Order Online Romanian AntiVirus

How to Order Online Romanian AntiVirus

Visit our <http://www.shareware.ro> Web site and click on the appropriate link.

- Online orders are processed the same day the order is placed.
- If your order has incomplete information, or contains questionable information, it may be delayed until we can contact you.
- RAV's online order form is a secure web site. Look for the 'lock' icon on your screen when you visit the site. If you double click on the icon, you will see the Verisign secure certificate information.

Romanian AntiVirus Order Form - USA

The Shareware Concept

The copy of **Romanian AntiVirus** you have here is marketed under the **shareware** concept. Shareware distribution gives users a chance to try software before buying it. If you try a shareware program and continue using it, you are expected to order the licensed version.

Copyright laws apply to both shareware and commercial software, and the copyright holder retains all rights, with a few specific exceptions as stated below. Shareware authors are accomplished programmers, just like commercial authors, and the programs are of comparable quality.

The main difference is in the method of distribution. The author specifically grants the right to copy and distribute the software, either to all and sundry or to a specific group.

Shareware is a distribution method, not a type of software. You should find software that suits your needs and pocketbook, whether it's commercial or shareware. The shareware system makes fitting your needs easier, because you can try before you buy. And because the overhead is low, prices are low also. Shareware has the ultimate money-back guarantee - if you don't use the product, you don't pay for it.

Please understand that if you have already paid a small duplication and handling fee to receive the shareware version of **Romanian AntiVirus** from a disk vendor, you have not paid for the product itself or the right to continue using it after the 30-day test period. You still need to order the full product!

For your payment you receive several registered user **benefits**. These include the latest version of the software, cleaning capabilities, no reminder screen when you first run **Romanian AntiVirus**, minor upgrades for free, major upgrades at discounted prices and technical support provided for product's lifetime online or by e-mail.

Shareware Vendor Information

This section provides information for Web/FTP Sites, Shareware Distributors, Disk Vendors, BBS Sysops and Computer Clubs who wish to distribute the **Romanian AntiVirus** shareware package. These details are also available in the separate shareware distribution file **VENDOR.TXT**.

Program Name, Category

Romanian AntiVirus, Utility (Windows® 95/98/NT, DOS, Utility, Security, Antivirus).

Preferred File Name for BBSs etc.

RAV Professional: RAVPRxxx.ZIP, where xxx is the version number. For example, version 6.xy would be RAVPR6xy.ZIP. Of course, other file name extensions are perfectly acceptable when compression programs other than PKZIP are used.

RAV Standard: RAVSTxxx.ZIP, where xxx is the version number. For example, version 6.xy would be RAVST6xy.ZIP. Of course, other file name extensions are perfectly acceptable when compression programs other than PKZIP are used.

Short Description

Romanian AntiVirus combines a powerful scanner and a code emulator creating a product able to detect most advanced polymorphic, macro and Java viruses. With versions of DOS, Win95/98/NT, Windows NT Server and Novell NetWare, Romanian AntiVirus is able to detect over 14000 computer viruses. The registered version also includes data recovery programs, utilities to backup system areas and virus analysis tools.

Long Description

Romanian AntiVirus is a computer antivirus program able to detect and clean most viruses kinds, such as polymorphic, macro and Java viruses.

The polymorphic viruses are handled by the powerful RACE (RAV's Advanced Code Emulator) engine. RACE is capable of detecting most complex polymorphic viruses, and its impressive detection rate is confirmed by various independent reviews of Romanian AntiVirus.

The Romanian AntiVirus Macro engine (codenamed RAME) detects macro viruses, which are today's primary problem. The Romanian AntiVirus Macro Engine is not only able to detect known macro viruses which infect Word, Excel Word97, Excel97 and Access97, but it is also capable of detecting new macro viruses using state of the art heuristics. RAME is also able to clean macro viruses, making it easy for you to recover from a virus infection.

The Romanian AntiVirus Java engine, (JEDI - Java Enhanced Disassembler/ Interpreter) is able to exactly detect Java viruses and malware, and of course to clean Java viruses, a facility maybe unique in the world.

