

Open the side panel for instant access to memory, cards, and drives.

Three drive bays make it possible to store over 100GB internally.

ATI RAGE 128 graphics accelerator and 16MB of graphics memory.

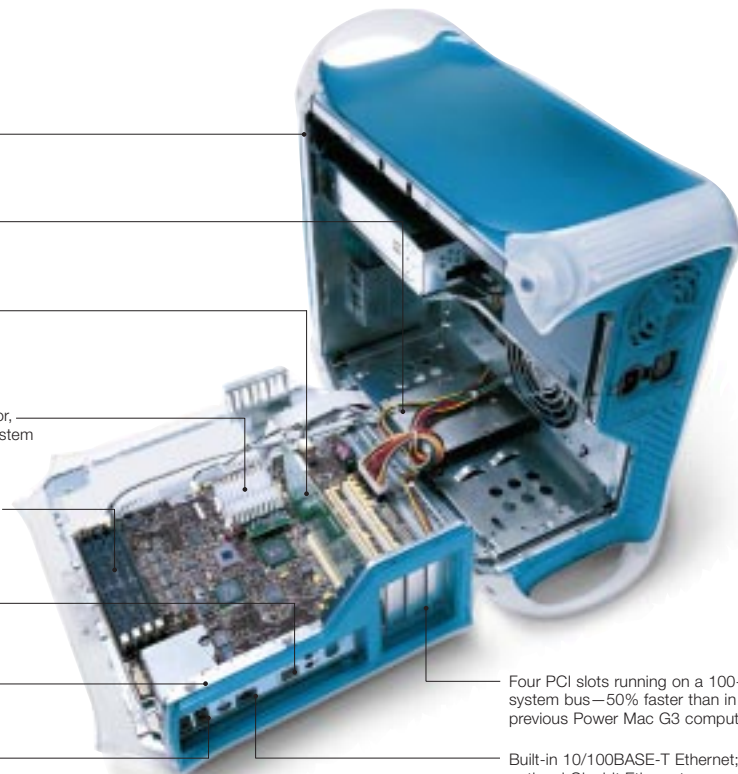

Up to a 400MHz PowerPC G3 processor, up to 1MB of backside cache, and a system bus running at 100MHz.

Configure up to 1GB of memory in four industry-standard PC100 SDRAM slots.

Built-in high-speed USB ports connect up to 127 USB peripherals.

Optional built-in 56K modem.*

Ultrafast FireWire standard in all configurations.

Four PCI slots running on a 100-MHz system bus—50% faster than in previous Power Mac G3 computers.

Built-in 10/100BASE-T Ethernet; optional Gigabit Ethernet.

The graphic details.

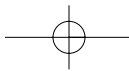

The new Power Macintosh G3 has been completely reinvented.

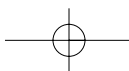

Built into every model is the just-released ATI RAGE 128 graphics accelerator and a full 16MB of graphics memory.

How graphic is the advantage? Just look to the latest 3D games. Load Myth II and watch it play at 75 frames per second—a full 47% faster than a comparable PC configured with the popular Voodoo2 add-in graphics card.

We've revolutionized the way you work with video as well. Using the built-in FireWire, you can transfer video directly from your digital video camera for digital editing with virtually no loss of quality.

When we set out to build a successor to the Power Macintosh G3, we didn't just refine it. We completely reinvented it.

The new Power Macintosh G3 gives you more in every way. It's the most powerful, expandable—and dare we say, revolutionary—Mac ever built.

Power Macintosh G3 specifications

Processor 300-, 350-, or 400-MHz PowerPC G3

Backside level 2 cache 512K or 1MB

System bus 100 MHz

Memory 64MB or 128MB of PC100 SDRAM; four DIMM slots support up to 1GB

Storage

- 6GB or 12GB Ultra ATA hard disk drive or 9GB Ultra2 LVD SCSI hard disk drive with PCI card
- CD-ROM drive or DVD-ROM drive (supports DVD-Video)
- Zip drive (some configurations)

Graphics support ATI RAGE 128 graphics card with 16MB of SDRAM graphics memory

Slots Four PCI slots, one dedicated to graphics card

Connectivity Built-in 10/100BASE-T Ethernet, two FireWire ports, two USB ports

Includes Mac OS 8.5, Apple USB Keyboard, and Apple USB Mouse
