Apple Color StyleWriter 2500

The Apple Color StyleWriter 2500 is a compact, elegantly designed ink-jet printer that provides outstanding performance for both color and black-and-white printing. It's ideal for home, education, and small-business users who require convenient, superior-quality color capability without compromising true black text.

With its 720- by 360-dot-per-inch resolution for both color and black and white and its support for ColorSync color-matching technology, the Color StyleWriter 2500 easily prints high-quality text and images. It features optimal ink density, which automatically adjusts the ink saturation to provide the best possible output on a variety of media (paper, transparencies, and back-print film). You can even print impressive color images with true photorealistic quality, using the Apple Color StyleWriter 2500 Color PhotoGrade Print Kit. And the speed of this printer is also a strong point: the Apple Color StyleWriter 2500 prints up to 5 pages per minute for black and white and up to 0.66 page per minute for color.

Whether you use the Color StyleWriter 2500 to print your household budget, your child's latest art project, a class handout, or a customer presentation, you'll appreciate the quality and convenience of this printer's fast-drying, water-resistant ink. And you'll find the Apple Color StyleWriter 2500 equally convenient to own. It's extremely simple to set up and can be shared over a network in several ways. Through Apple's ColorShare technology, the Color StyleWriter 2500 can be shared with others over a LocalTalk, EtherTalk, or TokenTalk network. Or you can choose to add the optional LocalTalk Module or the StyleWriter EtherTalk Adapter, for direct connection to a LocalTalk or EtherTalk network.

So if you want outstanding print quality and color capability—in a convenient, flexible printer—the Apple Color StyleWriter 2500 is the printer for you.