Beside the above-mentioned modules, Romanian AntiVirus includes heuristic methods to detect new or unknown viruses in memory, such as the Bait Analysis and the AntiStealth tests.

Romanian AntiVirus is available for most popular Oses, such as Windows95/98/NT, DOS, Windows NT Server and Novell NetWare.

To see descriptions of RAV in several other languages, click on the appropriate button:

Author/Publisher Information

Please feel free to contact **GeCAD srl** at any time if you have any questions, comments or suggestions. Our address is: **GeCAD srl**, Str. Gh. Petrascu 53, Bl. PM53, Sc. A, Et. 1, Ap. 8, 74506 Bucharest, Romania, tel: +40 1 647 63 07, fax: +40 1 324 84 09, e-mail: office@gecad.ro.

Ordering Information

Costs vary and depend on country. Please refer to the relevant ordering section. The benefits of ordering the licensed product include the latest version of the software, cleaning capabilities, no reminder screen when you first run **Romanian AntiVirus**, minor upgrades for free, major upgrades at discounted prices and support provided for product's lifetime online or by e-mail.

Distribution Requirements

The **Romanian AntiVirus** software and the accompanying documentation are **shareware**. You may make as many copies of the software as you wish, give them to others, upload them to any BBS or FTP site worldwide, include them in software collections such as CD-ROM disks, distribute them through Disk-of-the-Month (or Subscription) Distribution, and distribute them in any other possible way, as long as you meet the following restrictions:

- Distribution is allowed **only** if the package is complete. Please contact **GeCAD srl** to obtain a complete shareware package suitable for distribution. You may download anytime **Romanian AntiVirus** from our site: <http://www.shareware.ro/download.htm>. If the version you have obtained is over 3 months old, please contact **GeCAD srl** to ensure that you have the most current version. This version was released in September, 1998.
- The shareware version of **Romanian AntiVirus** may be distributed freely. Disk Vendors, Computer Clubs, BBSs and other vendors may charge a nominal fee for distribution of the program. The recipient of **Romanian AntiVirus** must be informed, in advance, that the fee paid to acquire **Romanian AntiVirus** does not relieve the recipient from purchasing the licensed version of **Romanian AntiVirus** if the recipient continues to use **Romanian AntiVirus**.
- The shareware version of **Romanian AntiVirus** may not be sold or licensed. Neither may a fee be charged for its use.
- Neither the software nor its documentation may be amended or altered in any way.
- Many BBSs and FTP sites add a small text file (advertisement) to each archived file. Other BBSs add a small message with their BBS name and phone number into the compressed file, which will display when the file is uncompressed. Either of these methods of mentioning your BBS or FTP site are acceptable and may be used, provided the program and documentation is otherwise unmodified and complete.

- You may not list **Romanian AntiVirus** in advertisements, catalogs, or other literature that describes our product as "**free software**". Shareware is "**try before you buy**" software, it is not free.
- By granting you the right to distribute the shareware version of **Romanian AntiVirus**, you do not become the owner of this software in any form.

Using the **Romanian AntiVirus** software means that you agree to these conditions.

Any other use, distribution or representation of the shareware version of **Romanian AntiVirus** is expressly forbidden without the written permission of GeCAD srl. All rights not expressly granted here are reserved to GeCAD srl.

Copyright

Romanian AntiVirus is owned and copyrighted by **GeCAD** and is protected by international copyright laws and international treaties. **GeCAD** reserves all the rights regarding **Romanian AntiVirus**. **GeCAD** authorizes usage of Romanian AntiVirus only in accordance with the terms and conditions stated in this agreement. You may not remove any copyright or proprietary notices from the Romanian AntiVirus.

Trademarks

The Romanian AntiVirus software is a registered trademark of GeCAD srl. All other product names mentioned are acknowledged to be the marks of their producing companies.

Evaluation period

You may use a shareware copy of the Romanian AntiVirus software for evaluation period of up to 30 days. The purpose of this evaluation period is to allow you to determine whether the program meets your needs before purchasing it. Once the evaluation period has ended, you agree to either purchase the full product, or to stop using it.

Updates

GeCAD reserves the right to update the contents of Romanian AntiVirus and its associated files, documentation and/or other elements, at its discretion from time to time, without the consent of or any obligation to, any licensed users or distributors.

