanceStack sales and technical training

Basic Training

Consist of 1 or 2 days, depending on the country, and is given in the local language. Contact your country CPO Networking Program Manager to register.

Topics include:

- Introduction to the AdvanceStack family
- LAN workgroup
- LAN topology
- Network Management

Advanced Training

Provides a review of the AdvanceStack product family, introduces any new products on the way, and furnishes specific technical information concerning the high-tech routers and their role with network management.

Topics include:

- Day 1: Advanced workgroup and site
 - Day 2, 3, and 4: Advanced multisite routers
 - Day 5: Advanced network management
- Advanced training consist of 1 week at the European Training Center in Isle d'Abeau, France. The course is in English. Your local Program manager has more course details and the exact course dates.
- 1 week on Network Management
- UNIX (ICM/RM/HA/Traffic Expert). For dates/agenda please ask your local network program manager.

Self-paced training kits

- HP Managed Workgroup (NP111E)
- HP LAN/WAN Routing (NP211E)
- 100VG-AnyLAN networks (NP411E)

**Cost of training is reimbursed, in most instances, through HP Advantage Program*

HP NetServer Rack Solutions

[Configuration](#) [Specifications](#) [Accessories](#) [Positioning](#)

Information subject to change without notice

Designed to Protect Your HP NetServer Investment

Now you can consolidate your Hewlett-Packard NetServer towers and other desktop HP network components in an attractive, professional-looking cabinet *and* conserve valuable floor space - with HP's new rack system.

HP's 20 years of racked systems design experience results in an approach that allows more *flexibility* - you can use the same HP NetServer in either a standalone or rack-mounted configuration, depending on your needs. Our rack systems also *protect your investment* by letting you rack mount your *existing* HP NetServers. Simply remove your HP NetServers feet and install it in the rack using our hardware kit - there's no need to purchase a more expensive server designed only for rack mounting. Our racks also can accommodate your existing HP monitors and uninterruptible power supplies. We even provide standard shelves for mounting odd-shaped devices.

Economical, Easy to Configure, Fully Equipped

HP racks save you time and money in a number of ways: they come pre-assembled, are competitively priced, and have many standard features. Our basic, two-meter rack cabinets come with easy-to-remove side panels; a locking rear door; a vented top with concealed lifting hooks; three-inch, heavy-duty, smooth-rolling casters; sturdy screw levelers; and retractable, anti-tip feet. And because they're made of heavy-gauge metal and built to HP's high quality standards, they can easily be moved without damaging their contents - even when fully loaded.

We've designed our rack system with enough flexibility, options, and accessories to enable you to tailor a solution for your particular system configuration. Our two-meter rack cabinet - which can hold up to three HP NetServer LM or LF units - provides a generous 41 Electronic Industry Association (EIA) units⁽¹⁾ of vertical space for system components, an additional ten centimeters of internal space at the rear of the cabinet for power distribution units, and space for cable routing out the bottom of the rack.

A variety of optional components and accessories that work together and fit neatly into our racks are available from authorized HP resellers. These include:

- Four- and eight-port switch-boxes, which let you use one master console with a single monitor, mouse, and keyboard to control four or eight servers - saving you time and space (you can even "piggyback" switchboxes to control up to 64 servers from one location)
- HP 1000 VA and 2100 VA UPSs and UPS rack-mounting kits
- A variety of HP power distribution units (PDUs)
- HP Keyboard/mouse unit⁽²⁾ and retractable keyboard tray
- HP 200-cfm (342-cmh) cooling fan units
- Plexiglas front door with lock
- Filler panels for a neat, finished appearance
- Light-duty, fixed-support shelf to hold components of odd shapes and sizes

(1) Internal vertical space is measured in EIA units (one EIA unit equals 1.75 inches [44.5 mm]). Each HP NetServer and accessory occupies a specific number of EIAs, as shown under Optional Accessories. To determine total vertical space requirements, add up the EIA units for each piece of equipment.

(2) Cannot be used with Plexiglas front door.

Multi-Bay Configurations

If you want to combine cabinets to create a multi-bay configuration, you can order one of our standalone rack cabinets, remove the side panels from the rack, and order the additional bare racks, tie-together kits, and cabinet rear doors you need to complete your configuration. This flexibility lets you mix and match our rack products and reduces your costs - since you don't pay for parts you won't use.

We make it easy to assemble multi-cabinet solutions and install system components. But if you need assistance, one of our authorized rack resellers would be happy to help.

