Central), subject to the agreement below. This agreement is a legally binding contract that should be read in its entirety

The Yahoo! Widget Engine is the operating environment for running Yahoo! Widgets, which are small programs that appear on your desktop and can be anything from desktop utilities to windows into Internet information and Yahoo! services.

Central will be set to alert you weekly about Yahoo! software updates. It will also monitor and notify you of changes to your browser home page or search, and default email program. Please note that Yahoo! Central will not notify you of changes to those settings if your browser already notifies you (e.g. Firefox), or if Microsoft® Windows AntiSpyware is running on your computer.
