Clipboard Print v1.0

This program is designed to allow you to easily print the contents of the Clipboard without having to load a word processor or editor.   It will print both the text and BMP Clipboard contents, and run as an icon or a small two-button program.

Note: The Print Manager must be active for this program to work.

Caution: Do not exit the program until the Print Manager has completed the print operation.

Normal Operation

Print Clipboard: Causes the contents of the clipboard to be printed to the default printer.

Quit: Will end the program and save the current window position.

Other Features

The features described below can be reached by single-clicking the icon of the program when it is minimized or by clicking on the programs control box in the upper left corner.

Print Clipboard: Same as the main Print Clipboard button.

Run Clipboard Viewer: This will run the Clipboard Viewer program supplied with
                            Windows or the Clipbook Viewer from Windows for Workgroups.

Clear Clipboard: Erases the Clipboard contents.

About: Displays the About dialog box.   Registration information appears
                                in here.

Help: Displays this file.
