Advanced Uninstaller PRO 2003

Version 6.01 (September 23rd, 2003)

Advanced Uninstaller PRO is an easy to use suite for uninstalling applications and keeping your computer clean, fast and in it's best shape. All features of Advanced Uninstaller PRO are designed to be both safe and easy to use.

You can now easily uninstall programs by selecting the application from a list, or by dragging and dropping a file or shortcut on the Advanced Uninstaller PRO desktop icon.

The Startup Manager gives you control over the programs that are automatically started by Windows, and offers you detailed information about each one of them, including advice about what the program does and whether you should disable it or not. Advanced Uninstaller PRO includes a huge knowledge base containing startup program descriptions.

This new release contains a powerful registry cleaner, defragmenter and optimizer which will help you keep your registry fast, clean and easily accessible by all programs. A registry backup utility is also included.

The Quick Cleaner will allow you to perform a one step clean-up of your computer and to protect your privacy. It can safely delete the Internet visited pages history, the web addresses you typed, the Internet cookies and also the recently open files list for more than 100 applications, including Microsoft Office, Windows Media Player, ICQ, MSN, WinZip, RealPlayer, Kazaa, WinAmp, etc.

Advanced Uninstaller PRO also enables you to remove all not working Start Menu shortcuts, to hide and show them at your will and to alphabetically sort the entire Start Menu.

Some other important functions of Advanced Uninstaller PRO are: finding and deleting garbage and temporary files left behind by Windows, Internet Explorer and other applications, detailed Internet Explorer configuration by enabling or disabling it's toolbars, plug-ins and BHOs, a nice and powerful font manager, a Control Panel manager and many, many more.

This program is designed to run on Microsoft Windows 98/ME/NT/2000/XP/2003.
