

## Introduction

Puzzle-8 is a computerized version of the well-known 8 tile puzzle.

## Required Hardware and Software

Microsoft Windows 3.1 or later.

## Installing the Program

Using the MS-DOS shell, or the Windows File Manager, create a subdirectory for the program. For example:

```
MKDIR C:\PZL8
```

Then copy all files from the distribution disk into the subdirectory. For example:

```
COPY A:\*.* C:\PZL8
```

The program is made up of the following files: PZL8.EXE, PZL8.HLP, and USERS\_GD.WRI.

Using the Windows Program Manager, select the File menu and the New submenu. Then select the Program Group button and the OK button. Enter Puzzle-8 in the Description field and select the OK button.

Select the File menu and the New submenu again. This time, select the Program Item button and the OK button. Enter Puzzle-8 in the Description field, and enter the location of the program in the Command Line field, for example:

```
C:\PZL8\PZL8.EXE
```

Select the OK button.

The program is now installed.

## Running the Program

After starting the program, if you need further instructions, select the Help button with the mouse.

## Distribution and Payment

Puzzle-8 may be freely copied without cost, provided it is not changed in any way. If you find the program useful, please send \$5.00 to:
