Where can I obtain GadgetWare products?

Mouse Odometer

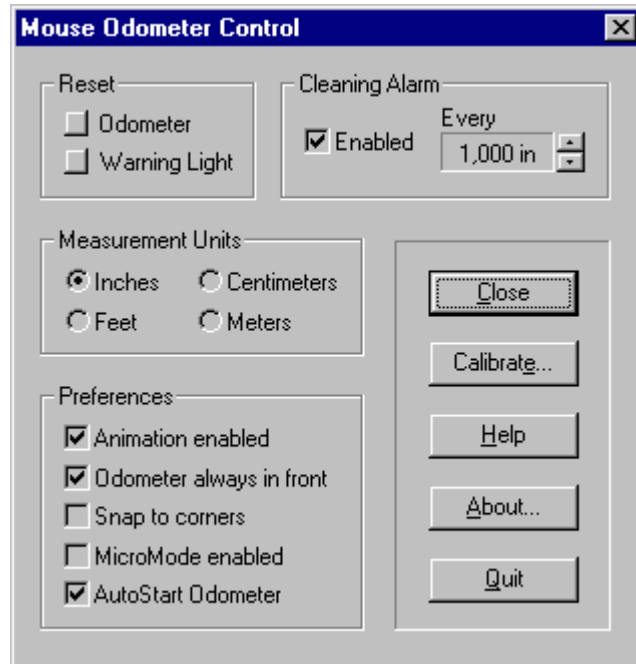

How far do you drag your mouse every day? With Mouse Odometer you'll soon know!

Mouse Odometer maintains a cumulative total of your "mouse miles" as well as being an attractive addition to your virtual desktop. Mouse Odometer also promotes proper "mouse maintenance" with its unique alarm system. After you've dragged your mouse a selected distance, Mouse Odometer will flash its warning light letting you know it's time to clean that mouse!

System Requirements: Windows 95 or Windows 3.1x; a mouse

Registration Fee: \$5.00 (US)
Overseas orders please add \$1.00 for airmail postage.

Match Maker

Match Maker is a fun memory game for one or two players. Players take turns uncovering pairs of tiles to reveal hidden pictures. If the pictures match, the player is awarded 25 points. But, watch out! If the pictures revealed aren't the same, they are covered again and five points is deducted from the player's score. Try to remember what pictures were behind the those tiles, 'cause they'll be there waiting for you later!

System Requirements: Windows 95 or Windows 3.1x; a mouse; sound card recommended

Registration Fee: \$5.00 (US)

Overseas orders please add \$1.00 for airmail postage.

TinyCalc

Have you ever wanted a Windows calculator that didn't take up most of the screen? Are you frustrated with bashful calculators that disappear behind your spreadsheet? Are you tired of digging under that stack of papers on your desk to find your hand-held calculator?

TinyCalc is a standard 4-function infix notation calculator that uses only a fraction of the screen. It sports a retractable keyboard making it one of the smallest calculators around! Plus, TinyCalc will sit boldly on top of all other windows for easy access. And if that wasn't enough, you'll enjoy the Auto-Clipboard feature that simplifies that mundane chore of copying and pasting.

System Requirements: Windows 95 or Windows 3.1x

Registration Fee: \$5.00 (US)

Overseas orders please add \$1.00 for airmail postage.

SmallTime

SmallTime is a handy little utility timer designed with an emphasis on simplicity and ease-of-use. It will remind you of an event occurring up to 99 minutes and 59 seconds later. It features five unique alarm sounds and four display styles all in an attractive package that looks nice on your Windows desktop.

System Requirements: Windows 95; a mouse; sound card recommended

Registration Fee: \$5.00 (US)

Overseas orders please add \$1.00 for airmail postage.

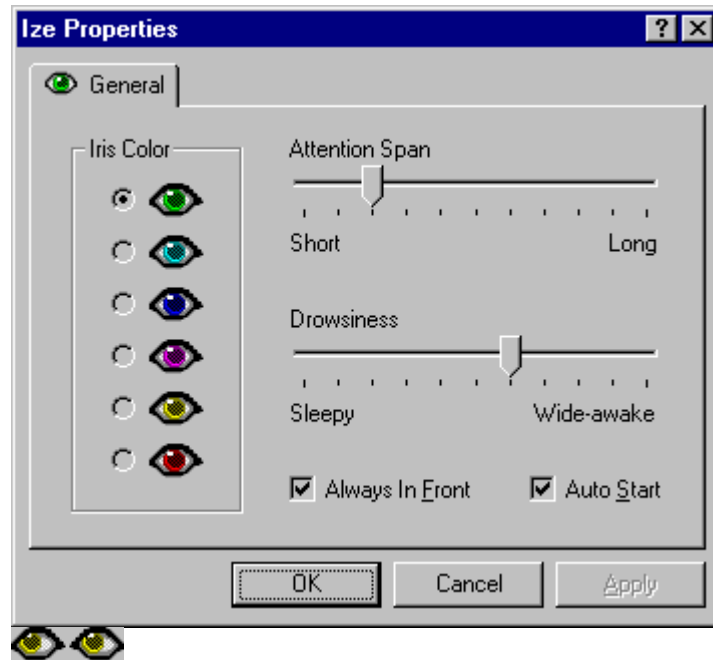

Ize

Ize is a fun addition to your Windows 95 desktop. Ize provides a pair of realistic-looking animated eyes that follow your mouse cursor, in Orwellian splendor, as you move it around the screen.

System Requirements:
Windows 95; a mouse

Registration Fee: \$5.00 (US)
Overseas orders please add
\$1.00 for airmail postage.
