Micrografx End-User License Agreement

This is a legal agreement between you (an individual or an entity), the end user, and Micrografx, Inc. If you do not agree to the terms of this Agreement, promptly return this product and accompanying items (including written materials and binders or other containers) to the place you obtained them for a full refund. By installing, copying, downloading, or otherwise using the software product, you agree to be bound by the terms of this license.

1. GRANT OF LICENSE. This Micrografx End-User License Agreement ("this License") permits you to use one copy of the Micrografx software product ("the Software") on any single computer. If the Software is permanently installed on the hard disk or other storage device of a computer, then the person authorized to use such computer also may use the Software on a portable computer, laptop or home computer so long as the Software is not used on both computers at the same time. If such person's authorization to use such computer ceases for any reason (e.g. termination of employment), then such person's authority to use the software on a portable computer, laptop and home computer will cease. The Software is licensed as a single unit, and its component programs may not be separated for use on different computers. You must acquire and dedicate a license for each separate computer on which the Software is installed or run from the storage device. A License for the Software may not be shared or used concurrently on different computers. Installation and/or usage on a network server requires a License for every user who accesses the Software at any time.

2. OWNERSHIP. Title, ownership rights, and intellectual property rights in and to the Software will remain in Micrografx and is protected by United States copyright laws and international treaty provisions. There is no transfer to you of any title to or ownership of the Software and this License should not be construed as a sale of any right in the Software. You must treat the Software like any other copyrighted materials, except that you may either (a) make one copy of the Software solely for backup or archival purposes, or (b) transfer the Software to a single hard disk provided that you keep the original solely for backup or archival purposes. You may not copy written materials accompanying the Software. You may use the Software in your own personal and business documents as long as you are not selling the output generated by the Software or any related services. You may modify the Software and/or merge it into another computer program to the extent necessary for your own use on the network or computer, but any portion of the Software merged into another computer program will continue to be subject to this License.

3. UPGRADES. If the Software is labeled as an upgrade, you must be properly licensed to use a product identified by Micrografx as being eligible for the upgrade in order to use the Software. The Software labeled an "upgrade" replaces and/or supplements the product that formed the basis for your eligibility for the upgrade. The upgrade may not be separated for use from the product, or transferred separately or used on more than one computer except as set forth above.

4. OTHER RESTRICTIONS. This License is your proof of license to exercise the rights granted herein and must be retained by you. You may not rent or lease the Software, but you may transfer your rights under this License on a permanent basis provided that you transfer this License, the Software and all accompanying written materials, you retain no copies, and the recipient agrees to the terms of this License. You may not translate, decompile, or disassemble the Software or make any attempt to discover the source code to the Software. If the Software is an update, any transfer must include the update and all prior versions. Further, you may not place the Software onto a server so that it is accessible via a public network such as the Internet.

5. MULTIPLE MEDIA. You may receive the Software in more than one medium. Regardless of the type or size of the medium you receive, you may use only the media appropriate for your single designated computer or network server. You may not use any other media on another computer or computer network, or loan, rent, lease, or transfer them to another user except as part of a transfer or other use expressly permitted by this License.

6. LIMITED WARRANTY. MICROGRAFX WARRANTS THAT THE SOFTWARE WILL PERFORM SUBSTANTIALLY ACCORDING TO THE ACCOMPANYING WRITTEN MATERIALS FOR NINETY (90) DAYS FROM THE DATE OF ORIGINAL PURCHASE. MICROGRAFX DISCLAIMS ALL OTHER WARRANTIES., EITHER EXPRESS OR IMPLIED (INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OR MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) CONCERNING THIS SOFTWARE AND ITS ACCOMPANYING WRITTEN MATERIALS. Some jurisdictions do not allow limitations on duration of an implied warranty, so the above limitation may not apply to you. This limited warranty gives you specific legal rights. You may have others which vary by jurisdiction.

7. REMEDIES. Micrografx's entire liability and your exclusive remedy will be replacement of the Software by Micrografx that does not meet Micrografx's Limited Warranty and that is returned to Micrografx with a copy of your receipt. This Limited Warranty is void if failure of the Software has resulted from accident, abuse, or misapplication. Any replacement Software will be warranted for the remainder of the original warranty period or thirty (30) days, whichever is longer.

