

Preschool & Kindergarten Adventures

This kit gives teachers the latest developments in technology tools and provides instructional activities across the early childhood curriculum. It consists of an exciting collection of developmentally appropriate multimedia software and related activities, which encourage exploration and creativity and adapt easily to individual styles of teaching and learning.

Curriculum Software

Bailey's Book House v2.0, Edmark

Offers five multimedia-based activities that give children early literacy experiences through a variety of print formats, as well as the ability to hear their own work read aloud to them by the computer.

Cubby Magic: Folktales Around the World v1.0, Humanities Software

Combines multimedia tools with the oral storytelling tradition that is central to so many cultures, using folktales from Mexico, Africa, and India.

Orly's Draw-A-Story, v1.0, Broderbund Software

Uses a young Jamaican narrator to encourage student involvement in storytelling through embellishment of an existing tale or creation of their own.

Paint, Write & Play!, The Learning Company

Provides a variety of tools and features to motivate children to write. Includes ideas, drawing tools, and the ability to hear their stories read aloud.

Introduction to Patterns v1.0, Tenth Planet Explorations

Draws children into the repeating nature of movement, sound, colors, and objects through the use of familiar themes. They create their own linear and geometric patterns and then save them in journals.

Number Meanings and Counting v1.0, Tenth Planet Explorations

Helps children develop an understanding of numbers through a variety of multimedia activities.

Millie's Math House v2.0, Edmark

Leads young learners to explore basic math concepts, such as numbers, counting, and patterns.

How Many Bugs in a Box v4.0, Simon and Schuster Interactive

Offers whimsical games that integrate language, counting, number recognition, sorting, and ordering, as well as math concepts such as smaller and larger.

Eyewitness Children's Encyclopedia v1.0, DK Multimedia

Encourages exploration of topics through a CD-based resource tool that includes articles, thousands of color photos and graphics, as well as animations, video, and even use of 3D.

Thinkin' Things Collection 1 v1.0, Edmark

Fosters a variety of creative and cognitive skills through multimedia activities.

Blocks in Motion v1.2, Don Johnston

Presents children with a variety of blocks and tools to manipulate and experiment with creatively, based on the theories of Piaget.

Making Music v1.0, Voyager/Forest Technologies

Enables children to compose their own music through a unique selection of tools designed to encourage open-ended experimentation.

Productivity Tools

ClarisWorks for Kids v1.0, Apple Computer

Offers an all-in-one tool for young children that facilitates writing, painting, graphing, and making lists.

Teacher's Font Series v3.0, Forest Technologies

Includes fonts designed specifically for the classroom. This package consists of three collections: Primary Fonts I and II, and Holidays & Seasons.

Classroom Management

At Ease v3.0, Apple Computer

Offers an alternative—designed for children—to the standard Macintosh user interface.

Teacher Support Materials

Provides information on software installation and use, as well as a variety of teacher resources. Also features an electronic teacher's guide and a resource booklet introducing instructors to the web.
