

# **Christmas Manager**

## **A Pine Tree Software Product**

**Thanks for downloading Christmas Manager. This program is absolutely free as a Christmas present to you. If you would like to return the favor, please download and register one of our other programs (you can check them all out at <http://www2.viaweb.com/pilotgears/pintresof.htm>).**

**This program is created to be an aid in organizing your holiday season. Within this program you can keep track of Christmas card sending/receiving, your Christmas shopping, your own personal Christmas List, and your favorite Christmas websites. A few recommendations to Christmas websites are within that section. Anyway, please have fun. This program was tested on a Palm Vx running OS 3.5 and made with Paul Prejean's PDA Toolbox.**

## **Christmas Cards**

**Yes, it's the time of year for the sending of Christmas Cards. Within the database, you can keep track of the name and address of people you need to send Christmas cards to. When you have sent it, tap the sender's info on the table or cycle through the list using your prev/next buttons. Then, tap delete to delete their name from the list.**

## **Christmas Shopping**

**For avid shoppers. Keep track of everyone you need to give gifts to. You can keep their name, the store, and the price within this database.**

## **Your Personal Christmas List**

**Yes, you want gifts too. Write out your Christmas List here.**

## **Christmas Websites**

**Type in your favorite websites. Here are some recommendations:**

**<http://santatracker.tripod.com/> -- A Windows santa-tracking program, written by me. For Windows 95, 98, NT, or 2000. It's great.**

**<http://www.amazon.com/> -- for last-minute Christmas shopping.**

**<http://www.palmgear.com/> -- buy some Palm software as gifts.**

**<http://www.americangreetings.com/> -- send some Christmas e-cards.**

**<http://www.midifarm.com/> -- download some Christmas MIDI music.**

**<http://www2.viaweb.com/pilotgears/pintresof.htm> -- our online store for registering our products.**

**Merry Christmas!**
