CYBERSTONE ENTERTAINMENT CD-ROM Fejlesztő és Kiadó Kft.

1995-ben a multimédia robbanásszerű piaci megjelenésével, egy új, kiadói és fejlesztői munkával foglalkozó cég, a **CYBERSTONE ENTERTAINMENT KFT.** alakult meg.

Az újonnan alakult cég a színvonalas, minőségi kiadványok létrehozását tűzte ki céljául. A folyamatosan növekvő piaci igényeknek megfelelően a CYBERSTONE ENTERTAINMENT KFT. egyre több magyar nyelvű CD-ROM szoftvert jelentetett meg. Megalakulásától az 1996-os év végéig 20 multimédia szoftver jelent meg a hazai piacon, míg az 1998-es év végére ez a szám elérte az 100-as tételszámot.

A megjelentetett szoftverek között található tudományos, enciklopédikus, játék, oktató jellegű kiadványok. Nagy jelentőségűek az oktató jellegű kiadványok, melyek közül több nyertes tételként szerepelt a Művelődési és Közoktatási Minisztérium által kiírt "Sulinet – Multimédia Kezdőcsomag" elnevezésű pályázaton. Ezen kiadványok közül is a legsikeresebbnek az EPA gondozásában megjelent **LANGMaster angol nyelvoktató** sorozat magyar nyelvű változata bizonyult.

Jelenleg is számos magyar, valamint többnyelvű szoftver fejlesztése van folyamatban, melyek témáikkal széleskörű, színvonalas és minőségi választékot fognak biztosítani a felhasználók számára mind a hazai, mind a nemzetközi piacon.

Az 1999. évben várhatóan megjelenő kiadványok révén a cég már több mint 180 kiadványt mondhat magáénak a magyar multimédiás szoftverpiacon.

A cél továbbra is az igényes multimédia szoftverek fejlesztése és kiadása, a vásárlóközönség színvonalas, minőségi kiadványokkal történő kiszolgálása, támogatva ugyanakkor minden más minőségi és piacképes multimédia program fejlesztését, kiemelt fontosságot tulajdonítva a legsikeresebb külföldi CD-ROM kiadványok honosításának is.

CYBERSTONE ENTERTAINMENT CD-ROM Developer and Publisher Ltd.

In 1995, with respect to the increasing demands for Hungarian software in the local market, a new software development and publishing company, **CYBERSTONE ENTERTAINMENT Ltd.**, was founded

The main aim of CYBERSTONE ENTERTAINMENT Ltd. is to produce multimedia programmes of the highest quality. Following the ever increasing market demands, the company has published more and more Hungarian language CD-ROM software. Until the end of the year 1996, CYBERSTONE ENTERTAINMENT Ltd. issued some 20 multimedia titles for the Hungarian market, and that number reached 100 by the end of 1998.

These publications included encyclopaedias, reference, game, edutainment and education titles. We consider the latter of special importance and some of them were among the tender-winning Multimedia Kit for Beginners, a software package distributed to some 1500 Hungarian schools by the Hungarian Ministry of Culture and Education. One of the most popular of these software was EPA's **LANGMaster Interactive English** language teaching CD-ROM series.

Currently, CYBERSTONE ENTERTAINMENT Ltd. has been engaged in developing several Hungarian and multilingual software which represent a wide-range of high-quality titles in the Hungarian and international multimedia market.

With the newly issued CD-ROM titles expected to come out in 1999, CYBERSTONE ENTERTAINMENT Ltd. will have a total of more than 180 Hungarian multimedia software.

The main goal of the company remains the developing and publishing of high-quality software which represent a significant slice of the wide-range of products offered by the local market to the Hungarian consumers. Our company supports excellent CD-ROM titles produced by other Hungarian software developing companies. We also attach special importance to the localisation of the most successful international CD-ROM publications by involving substantial intellectual and financial resources.
