This patch corrects these problems:

- Falling / get stuck through floor or surface.
- Zooming in sniper / binoculars mode - zoom reset after movement.
- Dropping weapons held in hands in 1st person mode when laying - object still shown.
- Tank problems (turrets after destroying, driving tank if driver is enemy soldier).
- Improved internet gameplay, latency and sync problems.
- Random deaths at missions with trains/trams (Italy1, Danube2).
- Loading saved game - soldiers standing in vehicles, or laying soldiers floating in air.
- Improper item saving in game profile after mission finished.
- Great slow-down in campaign 1 missions 5,6 and few other missions within the game.
- Hanging after few minutes of playing.