Specifications

Material

Frame/columns: 13 Ga. cold-rolled steel
Side panels: 18 Ga. cold-rolled steel

Finish

Frame: HP corporate black
Sides, top, and trim strips: HP parchment white (spray paint part number 6010-1148)

	<u>E4469A</u>	N/A	Two-meter Rack Tie-together Kit

(1) Accessories with N/A for EIA requirement do not use vertical cabinet space.

(2) Available April 1995.

(3) Maximum of two Power Distribution Units (PDUs) per rack. One PDU Installation kit (E4472A) required per rack with PDUs. 8120-1860 Power Cable required for each server plugged into E4457A PDU. E4457A PDU: Maximum current 16 amp; receptacle type (10) IEC-320; no plug.

(4) Front door requires E4471A Fan for proper cooling. A PDU is required to connect the fans IEC-320 power plug.

HP PowerWise 1000 and 2100 VA UPS

Configuration guide for: [Benefits](#) [Specifications](#) [Protection-Product](#) [Positioning](#)

HP PowerWise UPS

Information subject to change without notice

The Intelligent UPS Designed Specifically for Networks

- High reliability and performance
- Integrated network connectivity and management
- Flexibility to meet evolving needs
- Unsurpassed HP service and support

Superior Power Protection for Your Mission-Critical Network

Distributed, networked systems are rapidly replacing large, centralised computing systems for mission-critical applications. But networked systems are inherently more vulnerable than centralised systems to power quality problems that can cause data loss, equipment failure, and system hangups. To limit the impact of these failures, it's critical to protect your nodes, servers, and applications against power fluctuations or loss of power with the most reliable, easy-to-manage, and flexible power protection products on the market Hewlett-Packard's intelligent, on-line Uninterruptible Power Supplies (UPS), Power Management Software, and SNMP Interface.

HP's power protection products are specifically designed to handle complex network power problems. In the event of a total power loss, these integrated power protection products work together to keep your system running and provide a safe, orderly, unattended network shutdown.

How to Select the Right UPS to Optimise Your Network Runtime

MIS managers have widely varying requirements for network runtime that is, the amount of time a system must keep running for an orderly shutdown after a loss of facility power. With a bigger system and longer runtime requirements, you'll need a higher-capacity UPS and more batteries. That's why we built our intelligent, on-line HP 1000 VA UPS and HP 2100 VA UPS with expandable battery capacity. Each comes with a standard battery pack and can easily be expanded to match your runtime requirements by plugging in up to five additional packs. To make sure you pick the right UPS and number of battery packs:

1. List the equipment typically computers, monitors, external disk drives, hubs, routers, and bridges you need to protect.
2. Multiply the maximum name-plate voltage and amperage for each piece of equipment to obtain VA. If the equipment is specified only in watts, divide the watts by 0.7 to obtain VA before matching it to the table.
3. Add the individual VA requirements to obtain the total system VA requirement.
4. Find the first row that meets or exceeds the total system VA under the Maximum Load (VA) column on the table below.
5. Move across to the first column that indicates an acceptable runtime in minutes. Then move up the table to find the appropriate HP UPS model and number of additional battery packs required. In certain cases, either HP UPS will work if you use the appropriate number of battery packs.

Note: This procedure will work with most computer equipment; however, there is a trend toward power-factor-

corrected equipment. If your equipment is power-factor-corrected, the nameplate will indicate the power factor. If the power factor is not 0.7, you will have to adjust your total VA result before matching it to the table. Multiply your total VA by the specified power factor and then divide by 0.7 before matching your VA to the table.

HP UPS Run Times

Number of Battery Packs MAXIMUM LOAD (VA)	HP 1000 VA UPS						HP 2100 VA UPS					
	STD	1	2	3	4	5	STD	1	2	3	4	5
50	363	842	1377	1953	2562	3196

1200							16	38	62	88	115	143
1700							11	27	44	62	81	101
2100							9	20	33	47	62	77

HP UPS runtime in minutes with a typical 0.7 power factor load.

Why HPs no-compromise UPS technology offers superior protection:

Because its the most reliable technology available today.

On-line UPS precludes network component crashes during UPS switchover and UPS-induced surges. Since the HP UPS continuously provides regulated power, there are *no* power transfer periods or current surges when line power fails. Your network has maximum power protection reliability with HPs on-line technology.

Because it provides the ultimate in line conditioning

With HPs UPS, your network components continuously receive the highest-quality, conditioned, surge-protected, and regulated sine-wave power. Your server, bridge, and hub are never overstressed or subjected to pass-through disturbances.

