

We wanted to let you know some of the reasons Mercury Sports has chosen to standardize on Lotus Ami Pro. Ami Pro imports over 35 types of documents, including WordPerfect 5.1 documents. Text attributes such as UNDERLINING, *Italic*, and **BOLD** are no trouble for Ami Pro.

What about indents and tabs? Ami Pro saves users time and the hassle of reformatting other documents.

WordPerfect graphics can be edited in Ami Pro:

WordPerfect tables are imported into Ami Pro documents:

	PC's	Printers
Finance	25	6
Legal	17	5
Training	22	10

We look forward to working with Ami Pro.
