## European Union Data

NUTS files (Nomenclature of Territorial Units for Statistics) were established by

Eurostat, the Statistical Office of the European Communities. These files provide a

single uniform breakdown of territorial units for the purpose of regional statistics.

NUTS files divide the European Union (EU) countries into three levels based

on the standard administrative boundaries of the member states.

The worksheets EU\_A.WK4 and EU\_B.WK4 contain NUTS 1 data for all

members of the EU with the following exception: Denmark, Ireland and

Luxembourg are included at the NUTS 0 level. Eurostat has also defined NUTS 1

regions for Denmark, Ireland and Luxembourg.

Those cells that are blank represent regions where Eurostat has not reported

data.
