Play around with these and the Skill Level settings to find the right match for you.

Vertical Gun Reverse

This setting will reverse the way in which the gun moves when you move the mouse. OFF will move the gun UP as you move the mouse UP. OFF will move the gun DOWN as you move the mouse DOWN.

ON will move the gun UP as you move the mouse DOWN.
ON will move the gun DOWN as you move the mouse UP.

Game Play

With each timed, or non-timed (registered version-only) round you will try to shoot down as many ducks as possible. Your shotgun holds 3 shells maximum. The Ducks will fly in from the right, left, and from off of the river in the main view. Some Ducks are worth more points based on thier current flying speed. Each Duck will have a different speed...faster Ducks are worth 10 points, and some Ducks will only be worth 5 points.

When Ducks are coming in listen carefully.
Ducks coming from the RIGHT will "Quack" from the RIGHT speaker.
Ducks coming from the LEFT will "Quack" from the LEFT speaker.

Don't forget to lead the Ducks a bit when you're aiming at them !

Be careful not to shoot your hunting dog !

See just how many Ducks you can down in the least amount of time !
Have competition with friends and family based on timed games to see who is the hottest hunter !

Good Luck and Happy Hunting !!!
