1 Copyright

The Arles Image Web Page Creator evaluation version may be evaluated for 30 days. After this period users must register to keep using Arles. For ordering information go to the Arles Image Web Page Creator home page by selecting the following link in your Internet browser:

<http://www.digitaldutch.com/arles/order.htm>

Copyright (c) 1998-2006 Digital Dutch

2 Installation

Images database:

Arles stores image information, like image titles, in the images database. Arles does not overwrite image database files from previous versions.

If you want to maintain image database information, do *not* uninstall any previous Arles versions. If you do want to uninstall a previous version go to the Windows control panel and select "Add/Remove Programs".

To install:

Click the Arles.exe file and follow the instructions of the installation wizard.

Minimum requirements:

Pentium, 64Mb memory, 50Mb hard disk space, Windows 95/98/ME/NT/2000/XP or better

3 Program Description

Use Arles Image Web Page Creator to quickly and easily create image collections on the web. Arles creates high quality thumbnails, modifies images and automatically creates HTML pages. You can fine tune images and HTML pages using one of the many available options or use templates for full control over the pages. Arles supports over 20 image file formats and includes the Arles Image Explorer for easy image management. Text annotations, image logos and image borders (incl. 3D and button style borders) can be added to all your images in a single click.