Warranty

Romanian AntiVirus is provided "as-is". No warranties of any kind, express or implied, including but not limited to, implied warranties, of merchantability or fitness for any purpose with respect to the software are made as to it or any medium it may be on. GeCAD does not warrant that the operation of Romanian AntiVirus will be error free or meet any requirements. The warranty set forth above is in lieu of all other warranties whether oral or written. No one but GeCAD is authorized to make modifications or additions to this warranty.

Remedies. GeCAD will not be liable and will provide no remedy for lost data, lost savings, lost profits, special, incidental, consequential, punitive, indirect or any

other damages arising from negligence, strict liability, breach of warranty, breach of contract, even after notice of the possibility of such damages or for any claim by any other party.

Indemnification

You hereby agree to indemnify, hold harmless and defend GeCAD, owners' family, relatives, licensees, sub-licensees, distributors and lawyers against any and all damages, losses, claims, courses of action, lawsuits, liabilities, judgements and all expenses arising from, resulting to, or in connection with a breach of this agreement by you and arising from, relating to, or in connection with your use or non-use of Romanian AntiVirus.

Restricted Rights

Romanian AntiVirus and any related documentation is provided with restricted and limited rights. Use, duplication and disclosure by U.S. Government is subject to restrictions as set forth in the subdivision (b)(3)(ii) of the Rights in Technical Data and Computer Software Clause at 252.227-7013. If you are using this software outside the U.S. you agree to be bound by the applicable law in your country.

Term

Your right to distribute the shareware package terminates automatically if you violate any part of this agreement without notice from GeCAD. You can also terminate this agreement any time you wish.

By distributing the shareware package you acknowledge that you have read and understood this agreement and you agree to be bound by this agreement's terms and conditions. You also agree that this agreement is the complete and exclusive statement of the rights and liabilities of the parties and supersedes all proposals or prior agreements, oral or written and any other communication between the parties relating to the subject matter of this agreement.

If you do not agree with the terms and conditions of this agreement or do not understand any of them you should not distribute the shareware package.

Please Help Us Serve You Better

We would appreciate copies of anything you print regarding **Romanian AntiVirus**. Thank you for your time and assistance and for supporting the shareware marketing concept.

End User Licence Agreement for Romanian AntiVirus Shareware Version

This End User License Agreement (hereinafter referred to as "**agreement**") is a legal agreement between you, the user, and GeCAD srl for the computer program entitled Romanian AntiVirus Shareware Version including any enclosed documentation and/or accompanying items. This agreement states the terms and conditions upon which GeCAD srl offers to license Romanian AntiVirus.

This agreement is binding upon you as well as anyone taking any action with regard to your copy of Romanian AntiVirus at your direction or not. This applies to any third party as well.

You should carefully read the following terms and conditions before using Romanian AntiVirus. Unless you have a different license agreement signed by GeCAD srl your use of Romanian AntiVirus indicates your acceptance of this license agreement and warranty.

By continuing the installation of Romanian AntiVirus, running or copying it to a computer, you agree to be bound by the terms and conditions of this agreement.

Terms and Conditions

Licence

Romanian AntiVirus is licensed, not sold. Subject to the terms and conditions of this agreement, GeCAD srl grants you the limited right to use one (1) copy of the enclosed Romanian AntiVirus on any single computer. Solely for your own back-up purposes, you may make one (1) copy of Romanian AntiVirus in the same form as provided to you. You may not copy any of the printed material (if any) for any reason. You have no ownership or proprietary rights in or to Romanian AntiVirus. You agree that Romanian AntiVirus will not be used, in any manner, in violation of any applicable law.

Copyright

Romanian AntiVirus is owned and copyrighted by GeCAD srl and is protected by international copyright laws and international treaties. GeCAD srl reserves all the rights regarding Romanian AntiVirus. GeCAD srl authorizes usage of Romanian AntiVirus only in accordance with the terms and conditions stated in this agreement. You may not remove any copyright or proprietary notices from the Romanian AntiVirus.

Trademarks

Romanian AntiVirus is a registered trademark of the GeCAD srl. All other product names mentioned are acknowledged to be the marks of their producing companies.