Because additional reliability features are built in.

The condition of key components in the HP UPS is continuously monitored. So if service is needed, you're automatically notified. But even in the unlikely event of a sudden, internal power component failure, the HP UPS will keep your system running without interruption. That's because its automatic bypass provides an alternate power path if a power component fails.

With this level of consistent, reliable, high-quality power, your network components will perform at their best, and your system data integrity will be assured during power failures.

Designed for Network Reliability

Benefits

Reliable power protection to keep your network up and running

Complete network interface, control, and communication

Easy integration into your network environment

Full HP UPS and system power management from your server or desktop

Flexible and upgradeable to keep pace with new technology

Low-maintenance, self-diagnosing HP UPS protects your network

Features

True, on-line UPS technology continuously conditions and corrects power fluctuations and disturbances
 Proactive monitoring and alert for UPS and power problems
 Continuous monitoring of critical UPS components and automatic bypass upon fault
 HP Battery Advisor uses a sophisticated algorithm to constantly monitor batteries and predict wearout
 Hot-swap battery packs without system interruption
 Optional, integrated HP UPS SNMP Ethernet interface for network connectivity
 Continuous communication between SNMP and UPS, even with UPS shutdown
 Direct UPS-to-server serial connection, in addition to network connection
 HP UPS management utility for seamless integration with HP NetServer Assistant
 Easy-to-install HP UPS Power Management Software that is compatible with all major NOS platforms, including:

Novell® NetWare®	SCO™ UNIX®
IBM® OS/2® LAN Server	UnixWare®
Windows NT™ and NT Advanced Server	Sun® Solaris®
HP-UX	IBM AIX™

HP UPS Power Management Software constantly monitors network power and provides automatic, orderly, unattended server shutdown
 Scheduled network power down and restart optimise network operation and conserve power
 Real-time graphical view of power quality, load usage, and battery charge
 Full event and power-quality logging and historical data display
 Customisable user messages
 Flash ROM on HP UPS SNMP card and standard I/O slot permit easy adaptation to changing communication standards
 Add on batteries as your network grows to extend runtime during power loss
 Optional rack-mounting shelf
 Built-in self-diagnostics notify you when service is needed
 Remote diagnosis from anywhere on the network
 Two-year unit Exchange warranty
 Unparalleled HP service and support

HP PowerWise UPS

L600 and L900 Uninterruptible Power Supply

Configuration guide for: [Parameter](#) [Ordering Information](#) [Positioning](#)

HP PowerWise UPS

Information subject to change without notice

Reliable and manageable power protection for networks

The HP PowerWise L600 and HP PowerWise L900 Uninterruptible Power Supplies offer reliable and manageable power protection for workgroup and entry-level PC servers. Network availability and reliability are absolute necessities for any network, whatever its size. HP is committed to providing cost-effective, fully-integrated network solutions to its customers. This HP PowerWise L Series brings intelligent power management within the reach of all network administrators.

Manageable

HP PowerWise Assistant power management software provides

- Safe, unattended shutdown of your network during prolonged power-cuts
- A real-time graphical view of power quality, utility power, load usage, and battery charge, to assist in problem identification and resolution
- Scheduled self-test, shutdown and restart features, which provide uptime assurance and server security
- Continual monitoring UPS status and warning in the case of problems

Intelligent local power management

- Has a communication port directly connected to the server, providing safe, unattended shutdown
- Is compatible with the leading network operating systems

Reliable

Power protection that keeps networks up and running, with

- Advanced line interactive design for brownout and blackout protection
- Automatic voltage regulation to boost low-line voltages back to acceptable limits, conserving battery power
- Built-in surge suppression and EMI/RFI filtering to prevent hardware damage or "glitches" to server operation
- Sine wave output to reduce stress on critical computer components, and extend their life

Network uptime assurance, through

- Power-on self-test, which checks UPS, is operating when needed
- Front panel indicators and audible alarms to alert the user of power and UPS problems
- Replace battery indicator to give warning of battery problems
- Site-wiring check to alert the user of outlet wiring problems
- Standard two-year unit exchange warranty
- World-class HP service and support

Reducing the Cost of Ownership Over the Life of Your Server

HP NetServer Navigator
 HP Configuration Assistant
 HP NetServer Assistant 2.2
 HP Diagnostic Assistant
 HP Information Assistant
HP Remote Assistant Card
HP Support Assistant
HP PowerWise Assistant

For an HP NetServer, life begins when you open the box. HP's new manageability suite helps control your costs from then on.

