

Registration

How does registration work?

You only need a serial number, which you have to enter at the beginning so that your program becomes the FULL-Version.

If it has to be really quick you can receive the serial number also by email or fax.

Registering ist very easy. You can order comfortably by Credit Card (toll free phone number), Bank/Wire Transfer, Check or Cash.

Advantages of registration:

- No Shareware reminders any more
- No disturbing while playing the slideshow
- No length limit for recording sound comments
- No length limit for number of images in the catalog
- No "unregistered version" text on your printed paper
- You get technical support via email
- You will be informed via email if there is a new version
- Your registration key will also work for versions with same starting number.
- If your registration key doesn't work because of major enhancements, you (as a registered user) will get a special update price.

Price:

Picmaster, only US\$24,90 (24,90 EUR)

Picmaster Update, Only \$15 (15 EUR)

Registered customers can order the Picmaster Update. Keep your old Picmaster serial number ready.

Here you find the frequently asked questions for the registration

New! When registering with credit card you get your serial number immediately

Program number for Picmaster Update: **#139017**

If you click here on [registration form](#) a [registration form](#) will be loaded which you can fill out and print easily.

Register FAQ

Here you find frequently asked questions for registration:

What is Shareware?

Shareware means that you can “try before you buy“.

You can test out the whole program and decide afterwards if it fits your needs. This is a great advantage compared to software buying from a shop.

Is the registration difficult?

Absolutely not. If you pay via credit card (toll free number or secure internet connection) you get your serial number immediately. If you have online banking, you can send the registration form via email or fax and transfer the money comfortably from home.

How long does it take until I get my registration key?

When paying via credit card you get your serial number immediately.

Other paying methods will normally take up to 48 hours.

Please be advised that checks and wire transfers can take a few days.

A major function in Picmaster doesn't work, will it work in the registered version?

No! If a major function does not work it will not work in the registered version either. The shareware version has some restrictions but they have been designed this way that you can still test out the functionality of the program. In this case contact me to clarify it.

I registered but did not get an answer yet.

If you do not get an answer in two weeks simply contact me via email.

What guaranties do I have to really get a serial number?

For shareware authors the registration is only the automated process of generating a serial number and sending it to the customer. Therefore the author has absolutely no reason not to send serial numbers.
