BattleStar is a single-player game similar to the classic BattleShip. The BattleStar game board is a 9x9x9 grid representing a 3-D galaxy. The galaxy contains 927 sectors, 60 of which contain enemy warships. You must locate and destroy these enemy invaders before they can establish bases in the galaxy.

If you have comments, questions or find any bugs in BattleStar feel free to contact me on CompuServe or America Online.
