Other programs by Thomas Zeh:

TZ.-Minigolf for Windows V1.0

TZ-Minigolf is a very easy and comfortable to play miniature golf simulation including sounds and music. Just drag the mouse pointer to aim the ball and control the strenght of your hit.
The full version consists of 18 nicely designed levels, unregistered users are restricted to six levels. Registration fee is 25 US $.or 45 000 Lira.

Our erotic games for Windows:

Strip Poker for Windows V1.04

Strip Poker simulates a female opponent who will undress if she loses her money. But these girls really know how to play and it might cost you some time to gain access to all the 25 'R'-rated SVGA pictures in resolutions 640 to 480 or 800 to 600. In the unregistered version you can only challenge one of the five girls and you will only see four of her five pictures.

Stripoid for Windows V1.0

Stripoid is a fast and flickerfree gamble-hall style breakout-clone. In each level there are three magic stones. If you hit them more and more of one of the 25 'R'-rated pictures will be revealed to you. Stripoid contains speech and music samples and 50 original levels (four of them playable for unregistered users). Registered users can create their own levels using a very comfortable level-editor.

TZ-Strip Black Jack for Windows V1.0

TZ-Strip Black Jack lets you play against five nice girls who look sweet but play tough. Nice speech and music samples are included as well as a zooming utility to closely watch the 25 'R'-rated pictures (five from each girl). Included are instructions to learn how to play this game strategically and not only with good luck.

TZ-Strip Roulette for Windows

TZ-Strip Roulette again contains speech and music samples as well as 25 'R'-rated pictures of five girls holding the bank. To turn this game of luck a little into a game of skill you can stop the ball by using a brake. If you considered other computer roulettes boring you will still enjoy this one.

Minimum system requirements for all the games are:
IBM-compatible PC 386, 4 MB RAM, VGA graphics adapter with at least 256

colours, Windows 3.1, Harddisk.
