

TommySoftware® CAD/DRAW Shareware Version 3.20

Following a listing of files that should be contained on the disks of any TommySoftware® CAD/DRAW package (or in the archive created from those disks). If your package does miss any of these files, please contact your local TommySoftware® partner in order to receive a complete package.

Contents of all Disks / Archives:

FILE_ID.DIZ
INSTALL.EXE
INSTALL.WRI
OMBUDSMN.ASP
PACKING.WRI
SHAREWAR.WRI
VENDOR.WRI

Plus a number of files having a numeric value as file name (_000000_ , _000010_ , _000020_ , etc.) and some disk identification files (_DISK01_ , _DISK02_ etc.). The total number of these files varies from 40 to 100, depending on the version and the disk capacity.

When downloading TommySoftware® CAD/DRAW from a bulletin board, you should receive a file named TSCD320E.ZIP which contains the files listed above.