According to the Gartner Group, 84 percent of LAN costs occur after your initial equipment purchase. Your server is a complex system made up of numerous subsystems and components that need to be customised to accommodate your specific applications and business environment. A server's life cycle from hardware and software installation, configuration, testing, and configuration verification through ongoing monitoring and administration, planning, and reconfiguration starts when you take it out of the box. Given the complexity and costs associated with managing servers, doesn't it make sense to look for ways to reduce the costs? At HP, we believe it does. That's why we've designed the complete set of management tools, or "assistants", described below to make it easier and less costly to manage your servers over their lives:

- **HP NetServer Navigator 1**

A bootable CD-ROM solution that drastically reduces configuration time; delivers the latest drivers to ensure smooth installation; automates predictive component failure monitoring, problem identification, and alerting; and provides fast, convenient access to a comprehensive HP NetServer reference library and intelligent troubleshooting capabilities. HP NetServer Navigator delivers all these capabilities through these assistants:

- **HP Configuration Assistant**

Makes it easy to install and configure your HP NetServer and drastically reduces configuration time.

- **HP NetServer Assistant 2.2 2**

Provides monitoring, proactive alerting, and problem identification for up to 100 devices on a network.³

- **HP Information Assistant**

Enables easy, task-oriented retrieval of information on the HP NetServer family through powerful search capabilities.

- **HP Diagnostic Assistant**

Throughout the life of your HP NetServer, this utility confirms the presence of system components and tests for the most common, real-world problems related to processors, system boards, memory, I/O ports, hard drives, SCSI buses, and other components.

- **HP Remote Assistant Card**

Computer on an EISA card for remote management and trouble-shooting, including console redirection, reboot, monitoring, alerting, and recovery.

- **HP Support Assistant**

A CD-ROM-based support tool that provides information on a wide range of HP products, including servers, PCs, printers, and networking equipment.

- **HP PowerWise Assistant 4**

Software that monitors your HP Uninterruptible Power Supplies and alerts you of power loss via your HP OpenView

management console or pager, and gracefully shuts down your HP NetServer.

Comprehensive Toolset Simplifies Management, Cuts Costs

With HPs proactive management tools, youll identify and resolve problems before users start calling.

SAVE SPACE AND SANITY

THE CHALLENGE

Your bookshelves are loaded with server manuals, technical specs, and floppy disksbut you have no idea whats on the disks or whether the materials are up-to-date.

THE SOLUTION

On one compact, bootable CD-ROM, HP **NetServer Navigators** assistants make it easy to manage your servers. For example, to save your shelf spaceand your sanity**HP Information Assistant** offers online manuals, technical specifications, and other information designed to simplify server management.

SETUP - FROM START TO FINISH

THE CHALLENGE

You just opened the box containing your new HP NetServer. You need to set it up quickly but are concerned youll skip some important steps.

THE SOLUTION

Let HP Configuration Assistant step in and automatically guide you through installation and configuration, from A through Z.

WHICH WAY DO I GO?

THE CHALLENGE

Youve become accustomed to seeing phrases such as "some assembly required" or finding three manuals that say "read me first" when you open a box. How should you proceed?

THE SOLUTION

HP NetServer Navigator and its roadmap clearly delineate the steps for ensuring that the life of your server gets off to a successful start.

DISCOVER YOUR SERVERS

THE CHALLENGE

Youve been assigned responsibility for managing all the servers at your site. But no one seems to know how many there are, where theyre located, or what their model numbers or versions are.

THE SOLUTION

Just use HP NetServer Assistants "NetServers-at-a-Glance" function to easily and quickly discover all your servers and key information about them. You can customise this function and use it on a regular basis to keep tabs on your newly adopted family.

NEXT BEST THING TO BEING THERE

THE CHALLENGE

Youve done an excellent job man-aging the servers at your site. Recognising your accomplishments, your boss has asked you to manage the servers at your companys remote locations, too.

THE SOLUTION

Dont panic: HP Remote Assistant is everywhere you cant be. The key to managing more servers at remote locations is to let them manage themselvesand alert you if theres a problem. The award-winning HP Remote Assistant card permits lights-out server management, allowing you to connect with remote servers even when theyre down.

SWIFT TROUBLESHOOTING

THE CHALLENGE

Your predecessor underestimated the demands that would be placed on your HP NetServers. You need to reconfigure the servers, then verify your work.

THE SOLUTION

Use HP Diagnostic Assistant to comprehensively test and verify your system and subsystem components. Its great

for trouble-shooting, too.