General Usage

You may use the software for evaluation purposes only, for a period of maximum 30 days. If you decide to keep the software after the 30 days period, you must purchase a registered copy. Neither you, anyone at your direction, nor any third party, shall take the following

actions with regard to Romanian AntiVirus, or any portion thereof to modify, change, decompile, recompile, disassemble, reverse engineer, adapt, create derivative works, translate or reproduce Romanian AntiVirus. In any event, you will notify GeCAD srl of any information derived from reverse engineering or such activities and the results thereof will constitute confidential information of GeCAD srl which may be used only in connection with Romanian AntiVirus. If you seek interface information you should initially approach GeCAD srl.

Commercial Usage

Any commercial use is prohibited. Under no circumstances shall you, the end-user, be permitted, allowed or authorized to commercially exploit Romanian AntiVirus, or any portion thereof. Neither you, anyone at your direction nor any third party shall take the following actions with regard to Romanian AntiVirus, or any portion thereof to: sell, rent, lend, lease, commercially exploit or use Romanian AntiVirus for any commercial purpose.

Updates

GeCAD srl reserves the right to update the contents of Romanian AntiVirus and its associated files, documentation and/or other elements, at its discretion from time to time, without the consent of or any obligation to, any licensed users or distributors.

Distribution

The shareware package of the Romanian AntiVirus software may be distributed freely. Disk Vendors, Computer Clubs, BBSs and other vendors may charge a nominal fee for distribution of the program. The recipient of Romanian AntiVirus must be informed, in advance, that the fee paid to acquire Romanian AntiVirus does not relieve the recipient from purchasing the Licensed Version of Romanian AntiVirus if the recipient continues to use Romanian AntiVirus.

The shareware package of the Romanian AntiVirus software may not be sold or licensed. Neither may a fee be charged for its use. Neither the software nor its documentation may be amended or altered in any way.

Small additions to the package, such as the introductory or installation batch files used by many shareware disk vendors, are acceptable. Many BBSs add a small text file (advertisement) to each archived file. Other BBSs add a small message with their BBS name and phone number into the compressed file, which will display when the file is uncompressed. Either of these methods of mentioning your BBS are acceptable and may be used, provided the program and documentation is otherwise unmodified and complete.

By granting you the right to distribute the shareware package of the Romanian AntiVirus software, you do not become the owner of this software in any form.

Warranty

Romanian AntiVirus is provided "as-is". No warranties of any kind, express or implied, including but not limited to, implied warranties, of merchantability or fitness for any purpose with respect to the software are made as to it or any medium it may be on. GeCAD does not warrant that the operation of Romanian AntiVirus will be error free or meet any requirements. The warranty set forth above is in lieu of all other warranties whether oral or written. No one but GeCAD

is authorized to make modifications or additions to this warranty.

Remedies. GeCAD will not be liable and will provide no remedy for lost data, lost savings, lost profits, special, incidental, consequential, punitive, indirect or any other damages arising from negligence, strict liability, breach of warranty, breach of contract, even after notice of the possibility of such damages or for any claim by any other party.

Transfer

Neither this agreement nor any part or portion of it shall be assigned or sublicensed, except as described herein.

Term

This license and your right to use Romanian AntiVirus terminates automatically if you violate any part of this agreement without notice from GeCAD srl. You can also terminate this license at any time. You agree upon termination to destroy all copies of Romanian AntiVirus immediately. Upon termination GeCAD srl may also enforce any rights provided by law.

Indemnification

You hereby agree to indemnify, hold harmless and defend GeCAD, owners' family, relatives, licensees, sub-licensees, distributors and lawyers against any and all damages, losses, claims, courses of action, lawsuits, liabilities, judgements and all expenses arising from, resulting to, or in connection with a breach of this agreement by you and arising from, relating to, or in connection with your use or non-use of Romanian AntiVirus.

Restricted Rights

Romanian AntiVirus and any related documentation is provided with restricted and limited rights. Use, duplication and disclosure by U.S. Government is subject to restrictions as set forth in the subdivision (b)(3)(ii) of the Rights in Technical Data and Computer Software Clause at 252.227-7013. If you are using this software outside the U.S. you agree to be bound by the applicable law in your country.