8. LIMITATION OF LIABILITY. In no event will Micrografx or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of

business information, or other pecuniary loss) arising out of the use or inability to use the Software, even if Micrografx has been advised of the possibility of such damages. Because some states do not allow the exclusion or limitations of consequential or incidental damages, the above limitations may not apply to you.

9. EXPORT RESTRICTIONS. You may not export or reexport the Software or any underlying information of technology except in full compliance with all United States and other applicable laws and regulations.

10. U.S. GOVERNMENT RESTRICTED RIGHTS. The Software and documentation are provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the government is subject to restrictions as set forth in subparagraph (c) (1) (ii) of the Rights in Technical Data and Computer Software clause as DFARS 252.227-7013 or subparagraphs (c) (1), and (2) of the Commercial Computer Software-- Restricted Rights at 48 CFR 52.227-19, as applicable, and any amendments thereto. Contractor/manufacturer is Micrografx, Inc., 1303 Arapaho Rd., Richardson, TX 75081, USA.

11. MISCELLANEOUS PROVISIONS. This License is governed by the laws of the State of Texas, USA (and not by the 1980 United Nations Convention on Contracts for the International Sale of Goods, as amended). This is the entire agreement between us relating to the Software and supersedes any purchase order, communication, advertising, or representation concerning the Software. No change or modification of this License will be valid unless it is in writing and is signed by Micrografx. If this Software was acquired outside the United States, then local law may apply. If you acquired this Software in Canada, you agree to the following:

The parties to this License have expressly required that the License be drawn up in the English language.

Les parties aux presentes ont expressement exige que las presente convention soient redigees en langue anglaise.

For more information about Micrografx's licensing policies, please call Micrografx Customer Service at 972-234-1769, or write: Micrografx Customer Sales and Service, 1303 Arapaho Rd., Richardson, TX 75081, USA.

Micrografx Software License Agreement Frequently Asked Questions

What is the significance of the Micrografx software license agreement? The license agreement is the document under which Micrografx grants you, the end user, the right to use the software product. In addition to the end user license agreement, your use is governed by the U.S. Copyright Act.

How has Micrografx changed its end user licensing policy? Micrografx has changed its end user license agreement to simplify how its products are licensed for home, portables, and laptop use.

What does the license say? The underlying principle of Micrografx's licensing policy is that each use of a Micrografx product requires a license. Each license grants you the right to use one copy of the software product on your computer. In addition, the license sets out the rules by which you may use the product on a computer network.

What defines "in use"? 1) Loaded on the hard disk. 2) A single computer accessing the product from a server.

How do I determine how many licenses I need for my company to comply with the Micrografx license agreement? Starting with the principle that you need one license for each computer that uses the product, there are two basic rules that you need to follow in counting the number of "licenses" in your company. First, each copy of the product that is installed on a hard disk or other storage device of a computer is a "use" that requires one license. Second, if you plan to use the product on a computer network, and you have fewer licenses than the total number of workstations, then you need to determine the maximum number of computers that will use the product. The total number of "uses," arrived at by adding the number of copies that you will have installed on hard disk plus the maximum number of uses on a network, determines the number of licenses you need.

How do I determine the "maximum number of users" in my company's computer network? To comply with the Micrografx license agreement, you must have adequate controls and mechanisms in place to ensure that you have at least as many licenses as you have users of the network. While there is no single method that Micrografx requires or prescribes, you must have electronic or manual controls or procedures to justify your calculation of the number of licenses. For example, there are electronic devices and software programs that limit access to particular products running off a network server that would comply with this requirement (see the next question about "electronic token" technologies).

If I load the product on the hard disk of every workstation on the network, can I still count the number of users so I don't have to purchase a license for every workstation? Is the answer different if I use the so-called "electronic token" technology to limit the actual number of users? No. And no. Loading the product onto the hard disk or other storage device of a network workstation is a "use" that requires a license. It makes no difference if you have an "electronic token" system to regulate use. Of course, if you transfer or "download" the product from the server to a workstation's hard disk, which requires one license, you may later completely delete the product off that hard disk to free up that one license for use elsewhere.

