# **Quick View Plus 5.0**

PowerPoint 97 Sample Presentation

# Quick View Plus<sup>®</sup>

*The Industry-Leading File Viewer*

## **QVP: Who needs it?**

People who...

- encounter file types not known to or supported by their applications.
- wish to gain efficiency by viewing files rather than launching an application
- encounter native documents on the Internet/Intranet
- receive email with native document attachments

# Quick View Plus<sup>®</sup>

*The Industry-Leading File Viewer*

## **Corporate/Gov't Organizations that...**

- have disparate computing environments
- use email or groupware applications with limited or no embedded viewing technology
- are implementing an intranet
- have significant numbers of mobile users
- transitioning to new operating systems and/or new apps with no backward compatibility

# Quick View Plus<sup>®</sup>

*The Industry-Leading File Viewer*

## **QVP Features & Benefits**

- View, import and print files in 250 + formats quickly and easily without having the native application.
- Saves time, minimizes user frustration, expands access to information, and eliminates the expense of seldom used applications.

**Quick View Plus**<sup>®</sup>  
*The Industry-Leading File Viewer*

## **Email Integration**

- Seamlessly integrates into major email applications allowing users to view and print attachments quickly and easily within the email application.
- Allows the email recipient uninterrupted focus on the content of the communication.

**Quick View Plus**<sup>®</sup>  
*The Industry-Leading File Viewer*

## **Explorer Integration**

- Seamlessly integrates in MS Explorer providing instant access to the context of all files.
- Adds significant efficiency to file and information management tasks.

**Quick View Plus**<sup>®</sup>  
*The Industry-Leading File Viewer*

## **Browser Integration**

- View and print non-HTML files from within Netscape Navigator and Microsoft Internet Explorer.
- Vehicle for distributing information via a corporate intranet without the hassle, time, and expense required for HTML conversion.

**Quick View Plus**  
*The Industry-Leading File Viewer*

## **Shell Functionality**

Allows QVP to “host” 3rd party plug-ins

- Including Quicktime, Adobe Acrobat, Corel CMX, Envoy, Shockwave Flash, Flying Carpet, PNG Live, Shockwave Director, Softsource SVF, Softsource DWG, Live Audio, AVI Player)
- Adobe Acrobat is included in QVP 5.0