Survival

Should any provision of this agreement be held to be void, invalid, unenforceable or illegal by a court, the validity and enforceability of the other provisions shall not be affected thereby. If any provision is determined to be unenforceable, you agree to a modification of such provision to provide for enforcement of the provision's intent, to the extent permitted by applicable law. Failure of a party to enforce any provision of this agreement shall not constitute or be construed as a waiver of such provision or the right to enforce the provision.

The following provisions shall survive the expiration or early termination of this agreement:

Entire Agreement

This agreement constitutes the entire agreement between you, and GeCAD srl and supersedes any prior written or oral agreement concerning Romanian AntiVirus. GeCAD srl is not bound by any action, statements, or any provisions made by anyone else. No modification or change in this agreement shall be valid or binding upon GeCAD srl unless in writing.

By using Romanian AntiVirus you acknowledge that you have read and understood this agreement and you agree to be bound by this agreement's terms and conditions. You also agree that this agreement is the complete and exclusive statement of the rights and liabilities of the parties and supersedes all proposals or prior agreements, oral or written and any other communication between the parties relating to the subject matter of this agreement.

If you do not agree with the terms and conditions of this **agreement** or do not understand any of them you should uninstall and destroy your copy of Romanian AntiVirus immediately.

Descriptions of Romanian AntiVirus

English Description

Short Description

Romanian AntiVirus combines a powerful scanner and a code emulator creating a product able to detect most advanced polymorphic, macro and Java viruses. With versions of DOS, Win95/98/NT, Windows NT Server and Novell NetWare, Romanian AntiVirus is able to detect over 14000 computer viruses. The registered version also includes data recovery programs, utilities to backup system areas and virus analysis tools.

Long Description

Romanian AntiVirus is a computer antivirus program able to detect and clean most viruses kinds, such as polymorphic, macro and Java viruses.

The polymorphic viruses are handled by the powerful RACE (RAV's Advanced Code Emulator) engine. RACE is capable of detecting most complex polymorphic viruses, and its impressive detection rate is confirmed by various independent reviews of Romanian AntiVirus.

The Romanian AntiVirus Macro engine (codenamed RAME) detects macro viruses, which are today's primary problem. The Romanian AntiVirus Macro Engine is not only able to detect known macro viruses which infect Word, Excel, Word97, Excel97 and Access97, but it is also capable of detecting new macro viruses using state of the art heuristics. RAME is also able to clean macro viruses, making it easy for you to recover from a virus infection.

The Romanian AntiVirus Java engine, (JEDI - Java Enhanced Disassembler/ Interpreter) is able to exactly detect Java viruses and malware, and of course to clean Java viruses, a facility maybe unique in the world.

Beside the above-mentioned modules, Romanian AntiVirus includes heuristic methods to detect new or unknown viruses in memory, such as the Bait Analysis and the AntiStealth tests.

Romanian AntiVirus is available for most popular OSes, such as Windows95/98/NT, DOS, Windows NT Server and Novell NetWare.

French Description

Description Courte

Romanian AntiVirus (RAV) combine un module d'analyse très puissant et un émulateur de code, l'ensemble constituant un produit capable de détecter les virus les plus évolués, qu'ils soient polymorphes, virus de macros ou Java. Avec des versions pour DOS, Win95/98/NT, Windows NT Server et Novell Netware, RAV peut détecter plus de 14.000 virus. La version enregistrée inclut également des programmes de récupération de données, des outils de sauvegarde des zones-système et des outils d'analyse de virus.

Description Longue

Romanian AntiVirus (RAV) est un programme antivirus capable de détecter et d'éradiquer la plupart des types de virus, qu'ils soient polymorphes, virus de macros ou Java.

Les virus polymorphes sont traités par un moteur très puissant baptisé RACE (l'acronyme de RAV's AdvancedCode Emulator = émulateur évolué de code RAV). RACE est capable de détecter la plupart des virus polymorphes complexes, et son taux de détection impressionnant est confirmé par diverses études indépendantes.

