How To Find The Institution?

OPTIONS

Here you can find all the options that will help you use the program.
By using them you can configure your modem and printer. You can activate the control panel on the screen, change the scale of the map, print the part youre interested in, turn on/off the music or quit the program.
To learn more choose one of the following topics:

Printer
Modem
Music
Zoom
Control Panel
General View
Legend
Note Pad
Calendar
Language Change
Print
End

Modem

Here you can choose all necessary settings for your modem, such as: interface type, pulse/tone mode and of course the phone number.

If you have any difficulties with setting these parameters, click on the below:

<u>How To Change The Configuration Of Your Modem</u>

Music On - **Music Off.**

The **General View** of the whole map. To **Go To The Chosen Area** just click on the desired part of the Map.

Symbols and designations used in the Map.

Setting The Printer

Here you can set all the parameters of the printer you have installed in your system.
Right after opening the Printer Settings window you can:

1. Determine the **size of the printout:**
   - all pages
   - only the marked fragment
   - pages from...to...

2. Determine the **resolution of the picture** - in dots per inch (dpi) - the greater the number the higher the quality - its limited by the possibilities of your printer.

3. Determine the **number of the copies** you wish to obtain.

By choosing the **PROPERTIES** icon you can set the following parameters:

1. **Choice Of The Printer:**
   - set the default printer.
   - other (in case there is more than one printer)

2. **Orientation** : horizontal or vertical

3. **Paper** :
   - size - A4, A5, etc.
   - feeding: automatic or manual

Prints the fragment of the Map as seen on the screen.

Turns on or off the scale adjusting mode. In order to adjust the scale use the   left mouse button to **zoom in** and the right one to **zoom out**.
The scale is shown in the lower panel of the screen.

An additional **control panel** to help you work with the program. Point the icon with a cursor to see the **tag** describing its function. To **use the desired function** click on the left mouse button.

A handy **note pad** with basic options of a text editor.

A **Calendar** that shows todays date.

Language change - takes you back to the main menu where you can choose the language.

Quits the program and **goes back** to Windows.

SEARCH FOR...

By using this menu you can easily find not only the street you desire but also most of the city institutions: offices, hospitals, museums, theatres, cinemas, ambulance service, Police. You will also find a list of leisure places and important phone numbers.

If you want to learn more about searching for streets, click here : <u>How To Find A Street?</u>

Searching for the institutions is conducted the same way, the only difference is the object of the search. Therefore no matter what specific topic you choose, you are always going to end up in:
<u>How To Find An Institution?</u>

<u>Streets</u>

<u>Accommodation</u>
<u>Offices</u>
<u>Culture</u>
<u>Health</u>
<u>Important Phone Numbers</u>
<u>Police</u>
<u>Transportation</u>

Streets

You can find every street that is on the City Map.

To find the street:
- **Type** in the upper window the name of the street. While typing youll see names of the streets that begin with letters youre typing in.
- When the desired name appears, **confirm your choice** by clicking on **CHOOSE** or hitting **ENTER**
- A **blinking red and blue arrow** will show you where the street you have picked, is located.
- To make the **arrow disappear** just click on it with the left mouse button.

Offices, Culture, Health, Important Phone Numbers, Accommodation, Transportation.

To choose the desired institution:
- Look at the list - youll see the **name, address** and the **phone number** of various institutions.
- **Browse** through the list using your mouse or cursor keys on the keyboard.
- Click on **DIAL** to **connect** with the chosen **phone number.**
- Click on **DISCONNECT** to **end the connection.**
- Click on **SEARCH** to see the location of the chosen object on the Map. A **blinking red and blue arrow** will point the object. To make the **arrow disappear** click on it with the left mouse button.

METROPOLITAN AREA

Here you will find several maps of the Area of Cracow
The icons located in the upper left corner of the screen are used to zoom in, zoom out, set the size of the scale and to return to the original Map.
In case of troubles click on:

You can move across the map using the arrows situated in the right and lower margins of the screen.

Exit and **go back** to the main Map.

Setting the **standard view** of the map.

MULTIMEDIA

Here you can see photographs, both of contemporary and old Cracow, aerial photographs and watch some videos.
You may do it using special viewers which are very user - friendly and shouldnt cause any troubles.

Choose one of the following:

Video films
Photographs
Aerial Photos
Old Photographs
Map Of The City Centre

Video films

Here you can watch several interesting films about Cracow.
They use special viewer program and their quality depends only on the possibilities of your computer.
In order to watch the movies you should take out the **PLAN** CD, insert the **VIDEO** CD and click on the **OK** icon. When you want to come back to the Map you should replace the CDs again.

For more useful tips click:

How To Watch The Videos?

Photographs
