

Video SpiceRack Lite

Welcome! Your Pinnacle DC10+ system is bundled with **Video SpiceRack Lite** --- **50+ spices** from the more than **300** top-rated add-on transitions available in the full version of Video SpiceRack by Pixélan Software. The spices greatly expand your creative repertoire of useful visual effects --- from elegant new wipes and irises to exotic organic-edged transitions. All can give your videos a fresh creative edge, invigorating your productions.

Give our tasty spices a try. (To find them, look on the last two pages of the Transitions section of your DC10+ Album window.) Then visit us gourmets at **www.pixelan.com** to download **additional FREE effects** for your system. While you're there, check our special upgrade pricing to the full version of Video SpiceRack, which adds **250 more seasonings** for your video productions. And find out about our latest (and upcoming) spicy add-ons, too.

All of our spices work within the DC10+ interface. There are no new steps to learn. Additional spices simply appear in extra pages of the Album window. Easy! By upgrading to our full range of effects, you gain even more **creative flexibility** to tie visual transitions to your content. And more fresh ways to energize your segments.

Enjoy your taste of spices!