Les virus de macros, qui sont aujourd'hui le problème n°1, sont détectés par le moteur de RAV destiné aux macros (baptisé RAME, l'acronyme de RAV Macro engine). Le moteur de RAV destiné aux macros peut non seulement détecter les virus de macros connus qui infectent Word, Excel, Word97, Excel97 et Access97, mais également de nouveaux virus de macros en utilisant l'heuristique de pointe. RAME peut également détruire les virus de macros, vous permettant ainsi de vous débarrasser d'une infection.

Le moteur de RAV destiné à Java, (baptisé JEDI, l'acronyme de Java Enhanced Disassembler/Interpreter) peut détecter avec précision les virus de Java, et naturellement peut les détruire, un service qu'il est peut-être le seul à rendre au monde.

Outre les modules mentionnés ci-dessus, RAV inclut des méthodes heuristiques en vue de détecter des virus nouveaux ou inconnus présents en mémoire, tels que l'analyse d'amorce et les tests anti-furtifs.

Il existe des versions de RAV pour la plupart des systèmes d'exploitation, tels que DOS, Windows95/98/NT, Windows NT Server et Novell Netware.

German Description

Kurze Beschreibung

Romanian AntiVirus vereinigt einen leistungsfähigen Virens scanner und Codeemulator, welches ein äußerst geeignetes Produkt darstellt, das die höchstentwickelten Polymorpho-, Makro- und Javaviren erkennt. Mit Versionen von DOS, Win95/98/NT, Windows-NTSERVER und Novell NetWare kann Romanian AntiVirus über 14.000 Computerviren aufspüren. Die eingetragene Version beinhaltet auch Datenwiederherstellungsprogramme, Sicherungshilfsprogramme der Betriebssystembereiche und Virusanalysehilfsmittel.

Lange Beschreibung

Romanian AntiVirus (RAV) ist ein Antivirusprogramm, das in der Lage ist, die meisten Virusarten, wie Polymorpho-, Makro- und Javaviren aufzuspüren und zu beseitigen.

Die polymorphen Viren werden durch die leistungsfähige Maschine des RACE (RAV's Advanced Code Emulator) erfaßt. RACE ist zum Ermitteln der meisten komplizierten, polymorphen Viren fähig und seine ausgezeichnete Aufdeckungsquote wird durch verschiedene, unabhängig gemachte Studien von Romanian AntiVirus bestätigt.

Die Romanian AntiVirus-Makromaschine (RAME) spürt Makroviren auf, die heutzutage das primäre Problem darstellen. Die Maschine ist in der Lage, bekannte Makroviren zu erkennen, die Word, Excel, Word97, Excel97 und Access97 infizieren. Ebenso erkennt sie mit Hilfe der

heuristischen Suche - also der Suche nach virentypischen Merkmalen - auch neue Makroviren. RAME kann außerdem die Makroviren vollständig entfernen, was es Ihnen erleichtert, sich von einem Virusinfekt zu befreien.

Die RAV-Java-Maschine (JEDI - Java Enhanced Disassembler/ Interpreter) kann die Javaviren genau erkennen und sie dann natürlich auch beseitigen, was einen enormen Vorteil bietet, der wahrscheinlich einzigartig auf dieser Welt ist.

Neben den oben erwähnten Modulen umfaßt Romanian AntiVirus heuristische Verfahren, um neue oder unbekannte Viren im Speicher, wie bei der Köderanalyse und den AntiStealth-Tests, aufzuspüren.

Romanian AntiVirus Versionen existieren für die meisten populären OSes, wie Windows95/98/NT, DOS, Windows-NTSERVER und Novell NetWare.

Spanish Description

Descripción Corta

Romanian AntiVirus combina un explorador de gran alcance y un emulador del código que crean un producto capaz de detectar y de limpiar la mayoría de las clases de los virus, tales como polimórfico más avanzado, macro y virus de Java. Con versiones del DOS, de Win95/98/NT, del Servidor de Windows NT y de la Novell NetWare, Romanian AntiVirus puede detectar concluído 14000 virus del ordenador. La versión registrada también incluye programas de la recuperación de los datos y las herramientas del análisis del virus.

Descripción Larga

Romanian AntiVirus es un programa del antivirus del ordenador capaz de detectar y de limpiar la mayoría de las clases de los virus, tales como polimórfico, macro y virus de Java.

