## About the WriteNow 3.0 TestDrive...

We hope you're enjoying your WriteNow TestDrive. WriteNow is the fastest, easiest way to write on the Macintosh®!

The WriteNow TestDrive application is identical to the regular WriteNow application...*except* that the phrase, "Created on a WriteNow TestDrive," appears in the header and footer areas of documents when they are printed.

2

## If you need help...

WriteNow 3.0 includes extensive on-screen help, as well as complete Balloon Help™ (if you're using System 7).

WriteNow's manual includes tutorials which take you step-by-step through using the major word processing features. The manual also includes a "using" section that includes many tips to help make working in WriteNow fast and fun. And in case you get into trouble (and who hasn't at one point or another?), there is a comprehensive "troubleshooting" section.

Due to limited disk space, the WriteNow TestDrive doesn't include help beyond what is presented here. If you have a question regarding WriteNow, please call 415/962-0195 Monday through Friday (except holidays), from 9 A.M. to 5 P.M. (Pacific time). Or fax your request to 415/962-0201.
