# Student Desktop Tools

Designed to support any area of study, this kit provides some of the most useful software available, including publishing, presentation, spreadsheet, database, and word processing tools; encyclopedias, timelines, and other resources; and programs for creating multimedia projects and web pages.

This software enables students to create simple documents, sophisticated web sites, and an unlimited number of projects somewhere in between.

Student Desktop Tools is designed to be used in any classroom, lab, or media center, and can also be used as a companion to the Middle School Connections: Language Arts & Social Studies Kit and Math & Science Kit.

## Productivity Tools

**TimeLiner Collection v4.0,**
**Tom Snyder Productions**

TimeLiner helps students create and modify different kinds of timelines. It can chronicle broad topics, such as historical events and geological formations, or examine milestones in students' lives with daily, weekly, and yearlong timelines. It includes 17 collections of timelines on topics such as American history, science and technology, and world history.

## Publishing Tools

**Home Page v3.0, FileMaker**
Home Page lets your students create dynamic web pages and whole web sites—with ease. Students use familiar tools and commands to format text and graphics and create links between pages. It also offers advanced features such as frames, libraries, and the ability to edit HTML source code.

**HyperStudio v3.1,**
**Roger Wagner Publishing**
Your students can use this multimedia authoring software to create projects and presentations that include text, pictures, movies, animation, and sound. They can import and edit graphics and QuickTime movies and create links to Internet sites without using a browser.

## Research Tools

**Grolier Multimedia Encyclopedia 1998,**
**Mindscape**
Put the combined resources of a 21-volume encyclopedia with the impact of video and animation at your students' fingertips. Includes search tools that allow students to explore pictures, video clips, sounds, interactive timelines, maps, and speeches.

**Microsoft Bookshelf '98,**
Microsoft Provides encyclopedias, dictionaries, quotations, a thesaurus, an almanac, a chronology, an atlas, a post office directory, and a directory of Internet sites. These resources include a wide variety of images and text that students can copy and paste into their own projects.

## Teacher Support Materials

This kit includes a Teacher's Guide that provides information on installing and getting started using the software. Software user's guides are provided electronically. Also includes the *Out of the Box and Onto the 'Net* booklet.

## Staff Development

Apple offers training kits, workshops, and planning guides to help schools create and implement technology staff development. For more information, call **1-800-800-APPL (2775).**