Los virus polimórficos son manejados por el motor de gran alcance nombrado RACE (RAV's Advanced Code Emulator). La RACE es capaz de detectar la mayoría de los virus polimórficos complejos, y su tarifa impresionante de la detección es confirmada por varias revisiones independientes de Romanian AntiVirus.

El motor macro de Romanian AntiVirus (RAME) detecta los virus macro, que son problema primario de hoy. El motor macro de Romanian AntiVirus puede no solamente detectar los virus macro sabidos que infectan Word, Excel, Word97, Excel97 y Access97, pero es también capaz de detectar virus macro nuevos usando la heurística avanzada. RAME puede también limpiar los virus macro, haciéndolo fácil para que usted se recupere de una infección del virus.

El motor Java de Romanian AntiVirus, (JEDI - Java Enhanced Disassembler/ Interpreter) puede detectar exactamente los virus y el malware de Java, y por supuesto para limpiar los virus de Java, un recurso quizá único en el mundo.

Al lado de los módulos antedichos, Romanian AntiVirus incluye métodos heurísticos para detectar virus nuevos o desconocidos en memoria, tal como el análisis del cebo y las pruebas de AntiStealth.

Romanian AntiVirus está disponible para la mayoría del OSes popular, tal como Windows95/98/NT, DOS, Servidor de Windows NT y Novell NetWare.

Technical Support

Technical Support is provided, for product's lifetime, online or by e-mail from the moment when you purchase **Romanian AntiVirus**. Before asking for technical support, however, we ask that you follow a few steps first in order to allow us to better serve you:

Please follow these steps. In doing so, you help us control our support load, which allows us to dedicate more resources to the most serious issues.

Step #1: Read the documentation thoroughly. Almost all technical support issues are covered in the help file.

Step #2: Visit our websites <http://www.shareware.ro>, <http://www.gecad.ro> or <http://www.rav.ro>. There may be updated information on this site that answers your question.

Step #3: Make sure you are running the most current version of the software. You can see what version you have by running the software and clicking on the **INFO** button. The most current version is always available at our website: <http://www.shareware.ro/updates.htm>. If there is a more current version available, download it and install it. Your problem may simply be an issue related to a non-current revision of the software. In fact, this is the most common technical support issue.

Step #4: Please read the fine print (and have fun).

Consult your physician before starting this program. Batteries not included. May cause drowsiness. Must be over 17. Not available in all states. Not responsible for acts of God. Read label before using. Some assembly required. Not responsible for typographical errors. Some restrictions apply. Subject to local regulation. Close cover before striking. No resemblance to any person, living or dead, is intended. Subject to availability. Local restrictions may apply. For external use only. May cause excitability. Avoid alcoholic beverages while using this software. Use caution while operating mechanical devices. If symptoms persist, consult your physician. Keep this and all software out of the reach of children. May be unsuitable for sensitive people. Parental guidance suggested. Do not use this software if you are currently taking a drug for depression. Neither the seller nor the manufacturer will be liable for any brain damage arising from the use of this software. The buyer assumes all risks associated with using this product. In case of irritation, flush eyes with cold water and consult your physician. This software is not a savings account and is not insured by the Federal Deposit Insurance Corporation. Use with adequate ventilation. Avoid prolonged or repeated contact with skin. Contents under pressure; do not puncture or incinerate. Store in original containers. Always replace sleeve before discarding any computer disk. Get medical attention if symptoms persist. Harmful if swallowed. Do not remain in enclosed areas after use. No vaseline required.

Step #5: If your problem is still not resolved, then:

- Get technical support online at: <http://support.gecad.ro>.
- Print out the form below and mail it to **GeCAD srl**, Str. Gh. Petrascu 53, Bl. PM53, Sc. A, Et. 1, Ap. 8, 74506 Bucharest, Romania, or fax it to us on +40 1 324 84 09. Alternatively, copy it to your word processor, fill in the blanks and email the text file to support@gecad.ro. Thank you!

PROBLEM REPORT FORM

Although we have tested the **Romanian AntiVirus** software, some bugs may get by us, or you may have incompatible hardware or software that we do not have to test.
