To use the "Envelope LW/LW+" template:

- 1. Use the text tool to delete the current text in the envelope and type in your own information.
- 2. Choose Print from the File menu.
- 3. Select Manual feed as the paper source and click Options... to select Landscape orientation.
- 4. Click OK to Print.
- 5. On a LaserWriter, LaserWriter+ or similar printer, when the middle printer light is a steady yellow, insert your envelope face up, as shown on the right.
- 6. Keep a modest amount of pressure on the envelope until it has been taken into the printer.
