

# ***Unleash the full power of PhotoStyler today!***

## **Upgrade offer just for Special Edition customers**

It's hard to imagine there's a product that could do more to make your work faster, easier, and more accurate. But there is. The full-featured version of Aldus PhotoStyler 2.0 offers creative imaging with unsurpassed productivity.

Contact your local Aldus distributor and take advantage of this special offer to upgrade to the full-featured version of PhotoStyler. For the name of the distributor nearest you, refer to the list enclosed in your PhotoStyler package.

And remember, when you upgrade, you become an Aldus customer. That means you're eligible for benefits such as long-term and electronic service support, plus preferred access to a world-renowned selection of publishing, graphics, presentation, and prepress software tools for Windows and the Macintosh.

Click the icon at left to see a list of the features included in the Full Version of PhotoStyler 2.0.

---

## ***PhotoStyler 2.0 Full Version Features***

*PhotoStyler 2.0 Full Version contains everything in this Special Edition, plus the following:*

**Image Navigator** palette for easy zooming and navigating in an image.