Do I need a separate license for the copy of the product on the server? No. You need not count the server as one "use," provided that the server copy is merely accessed by the workstations connected to it and not used separately.

If I have a Micrografx application loaded into the temporary memory (RAM) of my network, but it is iconized and not actively in use, is a license required? Yes. We consider that you are "using" one of our products whenever it is loaded on your hard disk or in RAM. Thus, a program that is iconized requires a license because it was first loaded into memory, or RAM.

Does Micrografx continue to allow end users to make a second copy of its application for home and laptop use? Yes. If you have a Micrografx product loaded on the hard disk or other storage device of your computer, then you may make a second copy for home and laptop use so long as the Software is not used on both computers at the same time. The principle here is to allow you to use the Micrografx product even when you are away from work, either at home or while traveling. However, this does not apply to products that are loaded on the network server. (Some companies have their own restrictions on home software use, so you may need to check with your systems administrator on this topic.)

Is this Micrografx license a site license? If not, how does it differ? This Micrografx end user license is not a site license because each use requires a separate license.

How to Get Technical Support

Getting the most out of your investment is central to your success. That's why we have developed a fee-based support program for registered users in the U.S. and Canada that delivers fast, flexible, and comprehensive service for the Micrografx products you own. This program is backed by our commitment and all the resources necessary to provide you with the service you expect.

Our staff of experienced technical advisors are specialists in the critical areas and applications important to you. Our experts can assist callers quickly and efficiently.

You will have 30 days of free support following your first call to our technical support staff. Thereafter, whether you want full-service coverage or occasional support for your Micrografx products, you will like the flexibility of choosing only those services you need.

You can receive technical support from a technical support advisor between the hours of 7:00 a.m. and 5:00 p.m. (Central time), Monday - Friday.

Complimentary Support

Registered Micrografx Simply3D 3 (full version) customers are entitled to thirty days of complimentary support. Be sure to have your serial number (from the back cover of the manual) ready when you call. To contact technical support during this time, call (972) 234-2694. Technical support is not available for the trial version.

You may fax your questions to (972) 644-3688.

Contact Micrografx through the Internet at <http://www.micrografx.com>.

Fee-Based Support

If you have an ongoing need for support, Micrografx offers a fee-based support program for registered users in the United States and Canada that delivers fast, flexible, and comprehensive service.

Caller's Choice

Our Caller's Choice Support provides you with a dedicated technical advisor on an as-needed basis. You can choose between paying a flat rate for each call or paying by the minute with our priority access 900-line service. Choose the option that fits your needs by calling (972) 234-2694.

MGX Annual Plans

Our MGX Annual Plans give you priority access and instant answers to your important questions while eliminating toll charges on your phone bill. This is a cost-effective solution for individuals or corporations who need frequent support for Micrografx products. Order these plans by calling (972) 234-2694.

International Support

You can receive technical support for areas outside the U.S. and Canada. Call the following telephone numbers and ask about support options.

<u>Country</u>	<u>Phone</u>	<u>Fax</u>
Australia	(+61) 02 9415 2642	(+61) 02 9415 2641
Japan	(+81) 03 5379 3135	(+81) 03 5379 3133
New Zealand	(+64) 09 376 7888	(+64) 09 376 7887
Europe	Refer to the material inside the box for technical support telephone numbers

[How to Get Technical Support](#)

I can't find the icon. How can I run the program?

You can run Micrografx Simply3D 3 by clicking the Start button on the Windows 95 Taskbar. On the Start menu, point to Programs and then click Simply3D.

You also can create a shortcut to the program. To learn how, click the Start button on the Windows 95 Taskbar. On the Start menu, click Help. In the Help Topics dialog box, click the Index tab and type the word "icon." In the second list, double-click "creating icons for your programs."

Why isn't the Send option working?

If you've installed MSMail 3.0 mail client software on your system after uninstalling Microsoft Exchange, you can't use the Send option in Simply3D. You should use Microsoft Exchange as the mail client software on your Windows 95 system rather than MSMail 3.0.
