- Copyright Information

Introduction

Web Scrapbook is one of the fastest way's to create a web site . You just fill in the information, and away it goes. Using Web Scrapbook, you can have a web site designed, constructed, and on the Internet in five minutes!

System Specifications

Minimum Specifications

The minimum system requirements for Web Scrapbook are:

- Intel Pentium P133 or higher
- 32MB of RAM
- 1MB Video RAM
- Sound card
- Microsoft Windows 95 or Windows NT 4.0
- Microsoft Internet Explorer / Netscape Navigator
- 14.4kbps modem

Recommended Specifications

The recommended system requirements are:

- Intel Pentium P166 or higher
- 32MB of RAM
- 2MB Video RAM
- Sound card
- Windows 95 or Windows NT 4.0
- Internet Explorer 4
- 33.6kbps modem

Disk Space Requirements

The disk space requirements for Web Scrapbook are:

- Web Scrapbook system files 14.3Mb
- Microsoft Agent files 4.5Mb

Uploading Notes

It is recommended that you have an Internet connection. If you are not with an ISP (Internet Service Provider, such as *Demon Internet*, *MSN*, or *LineOne*) then you will NOT be able to upload your web site onto the Internet. Before you upload your web site, you will also need the following information:

- Your ISP FTP address
- Your internet username
- Your internet password
- Your homepage address

If you don't know this information, then contact your ISP or look for information about uploading homepages on their web site.

Software Issues

Internet Browsers

Web Scrapbook has been tested using the following Internet browser software:

- Netscape Navigator, Version 4.0
- Microsoft Internet Explorer, Version 3.2
- Microsoft Internet Explorer, Version 4.0

Web Scrapbook encountered no errors whilst using the browser software. However, if you have a browser (such as Mosaic) that hasn't been tested with Web Scrapbook, you may encounter some problems whilst running Web Scrapbook

Windows 95

Web Scrapbook was developed under the Windows 95 operating system version and has encountered no problems whilst running. However, Web Scrapbook has not been tested with the Microsoft Windows 95 Plus! pack installed.

Windows 98

Web Scrapbook has been extensively tested under Microsoft Windows 98 and there were no software problems while it was running.

Microsoft Agent

Web Scrapbook uses Microsoft's Agent technology to provide you with an assistant who guides you through the creation process. All the necessary software has been included on the installation CD and is automatically installed by Web Scrapbook.

If you have a sound card, a speech processor is also installed, allowing you to listen to the Agent's instructions and advice.