A Suite of Assistants to Reduce Your Cost of Ownership

HP Configuration Assistant

Simplifies HP NetServer configuration

- Standard on HP NetServer Navigator
- User-friendly application that automatically guides you through the configuration process
- Integrated on-line help and key utilities ensure smooth configuration
- Express Mode automatically guides user through configuration using default variables and settings; Custom Mode allows user to select specific configuration steps
- Graphically summarises HP NetServer resources allocated to configured expansion cards
- Graphically displays HP NetServer expansion slots and cards that have been installed and configured
- Creates partition on the hard disk to store key utilities for future troubleshooting and support activities
- Provides suggestions for NOS installation and automatically creates customised diskette with NOS drivers and configuration files
- Automatically updates HP NetServers BIOS if not as current as BIOS on HP NetServer Navigator CD-ROM

HP NetServer Assistant 2.2

HP OpenView-based server management

Proactive Monitoring and Alerting

- Disk capacity threshold alert and usage tracking
- SCSI controller and device failure notification, co-developed with Adaptec®
- Predictive disk problem warning backed by HP proactive warranty replacement
- PC LAN adapter card performance statistics, configuration, and problem information⁵
- Error alerting and identification for servers Power-On Self Tests HP ECC memory, HP Disk Array, HP PowerWise UPS management software⁵ (available in North America and Europe only), and HP Remote Assistant card include management agents with event notification integrated into HP NetServer Assistant/HP OpenView alarm log
- Over-the-network temperature monitoring⁶

Easy-to-Use Troubleshooting Tools

- Intuitive error log messages for monitored subsystems
- HP Support Assistant floppy disk included
- View critical server information, such as BIOS version, EISA and PCI slot contents, SMP information, serial and parallel ports, and security status from a single network management console⁸
- HP NetServer "at-a-glance" utility for easy-to-view information on multiple servers⁸

HP OpenView 7.2 (100-node version included with HP NSA 2.2)

- Autodiscovery and layout for IP/IPX devices
- Integrates common network devices
- SNMP management and MIB browser
- Consistent alarm and trap management
- Up/down status polling of servers and other network devices
- Data export (e.g., to spreadsheets)
- Three security levels

Customisable

- Control of management console from a remote PC, allowing the same features to be used at a local management console or non-network-connected remote PC
- Available tools list reflects selected server and its NOS

- Easy launch of third-party MS-DOS®/Windows™ utilities, such as American Power Conversions PowerChute plus®, or Cheyenne ARCserve, or Microsoft® Systems Management Server
- HP NSA Extensions can be added for advanced network management

HP NetServer Assistant Extensions

- This add-on product upgrades your HP NetServer Assistants OpenView 7.2 console to full HP Workgroup Node Manager functionality. (For proper installation, HP NetServer Assistant 2.2 and HP OpenView 7.2 must be loaded.)
- Unlimited network discovery (extends 100-node limit of HP NSA 2.2)
- Integrated TCP/IP stack (Windows Sockets- and WinSNMP-compliant) with FTP, TFTP, ping, Telnet, SLIP, and PPP utilities
- Alarm forwarding to an HP OpenView for UNIX® consoles event log
- Paging and e-mail notification for HP OpenView alarms
- Visual Basic Custom Controls for creating SNMP management applications without programming

New in HP NSA 2.2!

- HP OpenView 7.2 enhancements, such as improved autodiscovery and layout for Banyan VINES® and other nodes; efficient, memory-saving FTP stack; and easy installation
- SCO™ UNIX server agents
- Enhanced voltage and temperature agents
- Now manages hot-swap and Fast and Wide SCSI drives⁹
- New SNMP NetWare® Server agents for browsing by Novell® NMS or HP OpenView-UX consoles
- Easy installation via HP Navigator CD-ROM
- HP NetServer "at-a-glance" utility

Supported Environments

- Supported across HP NetServer product line; standard on HP NetServer LF and LM (floppy version [D2333D]); included on HP NetServer Navigator, which is standard on HP NetServer LH, LS, and LC 5/100
- Management Console: HP OpenView for Windows 7.2 is included and runs on Windows 3.1, Windows for Workgroups 3.11, and Windows NT™ 3.5 (the Windows 16-bit API)
- NOS: Server agents for:

Novell NetWare 3.12, 4.01, 4.02 (excluding SFT III)

Windows NT Server 3.5 (including SMP)

IBM® LAN Server and OS/2® 2.1, 2.11 (SMP) with IBM TCP/IP 2.0 or later; OS/2 Warp 3.0

