K-Ninja v2.0 "Gold Edition"

Key Features:
* Based on K-Meleon v1.0 code.
° Fully customized (minimalistic) interface, chrome and config files.
° Rendering Engine: Mozilla Gecko v1.8.0.5
° Optimal and unique speed settings pre-configured.
° Mozilla extensions such as Aggreg8 RSS Reader, Flashblock & Quicknote included.
° Extremely lightweight STP MP3 Player included (200kb). STP can be accessed via the Compact Menu: Tools -> Applications -> STP MP3 Player, or pressing ALT + N will run STP as well. When run an icon for STP will appear in your System Tray. Right click on the icon for options or to play an MP3 or CD whilst browsing.
° New Default Theme: TheEternal.
° URL Shortcut Hotkeys now implemented. Compact Menu: Tools -> Hotkeys to set the URLs for your hotkeys.
° Installer now automatically registers K-Ninja as the default web browser for your OS/system, and also inserts the required registry entries for installing plugins like Flash Player & Shockwave.
° Now includes additional Web Search engines including MultiSearch: enter a search term and the results will be delivered via 6 popular search engines including Google (100 results per page), MSN, All The Web, Google Images, Ask.com & Gigablast.
