

Line Type Pattern Master Shape

This stencil contains custom line patterns. When this stencil is open, its custom line patterns are available at the end of the Pattern list in the Line dialog box.

To apply a custom line pattern, select a shape, then choose Format > Line. In the Pattern list, select a custom line pattern name, then click OK. The shape displays the pattern.

Fill Pattern Master Shape

This stencil contains custom fill patterns. When this stencil is open, its patterns are available at the end of the Pattern list in the Fill dialog box.

To apply a custom pattern, select a shape, then choose Format > Fill. In the Pattern list, select a custom pattern name, then click OK. The shape displays the pattern.
