SQLWindows Solo
Additional enclosed information

Contents

This CD contains:

* SQLWindows Solo

* SQLWindows rolling demonstration

* SQLWindows White Papers

To install SQLWindows Solo run SETUP.EXE in the root directory of the CD.

Under the directory PRODINFO, there are two additonal directories. DEMO contains a rolling demonstration of SQLWindows and PAPERS contains white papers on SQLWindows.

The files in the PRODINFO directory are not installed on your local disk by SETUP.EXE. You may copy them directly to your hard disk and access them from there, or you may access them directly from the CD.

Rolling Demo Important Information

Run DEMO.PIF to view the demonstration.

The rolling demonstration requires 450K of DOS memory to run. If you experience difficulty with insufficient conventional DOS memory you will need to free some conventional memory in order to execute the program. The demonstration software will instruct you on any memory errors you may receive.

There is no installation or technical support provided for this demonstration software.

White Papers

Microsoft Word documents and Rich Text Format files have been included. These files contain additional information on the SQLWindows products.

There is no installation or technical support provided for these documents.
