PrintingStatus Object

The **PrintingStatus** Object provides properties for retrieving information and setting options for the printing status of a report (i.e., number of pages, latest page to be printed, etc.). A PrintingStatus Object is obtained from the PrintingStatus property of the **Report** Object.

Properties

Application - Returns a reference to the Application Object this object is associated with. Read only.

LastestPageNumber - Returns the number of the last page that's currently available. Once the printing is complete, this value is the number of the last page. You will receive an incorrect result if you try to obtain this value immediately after using a method such as ShowNextPage that causes a change to the preview window. Call the Visual Basic function, DoEvents (see Visual Basic documentation for more information) before requesting the latest page number. Read only.

NumberOfPages - Returns the number of pages in the report. Read only.

Parent - Reference to the Parent object (Report Object). Read only.

Progress - Returns CRPrintingProgress (see table below) indicating the status of printing report (i.e., cancelled, in progress, not started, etc.). Read only.

crPrintingCancelled	5
crPrintingCompleted	3
crPrintingFailed	4
crPrintingHalted	6
crPrintingInProgress	2
crPrintingNotStarted	1

RecordsPrinted - Returns the number of records actually printed. You will receive an incorrect result if you try to obtain this value immediately after using a method such as ShowNextPage that causes a change to the preview window. Call the Visual Basic function, DoEvents (see Visual Basic documentation for more information) before requesting the records printed. Read only.

RecordsRead - Returns the number of records actually processed. Read only.

RecordsSelected - Returns the number of records selected for inclusion in the report out of the total number of records read. Read only.

Report - Reference to Report Object. Read only.

StartPageNumber - Returns the number of the starting page of preview or printing. Read only.
