

2 Department/Employee Master Detail Forms

Name: DeptEmp Form (Oracle Data Control Version)

DatabaseName: ExampleDb

Database Table(s): ANY

Files: dempodc.bad, dempodc.frm, dempodc.mak, oradc.vbx

Purpose: A simple Dept-Emp Master detail form using 2 Oracle Data Controls(ODC). This sample only contains a small amount of code mostly used to set properties of the 2 data controls and to refresh them. Notice that only one connection to Oracle is used since both data control's share the same login information.

Name: DeptEmp (Oracle InProc Version)

DatabaseName: ExampleDb

Database Table(s): ANY

Files: dempoip.bad, dempoip.frm, dempoip.mak

Purpose: A simple Dept-Emp Master detail form which does all of the data access programatically. Notice that only one connection to Oracle is used since both data control's share the same login information.
