

ZoomLevelChanging Event (Window Object)

The **ZoomLevelChanging** event occurs when the zoom level of the report preview is changed.

Syntax

```
Event FirstPageButtonClicked (ZoomLevel As Integer)
```

Parameters

ZoomLevel - Specifies integer indicating the percentage of the magnification for viewing the report. Can be CRZoomLevel (see table below) for Page Width and Whole Page. Otherwise, indicate zoom level percentage as an integer.

crPageWidth	1
crWholePage	2

Remarks

Before enabling this event, the HasZoomControl property of the **PrintWindowOptions** Object must be set to TRUE.
