

HYPERANIMATION DEMONSTRATION

The HyperAnimation Demonstration consists of a 3 disk set containing:

Installer Disk: Installer, MacinTalk, HyperCard 1.2.2, Home, Read Me.

Disk 2: HyperAnimationDemo.sit.seg1

Disk 3: HyperAnimationDemo.sit.seg2

System Requirements:

- Macintosh Plus, SE, II, SE/030, or IIx - at least 2 megabytes of RAM (memory)- System 6.0.2 or later - a Hard Disk - 2.5 megabytes of disk space available on the Hard Disk.

Caution: Do not perform installation while running under Multifinder.

Installation:

1. Create a new folder on your hard disk name it: "**HyperAnimation Folder**"
2. Insert Installer Disk.
3. Copy all five files from the Installer Disk to the HyperAnimation Folder which you just created on your hard disk.
4. Remove Installer Disk.
5. Insert Disk 2. (The computer will ask for Disk 1. Ignore this message.)
6. Double-click on the file: HyperAnimationDemo.sit.seg1
7. Click on the mouse to continue.

The Installer will begin transferring the first file to your hard disk. When it is completed, it will ask you to find the second segment.

8. Insert Disk 3. (The computer will ask for Disk 2. Ignore this message.)
The Installer will begin transferring the second file to your Hard Disk. The Installer will inform you that the installation was successful - click "OK".
9. Remove Disk 3.

Operating Instructions:

1. Open the HyperAnimation Folder and double-click on the Home stack .
2. Click on the "Run HyperAnimation Demonstration" button. The HyperAnimation Demonstration will begin running - click "Start" to begin the Demonstration. The demonstration will repeat if left alone.

NOTE: The installer may be used as many times as you wish.
