License Agreement:

You should carefully read the following terms and conditions before using this software.   Unless you have a unique license agreement signed by a qualified representative of John Stanley Enterprises, your use of this software indicates your acceptance of this license agreement and warranty.

Site License:

The **unregistered** version of Urthman's MDB Construction Kit can be used on as many workstations as it can fit, and can be freely distributed in the same unaltered packaging from which it was originally provided. The objective of the unregistered package is to provide (A) a functional evaluation of a rapid application development tool and (B) a learning resource for the novice programmer.

One (1) **registered** copy of Urthman's MDB Construction Kit may be installed and used on a single computer or workstation and used non-simultaneously by multiple users.

Users of Urthman's MDB Construction Kit (registered or not) are free to modify and incorporate the databases and code modules generated by this utility without any royalties due to John Stanley Enterprises.

You are specifically prohibited from charging, or requesting donations, for any copies of this package. However, since distribution of the original and unaltered download package has no restrictions, this package can be included as demo-ware with other software distributions. This does not in any way imply John Stanley Enterprises endorsement or support of the accompanying package or packages.

Disclaimer of Warranty:

This software is provided "as is" and without warranties as to performance or merchantability or any other warranties whether expressed or implied.   Because of the various hardware and software environments into which Urthman's MDB Construction Kit may be installed and used, no warranty of fitness for a particular purpose is offered.

Good development policy dictates that any program be thoroughly tested with non-critical data before relying on its use.   Good policy also dictates that all code from outside sources, including from this database builder, be properly examined and scrutinized as necessary to determine it's proper fitness or suitability for the software being developed using that database or code.   The user, therefore, must assume the entire risk and responsibility of using the databases and code modules generated by this utility.

Registration:

In order to register the use of one copy of Urthman's MDB Construction Kit; send $89 (US) check or money order for a single site license payable to John Stanley Enterprises to the address below.   Please provide your full name, company name, street address, phone number, and email address.

> **John Stanley Enterprises**
> PO Box 1672
> Valrico, FL 33595-1672.

Email recipients will receive their registration code via email, and will be entitled to free updates for the duration of the version 1.x life cycle.   Postal mail recipients will receive their registration code via postal mail, but will not be entitled to updates due to the cost of shipping diskettes.

Note: John Stanley Enterprises reserves the right to refuse to issue licenses for nicknames and handles, and most likely will.   Site licenses will be issued to real names only, and multiple licenses can and will be issued to company or corporate names.

Feel free to contact the author: **urthman@usa.net**

Individuals that contribute significant ideas that are incorporated in future versions will also receive updates containing their contribution, and a mention of credit due for their contribution will be included in the documentation.