SCO™ UNIX® Release 3.2 v4.2

Except where indicated in footnotes

HP Information Assistant

On-line HP NetServer reference library

Standard on HP NetServer Navigator

Easy-to-view, search, and print HP NetServer, NOS, and accessory information

Library of HP NetServer release notes, technology papers, and product catalogs

HP NetServer and NOS optimisation/tuning guidelines and suggestions

HP Diagnostic Assistant

Hardware verification and troubleshooting

- Standard on HP NetServer Navigator
- Tests SCSI subsystem to detect marginal cabling and termination
- Conducts rapid tests (less than two minutes) or continuous overnight or burn-in tests with error logging for entire HP NetServer or selected subsystems; each test shows estimated completion time
- User-friendly interface shows recommended replaceable units
- Can be controlled remotely through HP Remote Assistant card

HP Remote Assistant Card

Computer on an EISA card for remote control of server

Powerful Remote Control

- Access to server regardless of its state through on-board intelligence and battery backup
- Console redirection of servers monitor and keyboard to remote PC/workstation
- Remote reboot, power cycle, and shutdown
- Ability to remotely run the systems EISA Configuration Utility⁷

Hardware Monitoring and Alerting

- Continual temperature and voltage monitoring
- Bus utilisation tracking of high-usage peaks and averages
- Warning and critical threshold settings for monitored components
- Configurable paging for thresholds and events via external modem
- In-band information through SNMP MIB/traps and preconfigured alarm forwarding to HP NetServer Assistant⁵

Easy and Secure Access

- Robust security, including password and dial-back protection and notification of repeated illegal login attempts
- Remote PC access to card through terminal emulation (optimised Windows-based software included)
- 9-pin serial port for external connection

Automated Recovery and Troubleshooting Tools

- Graceful system shutdown on overheat
- Automatic Server Restart (ASR) and last screen dump saved on a system hang ⁷
- DOS-level file transferring ⁷
- Intuitive error and event messages saved in on-board memory
- QAPLus™ diagnostic tools included for remote ⁷ or local hardware troubleshooting, memory and interrupt maps, and performance testing

Supported Environments

- Supported across HP NetServer product line
- Management Console: Terminal emulator on Windows, Windows NT, HP-UX; can be launched within Novell NMS or HP NetServer Assistant
- Server NOS: Most functionality is independent of the NOS and has been tested on Novell NetWare, Windows NT, IBM LAN Server and OS/2, Microsoft LAN Manager and OS/2, SCO UNIX, and Banyan VINES, except where indicated in footnotes
- ASR drivers: Supported on Novell NetWare, Windows NT, and IBM OS/2 versions listed above for NSA 2.2; Microsoft LAN Manager; OS/2 1.3; SCO UNIX 3.2 v4.2; and SCO MPX 3.0

HP Support Assistant

On-line support information on HP products

- Looks and works like Windows help
- Fast text-search capabilities, keyword searches, and hotlinks among related topics
- Text and graphics can be printed
- This subscription service provides up-to-date information on HP NetServer, Vectra, LaserJet, and other networking products.

HP PowerWise Assistant⁴

Software for monitoring HP UPS

- Proactively monitors network power and provides automatic, orderly, unattended server shutdown
- Scheduled network power down and restart optimise network operation and conserve power
- Real-time graphical view of power quality, load usage, and battery charge
- Full event and power-quality logging and historical data display
- Customisable user messages
- Integrated HP OpenView and HP NetServer Assistant management applications

- 1 HP NetServer Navigator comes standard with HP NetServer LH, LS, and LC 5/100 models (LC 5/100 available Q4/95).
- 2 HP NetServer Assistant 2.2 comes standard on the HP NetServer Navigator CD-ROM and is also provided separately on 3.5-inch floppy disks, standard with HP NetServer LF and LM models and optional with other models.
- 3 For paging capabilities or to manage more than 100 network nodes, add the HP NetServer Assistant Extensions accessory (D3347B).
- 4 Available in North America and Europe only.
- 5 Available on NetWare and Windows NT at this time.
- 6 Temperature monitor built into HP NetServer LC, LH, and LS systems. Other HP NetServers support temperature monitoring if using an HP Remote Assistant card.
- 7 Banyan does not support a bootable DOS partition. Also, no Banyan ASR agent is available at this time.
- 8 Available with Novell NetWare, Windows NT, and OS/2, but not with SCO UNIX.
- 9 SCSI FLT (Fault) does not currently support Wide SCSI.
