

Revised January 22, 1996

This section contains information on compatible products, including:

- A list of hardware products specifically designed for Windows 95 (i.e. they carry the "Designed for Microsoft Windows 95" logo), as well as products that are compatible but do not meet the logo requirements
- Instructions on how to install new drivers, or upgrade existing ones
- Instructions for hardware developers

To get this information, just click on the icon below that fits your product category.

Computer Systems

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Desktop Systems
- Mobile Systems
- **Products that are compatible but do not meet the logo requirements**
- Desktop Systems
- Mobile Systems

Display Adapters/Monitors

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Display Adapters
- Display Monitors
- **Products that are compatible but do not meet the logo requirements**
- Display Adapters
- Display Monitors

Audio/Video Capture Adapters

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Audio Adapters
- Video Capture Adapters
- **Products that are compatible but do not meet the logo requirements**
- Audio Adapters
- Video Capture Adapters

Storage Devices

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- CD-ROMs
- Hard drives
- IDE adapters
- Removable Drives
- SCSI adapters
- Tape Drives
- **Products that are compatible but do not meet the logo requirements**
- CD-ROM
- Hard drives
- IDE adapters
- Removable Drives
- SCSI adapters
- Tape Drives

Network Adapters

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Network adapters
- **Products that are compatible but do not meet the logo requirements**
- Network adapters

Printers

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Printers
- **Products that are compatible but do not meet the logo requirements**
- Printers

Modems

Products that carry the Designed for Microsoft Windows 95 Logo

Modems

Products that are compatible but do not meet the logo requirements

Modems

Miscellaneous Devices

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- COM devices
- CPUs
- Joysticks
- Keyboards
- LPT devices
- Mice
- PCMCIA controllers
- UPS devices
- **Products that are compatible but do not meet the logo requirements**
- COM devices
- CPUs
- Joysticks
- Keyboards
- LPT devices
- Mice
- PCMCIA controllers
- UPS devices

International Devices

- **Products that carry the Designed for Microsoft Windows 95 Logo**
- Japanese 3MOD floppy drives
- Japanese CD-ROM drives
- Japanese modems
- Japanese network adapters
- Japanese printers
- Japanese removable drives
- Korean printers
- PRC printers
- Taiwanese printers
- **Products that are compatible but do not meet the logo requirements**
- Japanese 3MOD floppy drives
- Japanese CD-ROM drives
- Japanese modems
- Japanese network adapters
- Japanese printers
- Japanese removable drives
- Korean printers
- PRC printers
- Taiwanese printers

To install new drivers:

Download the driver from an [online service](#) to a diskette. In My Computer or Windows Explorer, double-click the file you downloaded. This extracts the driver

Launch Control Panel.

Double-click the Add New Hardware icon. At the prompt Do you want Windows to search for your new hardware? click No.

Click the hardware type for the driver you are installing.

Click the Have Disk button.

Enter the location of the driver file.

Follow the instructions on your screen.

To upgrade existing drivers:

Download the driver from an [online service](#) to a diskette. In My Computer or Windows Explorer, double-click the file you downloaded. This extracts the driver

Use the right mouse button to click My Computer, then click Properties on the menu that appears.

Click the Device Manager tab, then double-click the device type and the device you want to upgrade.

Click the Driver tab, then click the Change Driver button.

Click the Have Disk button.

Enter the location of the driver file.

When you are prompted to insert the software installation disk, enter the location of the driver file.

Follow the instructions on your screen.

- 1.- The Microsoft Network: under the Windows 95 area
- 2.- Worldwide Web: <http://www.microsoft.com>
- 3.- Gopher: <gopher://gopher.microsoft.com>
- 4.- FTP: <ftp://ftp.microsoft.com>
- 5.- CompuServe: GO MSL
- 6.- Microsoft Download Service (MSDL): call the U.S. number 206-936-6735 (no connect-time charges)
- 7.- If you do not have access to a modem, you can obtain an individual driver on a disk by calling Microsoft Product Support Services
- 8.- If you have the CD-ROM version of Windows 95, you can obtain certain drivers from the drivers directory

WHO WE ARE

The Windows Hardware Quality Labs (WHQL), formerly known as the Microsoft Compatibility Labs (MCL), are your gateway to quality computer hardware, both systems and peripherals, for users of Windows 95 and BackOffice™. Only products that pass WHQLs rigorous tests are qualified to display the Designed for Microsoft Windows 95 and Designed for Microsoft BackOffice logos. These two logos are your customers assurance that your product will work with the Windows 95 and BackOffice family of products.

WHAT YOU GET

The Logo is not the only thing you get from the program. You also get a detailed test report, inclusion of your hardware on the Windows Hardware Compatibility List (HCL), and free distribution of your driver via the Windows Driver Library (WDL).

HOW TO GET STARTED

We've made it as easy as we can for you to take part in the WHQL testing program. First you determine which product category your product falls under from the table below. Then you call WHQLs fax-back service at 206-635-2222 and enter the document number corresponding to the product category listed in the table. Step-by-step instructions on how to proceed will then be automatically faxed to you.

It is important that you follow instructions outlined in the fax-back document before you send us your submission, as incomplete submissions will only prolong processing time.

PROGRAMS OFFERED BY WHQL

There is a fax-back document for each program offered at WHQL. The following table is a sample of programs offered. Please contact WHQL to check if additional programs have been added.

Computer Hardware Category	Fax-back Document
Computer systems	863
Display adapters/monitors	864
Audio adapters	865
Storage adapters/devices	866
Network adapters	867
Printers	868
Modems	869
Input devices	870
Video capture adapters	871
Microprocessors	872
Hardware not listed above	879

WHO TO CONTACT

If you have any questions on the program, feel free to contact us via email, fax, or mail.

Email: whqlinfo@microsoft.com

Fax: 206-703-3872

Windows Hardware Quality Labs
