Greetings!

This is the **Fifth** theme in the series of Thinkpiece Desktop Themes which were designed and compiled by the Thinkpiece Desktop Desinger, Linda Villaverde, and feature original **Thinkpiece artwork by the Digital Artist Bryan A. Smith**.

Each Thinkpiece Theme designed by Linda Villaverde includes a 800x600 wallpaper from the **Thinkpiece** galleries, and includes sets of standard original icons and even extra icons you can use for your other files. Also you'll find an animated logo screen, and a web folder page design for your browser, all packaged together with some fantastic sounds!

Be sure to stop by the Thinkpiece Theme page at: http://www.thinkpiece.com/downloads/themes.asp and download the latest theme, wallpaper, and other desktop enhancement resources.

If you enjoy the Winged Beast image, be sure to visit Bryan's website **Thinkpieces** at http://www.thinkpiece.com and not only download more themes, wallpapers, and screensavers based on his art, but where you can stroll through the Thinkpiece Galleries at: http://www.thinkpiece.com/galleries/galleries.asp and treat yourself to Bryan's other digital musings of scenes that your eyes and mind have not yet seen. You can even find, download and/or request additional wallpapers of the images that you happen to enjoy the most!

After that, stop by the Name It Contest Gallery at: http://www.thinkpiece.com/galleries/nameITgallery.asp and submit your own interpretation of selected Thinkpiece images. If your NameIt entry is selected, that Thinkpiece image shall bear the title you suggested, along with credit given to you for suggesting the title, and you will receive a free poster sized fine art print of a Thinkpiece image to hang on your wall!

And, if you are into or even curious about computer generated graphics, be sure to stop by either the Downloads Page at http://www.thinkpiece.com/downloads/downloads.asp or the Resources Page at: http://www.thinkpiece.com/resources/resources.asp where you can download L-System--a free 3D modelling program, material/sky/fog presets for Bryce 2, 3D and 4, and presets for KPT 5 Fraxflame and FraxPlorer. Also, there are several tutorials and other resources available for your use and enlightenment.

NEW At MP3.com!

Stop by the new !!Thinkpiece!! page at MP3.com. The URL is: **http://www.mp3.com/artists/45/joel_payne.html** Grab a cup of java, check out the artwork and music. Stay awhile and be pleasantly surprised to see how THINKPIECE is expanding!

Important Music Information!

You will notice a change of format in music for this theme! That's due to the great sounds of "HIGGINS". You will still need a player that can handle MP3 and MPEG sounds...but what a treat for your ears! The song used in this theme is "The Deep". You can listen to the entire song if you wish at http://www.mp3.com/artists/19/higgins.html or purchase the CD from MP3.COM! (Just copy the URL into your browser and GO!)

THEME REQUIREMENTS:

(1) Zipping / Unzipping Program:

If you do not have a Zip program, you may download a free trial or free program at:
> **WINZIP:**
> www.winzip.com

OR

EASY ZIP:
http://members.xoom.com/_XOOM/ipsoft/easyzip_download.html

(2) Theme Management Program:

Desktop Theme Manager
If you do not have Windows Plus!, you may download a compatible manager at:

Desktop Architect
http://home1.gte.net/fosterk/da/index.htm
OR:
Desktop Themes and/or Theme Installer:
http://www.lss.com.au/lss/windows/lsswindows.htm

(3) Sounds:

Windows Media Player, RealAudio, or any player that can play **MPEG-Layer3** format sounds.
  If you cannot hear the sounds download a FREE player at any of these sites:

Netshow:
http://www.microsoft.com/msdownload/netshow20/05000/htm

RealPlayerG2:
(http://www.real.com)

MP3.com
http://www.mp3.com/software/

*TO INSTALL THEME***:**

Click on the *(theme name).exe* file, and follow the directions. ***Make sure the destination is where your theme library is kept***. Most are C:\Program Files\Plus!\Themes. This program will automatically install all the theme components including the theme, screens, web art and screen saver if included. Select this theme from your desktop program manager, click on 'Apply' and you are all set! The theme file will automatically install the components.

For any problems (or praise) arising from the desktop installation, you may email me at: lartiste@uswest.net

ENJOY!
Linda Villaverde
Desktop Designer@Thinkpieces

NOTE: A complete left-handed cursor set is available at the download page.
